Rethinking The Transatlantic Partnership Security And Economics In A New Era:

Rethinking the Transatlantic Partnership Gary L. Geipel, 1996 Ukraine and European Security David Albright, Semyen J. Appatov, 1999-04-26 Ukraine has emerged as a new factor on the European security scene since 1991 and this book explores the ramifications of that development. It lays out the views of leading North American, West European, and Ukrainian security analysts on European security issues during the next decade and their priority strategies for approaching these issues. Ukraine's role in European security and the Atlantic Community and Ukraine's security. Then it compares these views and assesses the implications of the complex pattern of similarities and differences in perspective. **Managing EU-US Relations** Rebecca Steffenson, 2005-10-07 This book examines developments in E U U S political and economic relations in the 1990s. It contributes to the existing literature by combining knowledge about actors and institutions to outline the transatlantic decision making process. It focuses not only on how states co-operate but how they effectively govern the transatlantic marketplace and the international political order through transatlantic institutions. Studying transatlantic governance enables us to understand not only how domestic or E U level decision making structures affect transatlantic decisions but also how transatlantic decisions affect domestic institutions. In short, employing decision making structures as an analytical approach helps us identify who governs and how and who or what determines policy outcomes. This book is the result of a comprehensive research project and it includes detailed case studies on E U U S efforts to fight people trafficking, E U U S regulatory co-operation in the form of Mutual Recognition Agreements, and the transatlantic trade dispute over bananas. The book is aimed at anyone with an interest in what transatlantic relations entail outside the confines of NATO security. **The Real and the Ideal** Anthony Lake, David Ochmanek, 2001-08-28 A teacher, scholar, practitioner, and publicist, Richard Ullman has been a unique and influential figure in U S foreign and security policy over the past forty years. This volume, created on the initiative of some of Ullman's most accomplished former students, is less a summing up of his work than a sort of intellectual kaleidoscope held up to his ideas. The result is a spirited and highly readable set of essays on themes relating to U S foreign and defense policy in a period of nearly unprecedented dynamism in the international system. The volume includes contributions by David Gompert, I M Destler, Michael Doyle, Michael O Hanlon, and eight other distinguished scholars and practitioners of international relations. Major issues addressed in *The Real and the Ideal* include: Changing international conceptions of state sovereignty, governmental legitimacy, and ethics and their relationship to national influence and power; New roles played by military power including an exploration of emerging guidelines for the use of force in the defense of norms and values that go beyond traditional definitions of national interest; The domestic context for the setting of U S foreign and defense policy including an analysis of recent and heretofore unpublished polling data regarding the public's propensity to support international engagement; Assessments of the effects of alliance relationships on interstate relations including case studies of trans Atlantic relations in the post Cold War period; the foreign policy of the unified

Germany and relations among China Japan and Taiwan A highly original revisionist assessment of U S foreign policy of liberal isolationism in the 1920s along with lessons for U S statesmen and policy makers today A Council on Foreign Relations book

Parameters ,1996 Rethinking Security in Post-Cold-War Europe William Park,G.Wyn Rees,2014-06-11 Provides a survey of the principal items on the agenda following the end of the Cold War focusing upon the institutions and regions where the reconsideration of security issues has been particularly profound The book is organised into three main sections the first examines the changed roles of the main security institutions which have survived the Cold War NATO the European Union Western European Union and the Organisation for Security and Cooperation in Europe The second analyses the Central European countries Russia and States of the former Soviet Union in terms of their ideologies political structures and relationships of the Cold War period Lastly the text examines the northern and southern regions of Europe where quite different perspectives and agendas are concerned **Fast Lane to the Future** Joseph M.
