## **Rethinking Anthropology:**

*Rethinking Anthropology* E. R. Leach, 1966-02-01 This book presents a collection of brilliant and provocative essays from Edmund Leach one of the most original voices in the social anthropological tradition      **Rethinking Anthropology** E. R. Leach, 2021-01-07 A collection of brilliant and provocative essays from Edmund Leach one of the most original voices in the social anthropological tradition      **Rethinking Anthropology** Edmund Ronald Leach, 1982      Cannibalism and the Colonial World Francis Barker, Peter Hulme, Margaret Iversen, 1998-08-06 In *Cannibalism and the Colonial World* published in 1998 an international team of specialists from a variety of disciplines anthropology literature art history discusses the historical and cultural significance of western fascination with the topic of cannibalism Addressing the image as it appears in a series of texts popular culture film literature travel writing and anthropology the essays range from classical times to contemporary critical discourse *Cannibalism and the Colonial World* examines western fascination with the figure of the cannibal and how this has impacted on the representation of the non western world This group of literary and anthropological scholars analyses the way cannibalism continues to exist as a term within colonial discourse and places the discussion of cannibalism in the context of postcolonial and cultural studies      **Rethinking Anthropology**, 1961

**Edmund Leach** Stanley J. Tambiah, 2002-02-14 Intellectual biography of Edmund Leach a leading social anthropologist of his generation with illustrations      **Rethinking Psychological Anthropology** Philip K. Bock, Stephen C. Leavitt, 2018-11-02 After over three decades of continual publication in multiple editions the Third Edition of *Rethinking Psychological Anthropology* now with coauthor Stephen Leavitt describes the latest interests concepts and approaches in the field with the inclusion of four new chapters and updates to earlier topics The premise of the previous editions remains that all anthropology is psychological and that the interplay between anthropological methods and the psychological theories existing in different times is dialectical Psychological anthropologists have grappled with changing trends in both disciplines including psychoanalytic holistic cognitive interpretive and developmental approaches It is important to appreciate these currents of thought to understand the state of the field today This text is thus a guide to that history along with a critique that may lead to a new synthesis It is an ideal choice for courses in psychological anthropology cross cultural psychology and the history of anthropology      *Ritual Theory, Ritual Practice* Catherine Bell, 1992-01-30 *Ritual studies* today figures as a central element of religious discourse for many scholars around the world *Ritual Theory Ritual Practice* Catherine Bell's sweeping and seminal work on the subject helped legitimize the field In this volume Bell re examines the issues methods and ramifications of our interest in ritual by concentrating on anthropology sociology and the history of religions Now with a new foreword by Diane Jonte Pace Bell's work is a must read for understanding the evolution of the field of ritual studies and its current state      *Rethinking Anthropology* E. R. Leach, 2015-06-13 Excerpt from *Rethinking Anthropology* The title of this collection properly belongs only to the first essay On 3 December 1959 I had the honour to deliver the first Malinowski

Memorial Lecture at the London School of Economics The Editorial Board of the London School of Economics Monographs in Social Anthropology generously offered to publish the text of my lecture but added the flattering suggestion that I should reprint a number of my other essays at the same time I have accordingly appropriated the title of my Malinowski lecture for the whole collection The essays extend over a period of fifteen years and I do not pretend that the viewpoint of the latest Chapter 1 is wholly consistent with that of the earliest Chapter 2 but there is I think a certain continuity of theme and method in all of them When they were first written all these essays were attempts to rethink anthropology All are concerned with problems of theory and are based on ethnographic facts recorded by others my own contribution being primarily that of analyst In each case I have tried to reassess the known facts in the light of unorthodox assumptions Such heresy seems to me to have merit for its own sake Unconventional arguments often turn out to be wrong but provided they provoke discussion they may still have lasting value By that criterion each of the essays in this book is a possible candidate for attention Among social anthropologists the game of building new theories on the ruins of old ones is almost an occupational disease Contemporary arguments in social anthropology are built out of formulae concocted by Malinowski Radcliffe Brown and Levi Strauss who in turn were only rethinking Rivers Durkheim and Mauss who borrowed from Morgan McLennan and Robertson Smith and so on Sceptics may think that the total outcome of all this ratiocination adds up to very little despite all our pedagogical subtleties the diversities of human custom remain as bewildering as ever But that we admit The contemporary social anthropologist is all too well aware that he knows much less than Frazer imagined that he knew for certain But that perhaps is the point The contributions to anthropological pedantry collected in this book add little to the sum of human knowledge but if they provoke some readers to doubt their sense of certainty then they will have served their purpose A note on the interconnections between the different papers may prove helpful About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**Anthropology's World** Ulf Hannerz, 2010-07-06 In this masterly state of the art work Ulf Hannerz maps the contemporary social world of anthropologists and its relation to the wider world in which they carry out their work Raising fundamental questions such as What is anthropology really about How does the public understand or misunderstand anthropology and What and where do anthropologists study now and for whom do they write Hannerz invites anthropologists to think again about where their discipline is going Full of insights and practical advice from Hannerz's long experience at the top of the discipline this book is essential for all anthropologists who want their craft to survive and develop in a volatile

