

The Restoration (1660)

Restoration The Making Of The Modern Nation 1660 1707

Karin Bowie

Restoration The Making Of The Modern Nation 1660 1707:

Spain and the Irish Mission, 1609-1707 Cristina Bravo Lozano, 2018-10-26 *Spain and the Irish Mission 1609 1707* examines Spanish confessional policy in 17th century Ireland Cristina Bravo Lozano provides an innovative perspective on Spanish Irish relations during a crucial period for Early Modern European history Key historical actors and events are brought to the fore in her account of the missionary networks created around the Irish Catholic exile in the Iberian Peninsula She presents a comprehensive study of this form of royal patronage the changes and challenges Irish Catholicism had to face after the peace of London 1604 and the role that Irish missionaries played in preserving its place within the framework of Anglo Spanish relations

Imagining Early Modern London J. F. Merritt, 2001-08-30 The 120 years that separate the first publication of John Stow's famous *Survey of London* in 1598 from John Strype's enormous new edition of the same work in 1720 witnessed London's transformation into a sprawling Augustan metropolis very different from the compact medieval city so lovingly charted in the pages of Stow *Imagining Early Modern London* takes Stow's classic account of the Elizabethan city as a starting point for an examination of how generations of very different Londoners men and women antiquaries merchants skilled craftsmen labourers and beggars experienced and understood the dramatically changing city A series of interdisciplinary essays explore the ways in which Londoners interpreted and memorialized their past how individuals located themselves mentally socially and geographically within the city and how far the capital's growth was believed to have a moral influence upon its inhabitants

The Putney Debates of 1647 Michael Mendle, 2001-08-27 In the autumn of 1647 soldiers and officers of Oliver Cromwell's New Model Army held discussions near London on the constitution and future of England Would there be a king and lords or not Would suffrage be limited to property holders Would democratic changes lead to anarchy Three generations of scholars examine the debates in their multiple contexts the debates themselves the nature and history of the text that has come down to us the army's immediate concerns the role of Leveller and other democratic ideas the wider ramifications for politics and gender and the place of the debates and the Levellers in later historical consciousness The debates receive here their most sustained and varied scrutiny resulting in a much richer appreciation of the very words reported to have been spoken by Oliver Cromwell Henry Ireton Thomas Rainborough and the others during those three tense and exhilarating days

The Making of the United Kingdom, 1660-1800 Jim Smyth, 2001 The three kingdoms or four nations which became the United Kingdom of Great Britain and Ireland in 1801 have distinct but not separate histories Sensitive questions of religion local loyalty and allegiance to the state shaped politics within and between the four nations and still give an edge to politics in parts of modern Britain In 1660 the restoration of Charles II to all three of his kingdoms was followed by an attempt to impose religious uniformity across his kingdoms It failed The make up of the British Isles was too diverse Tories Jacobites radicals and Whigs each had strong links to a Church or religious faction Politics and religion could intermingle dangerously Fear of popery was a major cause of the revolution of 1688 and at

the beginning of the eighteenth century Presbyterians led Scottish opposition to a union until they were recognised as an established church At the end of the century the architects of the act of union with Ireland hoped finally to resolve the Catholic Question but as it does today constitutional change brought issues of national identity to the fore The eighteenth century witnessed the triumph of unionism on the larger island and the rise of nationalism and separatism across the Irish sea The Making of the United Kingdom seeks to explain that crucial divergence and gives an incisive account of the forging of Britishness the sense of a new nation Jim Smyth is Professor of History University of Notre Dame **The Oxford**

Handbook of British Poetry, 1660-1800 Jack Lynch, 2016-11-10 In the most comprehensive and up to date overview of the poetry published in Britain between the Restoration and the end of the eighteenth century forty four authorities from six countries survey the poetry of the age in all its richness and diversity serious and satirical public and private by men and women nobles and peasants whether published in deluxe editions or sung on the streets The contributors discuss poems in social contexts poetic identities poetic subjects poetic form poetic genres poetic devices and criticism Even experts in eighteenth century poetry will see familiar poems from new angles and all readers will encounter poems they've never read before The book is not a chronologically organized literary history nor an encyclopaedia nor a collection of thematically related essays rather it is an attempt to provide a systematic overview of these poetic works and to restore it to a position of centrality in modern criticism The Oxford Handbook of British Poetry, 1660-1800 John T. Lynch, 2016 In the most

comprehensive up to date account of the poetry published in Britain between the Restoration and the end of the eighteenth century a team of leading experts surveys the poetry of the age in all its richness and diversity They provide a systematic overview and restore these poetic works to a position of centrality in modern criticism *Public Opinion in Early Modern Scotland, c.1560-1707* Karin Bowie, 2020-12-17 Reveals the dynamics and rise in prominence of Scottish public opinion in a period of religious and constitutional tension **The British Problem c.1534-1707** Brendan Bradshaw, John

