Constructive and Resulting Trusts Charles Mitchell, 2010-03-03 Constructive and resulting trusts have a long history in English law and the law which governs them continues to develop as they are pressed into service to perform a wide variety of different functions for example to support the working of express trusts and other fiduciary relationships to allocate family property rights and to undo the consequences of commercial fraud However while their conceptual flexibility makes them enormously useful it also makes them hard to understand In the twelve essays collected in this volume the authors shed new light on various aspects of the law governing constructive and resulting trusts revisiting current controversies bringing new historical material to the fore and offering new theoretical perspectives

Measuring Damages in the Law of Obligations Sirko Harder, 2010-07-12 This book challenges certain differences between contract tort and equity in relation to the measure in a broad sense of damages Damages are defined as the monetary award made by a court in consequence of a breach of contract a tort or an equitable wrong In all these causes of action damages usually aim to put the claimant into the position the claimant would be in without the wrong Even though the main objective of damages is thus the same for each cause of action their measure is not While some aspects of the measure of damages are more or less harmonised between contract tort and equity e g causation in fact and mitigation significant differences exist in relation to 1 remoteness of damage which is the question of whether when and to which degree damage needs to be foreseeable to be recoverable 2 the compensability of non pecuniary loss such as pain and suffering distress and loss of reputation 3 the effect of contributory negligence which is the victim's contribution to the occurrence of the wrong or the ensuing loss through unreasonable conduct prior to the wrong 4 the circumstances under which victims of wrongs can claim the gain the wrongdoer has made from the wrong and 5 the availability and scope of exemplary or punitive damages For each of the five topics this book examines the present position in contract tort and equity

and establishes the differences between the three areas It goes on to scrutinise the arguments in defence of existing differences The conclusion on each topic is that the present differences between contract tort and equity cannot be justified on merits and should be removed through a harmonisation of the relevant principles Equity & Trusts Alastair Hudson,2014-05-27 This new edition considers all of the academic commentary governing the area of equity and trusts in particular the emerging law of restitution and the raft of new case law over the 1990s It is suitable both as a scholarly reference and as a resource for students *Remedies in Australian Private Law* Katy Barnett,Sirko Harder,2018-09-07 The second edition of *Remedies in Australian Private Law* offers readers a clear and detailed introduction to remedies and their functions under Australian law Clearly structured with a strong black letter law focus the text provides a complete treatment of remedies in common law equity and statute and develops a framework for understanding the principles of private law remedies and their practical application This edition has been significantly revised and offers up to date coverage of case law and legislation including the Australian Consumer Law Building on the detailed treatment of remedies and their broad functions across a range of private law categories the new edition also offers expanded coverage of vindicatory damages debt specific restitution and coercive remedies With its systematic and accessible approach this text enables students and practitioners to develop a coherent understanding of remedial law and to analyse legal problems and identify appropriate remedial solutions **Trusts Law** Graham Moffat,Gerry Bean,Rebecca Probert,2009-09-03 Always the serious student's choice of a Trusts Law textbook this new edition once again provides a clear examination of the rules in the detail required by the advanced undergraduate This fifth edition retains its hallmark combination of a contextualized approach and a commercial focus The authors' commentary has been increased throughout this new edition whilst the fresh design clearly highlights the cases and materials extracts Recent statutory developments such as the Charities Act 2006 and the impact of a wealth of new cases are explored the examination of the law of trusts and taxation is restructured and comparative examples help students understand the new directions being taken in the areas of trust law and equitable remedies Trusts Law brings a modern perspective to a subject often perceived as traditional with suggestions for further reading guiding the student to contemporary debates **Justifying Private Law Remedies** C.E.F. Structure and Justification in Private Law C.E.F. Rickett, Ross Grantham, 2008-02-27 Peter Birks's tragically early death and his immense influence around the world led immediately to the call for a volume of essays in his honour by scholars who had known him as a colleague teacher and friend One such volume published in 2006 contained essays largely from scholars working in England Mapping the Law Essays in Memory of Peter Birks edited by Andrew Burrows and Lord Rodger This volume contains the essays of those outside England who chose to honour Peter and appears later than the English volume reflecting the far flung habitations of its authors The essays contained in this volume are focussed around the law of unjust enrichment but are not narrowly preoccupied instead they move freely from unjust enrichment to some of the most profound questions in private law concerning taxonomy the relationship between contract property and unjust enrichment and the place of remedies within private law This volume featuring the work of some of the world's great private lawyers provides a fitting tribute to a great scholar and a series of thought provoking essays inspired by his example Contributors Kit Barker Michael Bryan Peter Butler Hanoch Dagan Simone Degeling Daniel Friedmann Mark Gergen Ross Grantham Steve Hedley John McCamus Mitchell McInnes Eoin O Dell Charles Rickett Struan Scott Emily Sherwin Stephen Smith Richard Sutton Michael Tilbury Stephen Waddams Peter Watts Ernest Weinrib Eric Descheemaeker

Property Law Duncan Sheehan,2017-05-18 The law of personal property covers a very wide spectrum of scenarios and unfortunately has had little detailed scrutiny of its overarching structure over the years It is a system and can best be understood as a system Indeed without understanding it as a system it becomes much more difficult to comprehend The second edition of this acclaimed textbook continues to provide a comprehensive yet detailed coverage of the law of personal property in England and Wales It includes transfer of legal title to chattels the nemo dat rule negotiable instruments and assignment of choses in action It also looks at defective transfers of property and the resulting proprietary claims including those contingent on tracing the tort of conversion bailment and security interests By bringing together areas often scattered throughout company law commercial law trusts and tort textbooks it enables readers to see common themes and issues and to make otherwise impossible generalisations across different contexts about the nature of the concepts English law applies Throughout the book concepts are explained rigorously with reference to how they are used in commercial practice and

everyday life The new edition also includes a new chapter on secured transactions law reform and introduces new material on the Cape Town Convention IP rights and other intangible property The book will be of primary interest to academics and practitioners in the area However it will also be of use to students studying commercial or personal property law *The Principle of Unjust Enrichment* Alexander Schall, 2024-12-16 The principle of unjust enrichment came into fruition under English law in the last decade It is now accepted that the four stage test enrichment at the expense unjust factor and no defences triggers remedies in restitution Unjust enrichment resembles Civilian unjustified enrichment in many ways But it also differs considerably in others just as do French and German unjustified enrichment The book aims to explain this

Equity and Trusts Alastair Hudson, 2009-09-11 Equity and Trusts is an ideal textbook for undergraduate courses on the law of trusts and equitable remedies It provides a clear current and comprehensive account of the subject through which the author's enthusiasm and expertise shine through helping to bring to life an area of the law which students often find difficult Beginning with the core principles Professor Hudson reinforces the key points by means of clear examples throughout each chapter helping students to build and develop their own knowledge of equity and trusts **Restitution and Insolvency** Francis D. Rose, 2000 The application of restitution and insolvency law has increased in recent years These two areas of law were discussed at the annual conference of the restitution section of the Society of Public Teachers of Law in Leeds in September 1999 The revised papers are joined here by a variety of papers from other sources and explore a range of topical subjects of common interest to restitution and insolvency from theoretical comparative and practical perspectives