world and contribute to new understandings of its ever changing diversity and interconnections *Feasting and Social Oscillation* A. Thomas Kirsch, 2018-05-31 This work argues that anthropologists have observed and recorded religious rites and rituals but have largely ignored the role of religion when constructing an analytical framework The author contends that religious phenomena are inextricably intertwined with issues of power politics and economics among the upland groups such as the Kachin of Southeast Asia

**Culture and Sexual Risk** Hans ten Brummelhuis, Gilbert Herdt, 2004-08-02 Brummelhuis and Herdt provide an intense examination of sexual risk and its cultural configurations heretofore missing from the AIDS literature The chapters on Western gay men speak to the pressing methodological conceptual and theoretical needs in HIV AIDS research while providing an understanding and documentation of gay men s lives within the emerging corpus of lesbian and gay studies Chapters on the Philippines Brazil Haiti and Africa explore the cultural political and economic contexts surrounding the transmission and prevention of HIV AIDS in these cultures

Conceptualizing Religion Benson Saler, 2000 How might we transform a folk category in this case religion into an analytical category suitable for cross cultural research In this volume the author addresses that question He critically explores various approaches to the problem of conceptualizing religion particularly with respect to certain disciplinary interests of anthropologists He argues that the concept of family resemblances as that concept has been refined and extended in prototype theory in the contemporary cognitive sciences is the most plausible analytical strategy for resolving the central problem of the book In the solution proposed religion is conceptualized as an affair of more or less rather than a matter of yes or no and no sharp line is drawn between religion and non religion **The Weight of Obesity** Emily Yates-Doerr, 2015-09-22 Introduction the richness of eating Disease of modernities Nutritional black boxing Care of the social Contemporary body counts Bodies in balance Many values of health Conclusion the opposite of obesity re forming the body in global health Readings for a History of Anthropological Theory, Sixth Edition Paul A. Jessen, Niels Johannsen, 2012-05-07 Excavating the Mind deals with the relationship

between the material culture of humans i.e. our technologies, arts and environments and our mental worlds. Emphasizing the close interdependence of mind and matter, the volume resonates with current developments within sociology, psychology and the cognitive sciences, yet it aims to supplement the focus on modern, predominantly Western societies and individuals with studies of different cultural contexts and processes in the evolutionary and historical past as well as the ethnographic present. With contributions from cognitive and social archaeology as well as anthropology, semiotics and the history of religion, the book combines well-illustrated case studies covering a wide chronological and geographic span from Neolithic Europe to the present-day South Pacific with incisive discussion of particular theoretical issues in the study of mind and material culture. *Excavating the Mind* is an original contribution to the multidisciplinary debate on the uniquely human entanglement of complex material cultures and mental worlds.

*How Lifeworlds Work* Michael Jackson, 2017-10-10 Michael Jackson has spent much of his career elaborating his rich conception of lifeworlds, mining his ethnographic and personal experience for insights into how our subjective and social lives are mutually constituted. In *How Lifeworlds Work*, Jackson draws on years of ethnographic fieldwork in West Africa to highlight the dynamic quality of human relationships and reinvigorate the study of kinship and ritual. How, he asks, do we manage the perpetual process of accommodation between social norms and personal emotions, impulses and desires? How are these two dimensions of lived reality joined, and how are the dual imperatives of individual expression and collective viability managed? Drawing on the pragmatist tradition, psychology and phenomenology, Jackson offers an unforgettable, beautifully written account of how we make, unmake and remake our lifeworlds.