Morrill, 1996-06-27 This pioneering book seeks to transcend the limitations of separate English Irish Scottish and Welsh histories by taking the archipelago made up of the islands of Britain and Ireland as a single unit of study There has been little attempt hitherto to study the history of the Atlantic archipelago as a coherent entity even for the period during which there was a single ruler of both Great Britain and Ireland This book begins with the onset of the intellectual religious political cultural and dynastic developments that were to bring the Scottish house of Stewart to the thrones of England incorporating the ancient principality of Wales Ireland a kingdom created in 1541 as a dependency of the English Crown and to full control of Scotland itself and of its islands This is then a story of the creation of a British state system if not a British state but the book is also a study of how the peoples of the archipelago interacted as a result of internal migration military conquest protestant and Tridentine Catholic evangelism and how they were changed as a result Ten distinguished historians representing the separate peoples of the islands of Britain and Ireland and teaching history in Britain Ireland and the USA

offer provocative and challenging new approaches to how and why we need to develop the history of each component of the archipelago in the context of the whole and to make the British Problem central to that study Restoration Politics, Religion and Culture George Southcombe, Grant Tapsell, 2009-11-27 This indispensable introductory guide offers students a number of highly focused chapters on key themes in Restoration history Each addresses a core question relating to the period 1660 1714 and uses artistic and literary sources as well as more traditional texts of political history to illustrate and illuminate arguments George Southcombe and Grant Tapsell provide clear analyses of different aspects of the era whilst maintaining an overall coherence based on three central propositions 1660 1714 represents a political world fundamentally influenced by the civil wars and interregnum The period can best be understood by linking together types of evidence too often separated in conventional accounts The high politics of kings and their courts should be examined within broader social and geographical contexts Featuring chapters on the exclusion crisis Charles II and James VII II as well as the British dimension restoration culture and politics out of doors this is essential reading for anyone studying this fascinating period in British history **The Stuart Kingdoms in the Seventeenth Century** Allan I. Macinnes, Jane H. Ohlmeyer, 2002 These essays offer fresh and exciting research often by younger scholars and innovative insights from regional national and international perspectives **The Stuart Age** Barry Coward, Peter Gaunt, 2017-02-16 The Stuart Age provides an accessible introduction to England's century of civil war and revolution including the causes of the English Civil War the nature of the English Revolution the aims and achievements of Oliver Cromwell the continuation of religious passion in the politics of Restoration England and the impact of the Glorious Revolution on Britain The fifth edition has been thoroughly revised and updated by Peter Gaunt to reflect new work and changing trends in research on the Stuart age It expands on key areas including the early Stuart economic religious and social context key military events and debates surrounding the English Civil War colonial expansion foreign policy and overseas wars and significant developments in Scotland and Ireland A new opening chapter provides an important overview of current historiographical trends in Stuart history introducing readers to key recent work on the topic The Stuart Age is a long standing favourite of lecturers and students of early modern British history and this new edition is essential reading for those studying Stuart Britain Culture and Society in the Stuart Restoration Gerald M. MacLean, 1995-04-27 Literary and cultural changes reflecting new commercial and imperial interests of Restoration Britain **Ideologies of Western Naval Power, c. 1500-1815** J.D. Davies, Alan James, Gjs Rommelse, 2019-06-25 This ground breaking book provides the first study of naval ideology defined as the mass of cultural ideas and shared perspectives that for early modern states and belief systems justified the creation and use of naval forces Sixteen scholars examine a wide range of themes over a wide time period and broad geographical range embracing Britain the Netherlands France Spain Sweden Russia Venice and the United States along with the extra national politics of piracy neutrality and international Calvinism This volume provides important and often provocative new insights into both the

