

# 3 IMAGO RELATIONSHIP THERAPY DIALOGUE STEPS

1

**MIRRORING** – When one partner shares their feelings, the other partner simply mirrors back. This prevents potential miscommunication, makes the partner feel heard & helps the listener self regulate.

2

**VALIDATION** – validate your spouse's perspective by saying, "what your saying makes sense and you make sense." This is not tantamount to agreeing or saying your partner is right. You're letting them know they're entitled to their own perspective.

3

**EMPATHY** – To truly listen and enter your spouse's world necessitates feeling their pain and experience. Empathizing allows your spouse to know that you truly get them. Guess two emotions your spouse is feeling by saying, " I Imagine you are feeling .... Is that what you are feeling?"

## **Restoration Of Dialogue:**

**The Dialogue in English Literature** Elizabeth Merrill, 1911

**The Restoration of Dialogue** Ronald B.

Miller, 1992-01-01 This book is intended as a remedy a bibliotherapy of sorts for a serious malady that afflicts the mental health professions themselves but that remains largely undiagnosed The disorder requiring urgent treatment is the splitting of clinical theory from its historical and logical foundation in Western philosophy the resulting inability to speak effectively about theoretical differences and the fragmentation into rival professions and theoretically isolated schools of treatment What is required as an antidote to this tendency toward a dogmatic schismatic and often cultist approach to clinical theory is the recognition of the philosophical nature of these theoretical disputes and the restoration of philosophical methods of analysis and dialogue to a central role in the development of clinical theory In this manner the energies that currently are invested in the protection of professional turf and ideological diatribe may be devoted instead to collaborative discourse research and action This is what will be required to make genuine headway in understanding that particular form of human misery and suffering that is variously called behavior disorders emotional disturbance problems in living or mental illness PsycINFO Database Record c 2004 APA all rights reserved

[Airless Worlds and the Restoration of Psychic Breathing](#)

Steven Stern, 2025-08-11 This book focuses on the recognition and psychoanalytic treatment of a debilitating form of early relational trauma poignantly described by Steven Stern as airless world syndrome A patient can be said to be living in an airless world when one or both parents have failed to recognize or worse actively negated their child s subjective experience and needs instead imposing their subjective reality on the child such that the child had no choice but to adopt the parents reality as their own When a child s mind is captured in this way what Stern calls identification with negation the result is an unconscious bondage to the internalized negating other which can be disabling to the senses of self personal agency and realness With extended clinical examples in every chapter Stern brings the reader into the depths of each patient s airless world and the co created needed relationship that ultimately fitfully transforms it Written in a detailed yet accessible style this book is invaluable to psychoanalysts and psychotherapists in practice and in training
