

The Jeffersonian Ideal in 21st-Century America

RESTORATION OF THE REPUBLIC

A portrait of Thomas Jefferson, the author of the book, is centered in the lower half of the cover. He is depicted from the chest up, wearing a dark coat and a white cravat. The portrait is set against a circular, slightly faded background that blends into the overall image of the Parthenon.

Restoration Of The Republic The Jeffersonian Ideal In 21st Century America

Gary Hart

Restoration Of The Republic The Jeffersonian Ideal In 21st Century America:

Restoration of the Republic Gary Hart,2023 Bringing to light a long neglected aspect of Thomas Jefferson's political philosophy Gary Hart here offers a blueprint for republican restoration in which every US citizen can participate democratically in the governing of his or her own life Restoration of the Republic Gary Hart,2002 In this timely work former U S Senator Gary Hart argues for the Jeffersonian roots of homeland security In Search of Jefferson's Moose David G. Post,2009-01-21 In 1787 Thomas Jefferson then the American Minister to France had the complete skeleton skin horns of an American moose shipped to him in Paris and mounted in the lobby of his residence as a symbol of the vast possibilities contained in the strange and largely unexplored New World Taking a cue from Jefferson's efforts David Post one of the nation's leading Internet scholars here presents a pithy colorful exploration of the still mostly undiscovered territory of cyberspace what it is how it works and how it should be governed What law should the Internet have and who should make it What are we to do and how are we to think about online filesharing and copyright law about Internet pornography and free speech about controlling spam and online gambling and cyberterrorism and the use of anonymous remailers or the practice of telemedicine or the online collection and dissemination of personal information How can they be controlled Should they be controlled And by whom Post presents the Jeffersonian ideal small self governing units loosely linked together as peers in groups of larger and larger size as a model for the Internet and for cyberspace community self governance Deftly drawing on Jefferson's writings on the New World in Notes on the State of Virginia Post draws out the many similarities and differences between the two terrains vividly describing how the Internet actually functions from a technological legal and social perspective as he uniquely applies Jefferson's views on natural history law and governance in the New World to illuminate the complexities of cyberspace In Search of Jefferson's Moose is a lively accessible and remarkably original overview of the Internet and what it holds for the future A Theory of Personalism Thomas R. Rourke,Rosita A. Chazarreta Rourke,2006-12-01 This distinctive and contemporary departure from hackneyed discussions of political theory introduces readers to a contemporary personalism rooted in the work of Bartolome de Las Casas and emerging again in the contributions of Dorothy Day Peter Maurin as well as the liberation theology of Gustavo Guterrez and Jon Sobrino Thomas R. Rourke and Rosita A. Chazarreta Rourke introduce readers to new sources of personalism by investigating and revising the intellectual history of this theory and its development *Democracy's Muse* Andrew Burstein,2015-04-13 In political speech Thomas Jefferson is the eternal flame No other member of the founding generation has served the agendas of both Left and Right with greater vigor When Franklin Roosevelt dedicated the iconic Jefferson Memorial on the founder's two hundredth birthday in 1943 he declared the triumph of liberal humanism Harry Truman claimed Jefferson as his favorite president too And yet Ronald Reagan was as great a Jefferson admirer as any Democrat He had a go to file of Jefferson's sayings and enshrined him as a small government conservative So who owns Jefferson the Left or the Right The unknowable yet

irresistible third president has had a tortuous afterlife and he remains a fixture in today's culture wars. Pained by Jefferson's slaveholding Democrats still regard him highly. Until recently he was widely considered by many African Americans to be an early abolitionist. Libertarians adore him for his inflexible individualism and although he formulated the doctrine of separation of church and state, Christian activists have found intense religiosity between the lines in his pronouncements. The renowned Jefferson scholar Andrew Burstein lays out the case for both Democrat and Republican Jefferson as he interrogates history's greatest shape shifter the founder who has inspired perhaps the strongest popular emotions. In this timely and powerful book Burstein shares telling insights as well as some inconvenient truths about politicized Americans and their misappropriations of the past including the concoction of a Jeffersonian stance on issues that Jefferson himself could never have imagined. Here is one book that is more about us than it is about Jefferson. It explains how the founding generation's most controversial partisan became essential to America's quest for moral security how he became in short democracy's muse.

