itself Albert O. Hirschman Michele Alacevich, 2021-04-06 Winner 2023 Best Book Award Italian Association for the History of Economic Thought One of the most original social scientists of the twentieth century Albert O Hirschman led an uncommonly dramatic life After fleeing Nazi Germany as a youth he fought in the Spanish Civil War took part in antifascist activities in Italy and organized an underground rescue operation in Marseille through which more than 2 000 people including Marc Chagall Arthur Koestler and Hannah Arendt escaped Europe Hirschman moved across topics methodologies and disciplinary boundaries as fluidly as he did among countries and languages His work is marked by a deep suspicion of all encompassing theories valuing instead doubt and a sensitivity to contingencies and unexpected consequences In this intellectual biography the economic historian Michele Alacevich explores the development and trajectory of Hirschman s characteristic approach to social scientific questions He traces the many strands of Hirschman s thought and their place in his multifaceted body of work considering their limitations as well as their strengths Alacevich puts Hirschman s ideas into context following his participation in the major intellectual and political debates of his times He examines Hirschman s pioneering work in development studies and his analyses of social change the history of capitalism and the workings of democracy alongside his activities in the postwar reconstruction of Europe and economic development in Latin America A compelling intellectual portrait of a profoundly distinctive thinker this book also reflects on Hirschman s legacy and lasting influence
