Restructuring Regional And Local Economies Towards A Comparative Study Of Scotland And Upper Silesia:

Restructuring Regional and Local Economies George Blazysca, 2017-11-22 This title was first published in 2003 Throughout Western Europe and the former Soviet bloc the structural shift from traditional heavy industry towards lighter manufacturing and services has often had a strong regional dimension This volume brings together researchers and practitioners from Scotland and Poland to share such restructuring experiences The Poles now closer than ever to EU membership are eager to draw on Western experience while Western experts and institutions have an opportunity to contribute to shaping regional policy in Central Europe The book is divided into four sections the first examines economic transformation and restructuring the second focuses on social partnerships and their role in regional development the third looks at enterprise supporting initiatives the final section questions the role of FDI Its Scottish Polish focus provides a fresh perspective on policy for regional and local development summarising recent developments in both countries and stressing the importance of building appropriate institutional capacity to promote strong local economies **Silesia Superior** Renata Dampc-Jarosz, Andrzej Kowalczyk, Lucyna Sadzikowska, 2025-05-12 The objective of this inaugural volume on Upper Silesia is to present an area of considerable cultural historical social and natural diversity from a transdisciplinary perspective The common denominator of the works collected in this volume is the reflection on the multiple perspectives identity and diversity of this region The legal sociological historical cultural geographic economic hydrological climatological and natural aspects of Upper Silesia from the past to the present are the focus of the works The selection of texts has been curated to underscore the intricacies and contemporary relevance of the subject of Upper Silesia thereby highlighting its originality The present volume is the outcome of a comparative research project in which researchers from various scientific disciplines discuss selected aspects of the diversity of Upper Silesia **The Changing Economic Geography of Companies and Regions in Times of Risk, Uncertainty, and Crisis** Thomas Neise, Philip Verfürth, Martin Franz, 2024-11-13 This book offers conceptual and empirical insights from economic geography to explore how uncertainties crises and risks shape reshape and ultimately transform the spatial arrangements of companies and regions This book provides valuable insights into the evolving landscape of economic interactions amidst contemporary challenges It explores concepts such as global value chains global production networks regional resilience and the impact of crises risks and uncertainties on spatial economic patterns Case studies from various regions nations and industries including lesser researched sectors such as medical technology and the restaurant and bar industry offer tangible and real world manifestations of these dynamics Through its comprehensive coverage and interdisciplinary approach this book equips readers with practical knowledge applicable to academia and real world contexts It offers a deeper understanding of the complex interplay between economic geography and contemporary challenges at a variety of levels The book provides valuable perspectives for academics practitioners and policy makers in the fields of Economic Geography Regional Studies Political Sciences Economic Sociology

Economics and International Business Studies *Fallen heroes in global capitalism* V. Trappman, Vera Trappmann, 2013-05-07 Through the prism of Nowa Huta a landmark of socialist industrialization Trappmann challenges the one sided account of Poland as a successful transition case and reveals the ambivalent role of the European Union in economic restructuring An exemplary suggestive case of multi level analysis research Transforming Glasgow Rebecca Madgin, Keith Kintrea, 2019-12-18 Some 30 years after Glasgow turned towards regeneration indicators of its built environment its health its economic performance and its quality of life remain below UK averages This interdisciplinary study examines the ongoing transformation of Glasgow as it transitioned from a de industrial to a post industrial city during the 20th and 21st centuries Looking at the diverse issues of urban policy regeneration and economic and social change it considers the evolving lived experiences of Glaswegians Contributors explore the actions required to secure the gains of regeneration and create an economically competitive socially just and sustainable city establishing a theory that moves beyond post industrialism and serves as a model for similar cities globally **Employability and Local Labour Markets** Ronald W. McQuaid, Anne E. Green, Mike Danson, 2013-10-18 The concept of employability has provided a foundation for much current labour market policy It has also provided a useful framework for analyzing national and urban labour markets and related policies in a variety of different circumstances both for those in and out of work The papers in this book help progress the concept of employability demonstrating the importance of the geographic and spatial context and showing its flexibility and usefulness as a basis for theory analysis and policy The papers are divided into two main sections understanding the concept of employability lessons for labour market policy in changing labour markets The chapters also provide general insights into many current labour market policy debates As employability continues to be the foundation of many labour market policies this volume considers the economic and geographical dimensions of employability in local labour market analysis and policy This book was previously published as a special issue of the journal Urban Studies

Restructuring in the New EU Member States Marie-Ange Moreau, María Esther Blas-López, 2008 This book presents a series of extremely stimulating analyses of the process of corporate restructuring in the new Member States of the EU Particularly noteworthy is the book's focus on the Central and Eastern European Countries CEECs that have joined the EU since 2004 an area which has not been prominent in the research on corporate restructuring conducted in Western Europe in the last twenty years As with their Asian counterparts these States have generally been perceived as a threat to employment in Western Europe due to the former's benefiting from outsourcing away from the latter By moving east the book allows for a different perspective on the restructuring process by placing it in the context of both Europe and the numerous changes affecting the CEECs The book seeks to understand the impact of European and national level policies on the concept of restructuring the role of the *acquis communautaire* and the place of social and political actors in the process of change in the context of new Member States where multinational firms have developed mobility and establishment strategies within the

context of broader European and global ones The density of this collection its wealth in terms of substantive teachings and its use of a comparative and multidisciplinary approach that links law political science sociology and economics make it an essential resource for those wishing to understand restructuring in the European space after the enlargements of 2004 and 2007 and the impact of European policies and the European Social Model *Enterprising Places* Colette Henry, John Shutt, 2014-07-09 Global economic shocks rising demands for welfare services and public sector austerity measures are signifiers of the processes that have heightened public policy imperatives associated with enabling enterprise The book contributes to the messy leadership and networked governance efforts of performing entrepreneurial synergies in place