Thomas Jefferson Thomas Jefferson, 2009. Philosopher diplomat politician inventor writer architect even gardener from a historical perspective. Thomas Jefferson emerges as an extraordinary individual one who was clearly many things to many people. But too precisely because of these same collective endeavors he has become so much a part of America's ongoing search for itself so deeply entwined in the tapestry of America's grand democratic experiment that in many instances succeeding generations have been largely unable to picture him clearly and objectively in his own life and times. The most comprehensive portrait of the founding fathers can be seen in their personal letters and journal entries. Jefferson is no exception and those he wrote concerning war and revolution through many of the most critical episodes in early American history are of singular importance. The format of the letters has been preserved whenever possible and collectively they provide a unique glimpse into the character and thought processes of Jefferson warrior and revolutionary. Whether he is writing to peers such as James Madison Patrick Henry and George Washington to French associates such as the Marquis de Lafayette and Hector St John de Crevecoeur or even to British adversaries such as the American traitor Benedict Arnold and Sir Guy Carleton the British Governor of Canada Jefferson demonstrates a striking understanding of the issues. And whether the subject might be an argument for national retaliation the treatment of prisoners of war or the application of blockades in naval engagements he writes with remarkable clarity insight and eloquence. As the text presents in their entirety the original written correspondence which succeeding generations of historians have repeatedly cited as the basis for the interpretation of events or conclusions of fact *Thoughts on War and Revolution* is both a comprehensive reference resource as well as a unique supplement to the existing literature.

A Politics of All Dean Caivano, 2024-04-08. No historical figure is more synonymous with establishing American democracy than Thomas Jefferson. Revolutionary iconoclastic yet pragmatic the legacy of Jefferson as an intellectual and politician continues to reverberate across academic and public circles. However Jefferson's writings on power authority and politics point to a different understanding of self government than dominant

liberal and republican interpretations suggest Dean Caivano's interpretation of Jefferson's political anthropological and sociological meditations on power reveals an unknown Jefferson who conceives the American nation state as a network of dynamic autonomous communities enacted by a politics of all. Caivano pointedly argues that this unknown Jefferson fittingly aligns with historical and contemporary projects of radical democracy stressing the need for constant resistance, inquiry, and dialogue. In a period fraught with political division and hyper partisanship, this timely innovative reading of Jefferson invites a reappraisal of how we understand a vital founder of the American republic and what is at stake in the battle to save American democracy.

The American Republic Can Save American Democracy Gary Hart, 2022-09-06 Senator Hart's voice can heal the country and chart a real course toward equality, freedom, and hope for all. Hugh Jackman: In 1776 America's Founders proclaimed the new nation a republic with a democratic form of government. Although American democracy has survived for almost 250 years, the rise of populist nationalism in the United States and abroad creates a potent threat that highlights democracy's vulnerability. In this important and timely work, Gary Hart argues that only by restoring the qualities of the republic in America—namely popular sovereignty, a sense of the common good, resistance to corruption, and civic virtue—can American democracy be saved.

The English Constitution Ian Ward, 2004-07-30 This book aims to provide a stimulating text for both academics and students, advancing a series of original ideas about the English constitution.

The Liberals' Moment Bruce Miroff, 2009 Revisits the largely forgotten story of how the McGovern campaign represented the zenith of sixties style liberalism and how its historic defeat still haunts Democrats to this day and in the process identifies what Democrats must do before they can reassume their role as agents of progressive change.

Fixing the System Adrian Kuzminski, 2008-06-01 In the current climate of dissatisfaction with democratic Western political and economic systems, this is a timely book that demonstrates a true political Third Way. Populism is distinguished from other political movements by its insistence on two things conspicuously missing from modern systems of political economy: genuine democracy based on local citizen assemblies and the widespread distribution among the population of privately owned economic capital. Fixing the System offers a comprehensive historical account of populism, revealing the consistent and distinct history of populism since ancient times. Adrian Kuzminski demonstrates that populism is a tradition of practice as well as thought, ranging from ancient city states to the frontier communities of colonial America, all places where widely distributed private property and democratic decision making combined to foster material prosperity and cultural innovation. In calling for a wide distribution of both property and democracy, populism opposes the political and economic system found today in the United States and other Western countries where property remains highly concentrated in private hands and where representatives chosen in impersonal mass elections frustrate democracy by serving private monetary interests rather than the public good. As Kuzminski demonstrates, as one of very few systematic alternatives to today's political and economic system, populism offers a pragmatic program for fundamental social change that deserves wide and serious consideration. Populism is a genuine third way in

politics a middle path between the extremes of corporate anarchy and collective authoritarianism As America takes stock of her current situation and looks toward the future in the 2008 election year *Fixing the System* offers a trenchant and timely study of this deep rooted movement *Enlightened Republicanism* David Tucker,2008-01-01 *Enlightened Republicanism* is the first book length study of Thomas Jefferson s *Notes on the State of Virginia* It reveals the character and intent of his revolutionary politics which sought to bring political life as much as possible into accord with the complex and varied demands of nature **The Republic of Conscience** Gary Hart,2016-02-02 This book is a meditation on the growing gap between the founding principles of the United States Constitution and our current political landscape Going back as early as 400 BC the idea of a true republic has been threatened by narrow special interests taking precedence over the commonwealth The U S Constitution was drafted to protect against such corruption but as this book shows America is nowhere near the republic it set out to be almost 250 years ago falling to the very misconduct it hoped to avoid