growth of western naval power and important elements of political cultural and religious history **Scottish Public Opinion and the Anglo-Scottish Union, 1699-1707** Karin Bowie,2007 The Anglo Scottish union crisis is used to demonstrate the growing influence of popular opinion in this period Early Modern England 1485-1714 Robert Bucholz,Newton Key,2013-04-03 The second edition of this bestselling narrative history has been revised and expanded to reflect recent scholarship The book traces the transformation of England during the Tudor Stuart period from feudal European state to a constitutional monarchy and the wealthiest and most powerful nation on Earth Written by two leading scholars and experienced teachers of the subject assuming no prior knowledge of British history Provides student aids such as maps illustrations genealogies and glossary This edition reflects recent scholarship on Henry VIII and the Civil War Extends coverage of the Reformations the Rump and Barebone s Parliament Cromwellian settlement of Ireland and the European Scottish and Irish contexts of the Restoration and Revolution of 1688 9 Includes a new section on women s roles and the historiography of women and gender Click here for more discussion and debate on the authors blogspot <http://earlymodernengland.blogspot.com> Wiley disclaims all responsibility and liability for the content of any third party websites that can be linked to from this website Users assume sole responsibility for accessing third party websites and the use of any content appearing on such websites Any views expressed in such websites are the views of the authors of the content appearing on those websites and not the views of Wiley or its affiliates nor do they in any way represent an endorsement by Wiley or its affiliates *Atlantic Circulations* Edward Holberton,2025-04-02 *Atlantic Circulations* investigates literary conversations about empire in the British Atlantic world c 1650 1750 Reading texts by Anne Bradstreet John Milton Daniel Defoe and Benjamin Franklin as well as writing by overlooked authors who deserve more attention such as the Quaker anti slavery activist Benjamin Lay and the Black classicist Francis Williams it asks how literary culture interacted with transatlantic debates about law enslavement economics and religious freedom This study explores the relationship between literature and empire by joining up disciplinary areas Early Modern English Literature and Early American Literature which are often considered apart It develops insights and analytical frameworks from recent British and Atlantic World history to argue that the transatlantic reception of literary texts was often shaped by archipelagic dynamics political and religious tensions between and within England and Wales and Scotland and Ireland *Atlantic Circulations* examines several previously unknown manuscripts and archives which throw new light on the circulation of literary texts in colonial culture and reconstructs key Anglophone transatlantic cultural debates during a crucial phase of European expansion in the Atlantic world This book will appeal to advanced students and academic researchers of early modern and eighteenth century English literature and British cultural history especially readers with an interest in literature s relationships with empire colonialism and travel and scholars of early American literature and history A Political Biography of Jonathan Swift David Oakleaf,2015-10-06 Most famous as the author of *Gulliver s Travels* Jonathan Swift 1667 1745 was one of the most important

propagandists and satirists of his day This study seeks to contextualize Swift within the political arena of his day **The Anglo-Irish Experience, 1680-1730** David Hayton,2012 David Hayton examines the political culture of the Anglo Irish ruling class which had settled in Ireland in different ways over a long period and had differing degrees of attachment to England and shows how its multi faceted identity evolved **Louis XIV Outside In** Tony Claydon,Charles-Édouard Levillain,2016-04-22 Louis XIV the Sun King casts a long shadow over the history of seventeenth and eighteenth century Europe Yet while he has been the subject of numerous works much of the scholarship remains firmly rooted within national frameworks and traditions Thus in France Louis is still chiefly remembered for the splendid baroque culture his reign ushered in and his political achievements in wielding together a strong centralised French state whereas in England the Netherlands and other protestant states his memory is that of an aggressive military tyrant and persecutor of non Catholics In order to try to break free of such parochial strictures this volume builds upon the approach of scholars such as Ragnhild Hatton who have attempted to situate Louis legacy within broader pan European context But where Hatton focused primarily on geo political themes Louis XIV Outside In introduces current interests in cultural history integrating aspects of artistic literary and musical themes In particular it examines the formulation and use of images of Louis XIV abroad concentrating on Louis neighbours in north west Europe This broad geographical coverage demonstrates how images of Louis XIV were moulded by the polemical needs of people far from Versailles and distorted from any French originals by the particular political and cultural circumstances of diverse nations Because the French regime s ability to control the public image of its leader was very limited the collection highlights how at least in the sphere of public presentation his power was frequently denied subverted or appropriated to very different purposes questioning the limits of his absolutism which has also been such a feature of recent work **National Myth and Imperial Fantasy** Louise H. Marshall,2008-11-12 Eighteenth century drama is often dismissed as homogenous aesthetically uninteresting or politically complacent This book reveals the incredibly intriguing and intricate nature of the period s history plays and their often messy dramatisaton of the complexities of patriotic rhetoric and national identification

Unveiling the Energy of Verbal Beauty: An Psychological Sojourn through **Restoration The Making Of The Modern Nation 1660 1707**

In a world inundated with screens and the cacophony of immediate communication, the profound energy and mental resonance of verbal artistry frequently diminish into obscurity, eclipsed by the regular onslaught of noise and distractions. However, situated within the musical pages of **Restoration The Making Of The Modern Nation 1660 1707**, a fascinating work of literary splendor that pulses with organic thoughts, lies an unique journey waiting to be embarked upon. Penned by way of a virtuoso wordsmith, that enchanting opus manuals visitors on an emotional odyssey, lightly exposing the latent possible and profound affect stuck within the delicate internet of language. Within the heart-wrenching expanse of the evocative examination, we shall embark upon an introspective exploration of the book is key subjects, dissect their captivating writing style, and immerse ourselves in the indelible effect it leaves upon the depths of readers souls.