Reinventing Poland Martin Myant, Terry Cox, 2008-03-03 The end of communism and accession to the European Union have had a huge impact on Poland This book provides an overall assessment of the post 1989 transformation in Poland covering economic transformation the heritage of the past and national identity and regional and political developments before and after EU accession

New Instruments in Spatial Planning Leonie Janssen-Jansen, Marjolein Spaans, Menno van der Veen, 2008 The idea of transferring development opportunities between areas is more than only the transfer of development rights It relates more to compensation not in money but in a non financial perspective This book addresses the topic of transferring development opportunities between areas in planning practice

The Mobilization of the Unemployed in Europe D. Chabanet, J. Faniel, 2012-01-02 In the face of high unemployment in Europe for the past thirty years the unemployed have organized themselves and mobilized at levels ranging from the local to the transnational This work explores why when and how the unemployed move from acquiescence to protest

The Bush Doctrine and the War on Terrorism Mary Buckley, Robert Singh, 2006-09-27 The presidency of George W Bush has been widely regarded as having occasioned one of the most dramatic shifts in the history of American foreign policy The US interventions in Afghanistan and Iraq the declaration of a war on terrorism and the enunciation of a Bush Doctrine of unrivalled military power regime change for rogue states and preventive and pre emptive war together generated unprecedented divisions in the international community In this edited volume leading international experts analyze the nature and scale of the global transformation wrought by the Bush foreign policy in three clear parts part one examines the extent of the Bush administration s break with prior American foreign policy in Part two region and country specific experts assess the responses to the Bush Doctrine and the interaction of domestic and international politics that shaped these They explore how governments political parties the media and public opinion react to US foreign policy and assess the implications for domestic regional and international politics part three examines the likely long term implications of the Bush Doctrine in relation to a set of major thematic issues including war and peace the global economy human rights and the UN Providing a balanced and dispassionate assessment of continuity and change in American foreign policy national regional responses to it and the impact of US foreign policy on a set of big picture discrete issues this book is essential reading for scholars and researchers of international relations and

contemporary history *Handbook of Research on European Business and Entrepreneurship* Leo Paul Dana, 2008 This book is an important contribution to the field of international entrepreneurship it provides a comprehensive account of internationalization strategies adopted by SMEs in a wide range of European countries and by drawing on a number of empirical studies it enriches the theory of SME internationalization with a new theoretical framework that can be useful for understanding the complexity of SME internationalization processes in Europe Julia Korosteleva Thunderbird International Business Review From Andorra to Wales with stops in more than 35 other European countries along the way this comprehensive collection of articles is required reading for scholars interested in international entrepreneurship It provides information on how entrepreneurs and their firms go international from virtually every country in Europe This unique volume permits researchers to compare how the process of entrepreneurial internationalization is affected by differences in culture location technology and other influences within Europe Furthermore the various authors consider a range of theoretically important issues such as cooperation and trust venture capital research and development learning networks and government policy This book serves as an essential departure point from which scholars can embark on their study of international entrepreneurship in Europe Benjamin M Oviatt Georgia State University US This is a timely and interesting book that brings together some of the most insightful contributions on the internationalization of new ventures with an emphasis on the European experiences Assembling some of the best scholars the book offers a distinctively European perspective one that deserves recognition analysis and discussion I applaud the editors for doing such a masterful job in bringing a great group of researchers and ideas together I highly recommend this book for any serious researcher and scholar Shaker A Zahra University of Minnesota US This remarkable book provides valuable contributions on how the process of SMEs internationalization is operating in 37 different European countries Researchers in international entrepreneurship will find new materials for theorization Numerous facets of international business are carefully documented by a great many well known scholars Also given the variety of situations typical of the European small business sector the book may prove to be helpful to small scale entrepreneurs wishing to take steps towards internationalization Overall this coordinate work makes you realize why Europe is so fascinating Jean Jacques Obrecht University Robert Schuman Strasbourg France This unique comparative study of the internationalization of small firms is a milestone in international business research It compares the internationalization strategies of fast growing firms across nearly forty different European countries It shows that the growth trajectories of firms reflect the investing country's geographical location natural resource endowments legal and financial institutions and local culture There are many important new insights to be gained from a careful study of this important new research resource Mark Casson University of Reading UK This unique Handbook illustrates how entrepreneurs across Europe tackle internationalization This timely and important book identifies patterns and builds a theory of international entrepreneurship in Europe The contributors discuss the performances of SMEs on the road to internationalization Each

chapter emphasizes how the process of internationalization of SMEs operates the challenges and opportunities that arise due to each country's specific political and economic situation and their subsequent internationalization performance. These processes, challenges and performances can be understood through theories of international business and entrepreneurship. Although at times these theories cannot fully explain the situation, *Developments in Central and East European Politics 3* by Stephen White, Judy Batt, Paul G. Lewis, 2003. **The Knowledge-based Economy in Transition Countries** by Krzysztof Piech, 2004.

Multi-level Governance and Institutional Change by Enrico Gualini, 2004. By examining Italian policies and patterns of state-local relationships, this book analyzes the impact of reform of EU regional and cohesion policies. Providing a contextual overview of European policy integration, it focuses on how the development of transnational policy making affects the relationships between nation-state and supra-national institutions. In doing so, it questions traditional assumptions of territorial sovereignty and introduces new factors of policy reform and institutional change. Enhancing Urban Management in East Asia by Mila Freire, Belinda K. P. Yuen, 2004. Initially based on a ground-breaking course held by the World Bank Institute on East Asia Urban and City Management, this edited volume brings together 13 key case studies from the region, providing an analysis and overview of urban management practice.