Patriotism, Democracy, and Common Sense Alan Curtis,2005-11-30 *Patriotism Democracy and Common Sense* is a new strategic analysis of common sense alternatives to the public policies America has pursued since September 11 2001 This important book features more than three dozen internationally known experts in economics foreign and domestic policy media and political action **Call to Virtue** Kim A. Mayyasi,2016-03 The American republic was the Enlightenment s greatest experiment an attempt to institutionalize virtuous character as never done before *Call to Virtue* explains the role of character as the driving force behind the rise and fall of empires the well being of citizens lives and the structure of governments and their constitutions It draws a line between the definitions of virtue from ancient times to the motivating force behind our nation s founding The book surveys 3 000 years of Western civilization and uses the voices of history s greatest participants to create a narrative describing character s pivotal role It describes how definitions of character were an integral part of philosophy government and religion from ancient Greece and Rome to the European Enlightenment and underpin the colonial spirit of America s founding *Libertines* J. Michael Martinez,2022-06-15 *Libertines* seeks to understand why public figures sometimes take extraordinary risks sully their good names humiliating their families placing themselves in legal jeopardy and potentially destroying their political careers as they seek to gratify their sexual desires From Hamilton to Trump and the many in between each case of sexual misconduct in this book shows the seamy side of political lives with calculations about covering discretions or portraying them favorably occurring only after the fact **So Help Me God** Forrest Church,2008-09-08 The author of *The American Creed* tells the story of our nation s historical encounters with God and culture Peter J Gomes New York Times bestselling author Today s dispute over the line between church and state or the lack thereof is neither the first nor the fiercest in our history In a revelatory look at our nation s birth Forrest Church recreates our first great culture war a tumultuous nearly forgotten conflict that raged from George Washington s presidency to James Monroe s Religion was the most divisive issue in the nation s early presidential elections

Battles raged over numerous issues while the bible and the Declaration of Independence competed for American affections. The religious political wars reached a vicious peak during the War of 1812 the American victory drove New England's Christian right to withdraw from electoral politics thereby shaping our modern sense of church state separation. No longer entangled both church and state flourished. Forrest Church has written a rich page turning history a new vision of our earliest presidents beliefs that stands as a reminder and a warning for America today. An illuminating study of the great tangle of our time. If we look back to our early years we may well find a way forward. Jon Meacham 1 New York Times bestselling author of *His Truth is Marching On*. In this beautifully crafted and timely work the aptly named Church takes us through the complex thoughts and actions of the nation's founders in a way that will give pause to most readers. This is an important work that delights and informs. Publishers Weekly starred review. *The US-Iran Relationship* Penelope Kinch, 2016-07-18 Since the Revolution of 1978-79 which eventually brought to power Ayatollah Khomeini and his circle of conservative though politically active clerics the relationship between Iran and the USA has represented one of the world's most complex and hostile international entanglements. In this book Penelope Kinch analyses the extent to which political identity has contributed to challenges in the relationship and the role of myths in foreign policy. Kinch first examines the construction of political identity in each country and thereby traces the imagined norms which have their impact on international behaviour. Looking at the misperceptions that have precluded closer communication between the two states Kinch examines both historical issues such as the 1979 US embassy hostage crisis as well as more contemporary crises most notably over Iran's nuclear power programme. **The Fourth Power** Gary Hart, 2004-07-15 Today even as America asserts itself globally it lacks a grand strategy to replace containment of communism. In this short sharp book Gary Hart outlines a new grand strategy one directing America's powers to the achievement of its large purposes. Central to this strategy is the power of American ideals what Hart calls the fourth power Constitutional liberties representative government press freedom these and other democratic principles attractive to peoples worldwide constitute a resource that may prove as important to national security and the national interest in this dangerous new century as traditional military economic and political might. A bracing vision of an America responsive to a full spectrum of global challenges. *The Fourth Power* calls for a deeper understanding both of the threats we face and the profound strengths at our disposal to fight them. **The Courage of Our Convictions** Gary Hart, 2025-06-25 An impassioned call to arms for Democrats to embrace the principles that made the party and the country great a true moral vision for leadership at home and abroad. In this powerful and provocative manifesto a cri de coeur for Democrats who have grown increasingly frustrated with their party's leaders former senator Gary Hart takes the Democrats to task for choosing caution and calculation in place of moral principles. That path Hart says will lead only to sorrow for the party and for the country. *The Courage of Our Convictions* is Hart's call to action a clear eyed and plainspoken manifesto that urges a return to the principles bequeathed to the party by its great twentieth century presidents Franklin D

Roosevelt's commitment to a single national community where no American would be left behind Harry S Truman's internationalism which preserved democracy after World War II and led eventually to the defeat of communism John F Kennedy's ideal of civic duty and service to the nation and Lyndon B Johnson's insistence on equality for all our citizens As the midterm elections approach and with the 2008 presidential election just over the horizon Hart speaks directly and passionately to the many Democrats who seek a principled change of leadership in Washington It is the wake up call that so many Americans have been waiting for
