Francis Rattenbury and British Columbia Anthony A. Barrett, Rhodri Windsor Liscombe, 1983-01-01 Yorkshire born Francis Mawson Rattenbury 1867 1935 emigrated to British Columbia as a young architect in 1892 Within months of his arrival in Victoria he launched his brilliant if abbreviated career by winning an international competition to design the legislative buildings While his life was marred by controversy scandal and in the end tragedy Rattenbury s architecture had an enduring impact on the Canadian landscape and his commercial ventures were important to the economic development of the West Richly illustrated with over 200 drawings and photographs Francis Rattenbury and British Columbia is the first major critical study of a Canadian architect in the context of his times Using unpublished primary sources including his recently discovered private letters the authors document Rattenbury s professional career and the evolution of his architectural style Detailed descriptions are given of some of his most famous projects notably the legislative buildings and the Empress Hotel in Victoria Besides working on a number of government commissions Rattenbury became chief architect for the Canadian Pacific Railway and designed chateau like buildings for C P R hotels in the Rockies Vancouver and Victoria

Other projects such as the Vancouver and Nanaimo Courthouses and Bank of Montreal branches set the pattern for institutional architecture in British Columbia His buildings not only drew attention to the growing importance of the province but also lent dignity and character to its major centres Filled with the vigour and confidence of the imperial age Rattenbury initiated a number of commercial ventures These included the founding of a transportation system to the Yukon goldfields and extensive land speculations As the authors point out these investments were perhaps not undertaken solely for monetary gain but reflected Rattenbury s firm belief in the future of British Columbia and his desire to play an active role in its growth Unfortunately his entrepreneurial adventures involved heavy financial losses among which were ruinous lawsuits involving the provincial government This pioneering work on Western Canadian architecture will serve as a valuable design source for both the specialist and lay reader It also includes an important account of the part played by major Canadian companies and government patronage in the development of British Columbia This professional biography reveals new facets of Rattenbury s life and character which have been the subject of both public and literary controversy

Official Report of Debates, House of Commons Canada. Parliament. House of Commons,1908 *Teacher Certification and the Professional Status of Teaching in North America* Peter P. Grimmett,Jon C. Young,Claude Lessard,2012-12-01 This book locates recent

developments in teacher certification in North America within a broader international policy context characterized as hegemonic neo liberalism wherein economic rationalism has begun to trump professional judgment We focus on teacher certification because it addresses fundamental questions about who will teach what are the required minimum levels of competence and who will make those decisions Such questions are central to teaching constituting a new battleground for education in North America Two ideas economic rationalism and professionalization have become pivotal to education policy Economic rationalism finds its expression in a free market ideology Professionalization has two meanings professionalizing the practice of teaching constructing a professional knowledge base and professionalizing the status of teaching through links with universities and self regulation These ideas contestation varies by setting In the USA neo liberalism has attacked professional knowledge questioning its scientific veracity Professionalization advocates claim that the neo liberalist aim is to undermine teaching as a profession In Canada neo liberalist critics are heard but have limited impact on policy

Professionalization has emphasized teachers pedagogical development and a valuing of the field s input into teacher preparation Neo liberalist economic rationalism plays itself out overtly in the USA as de regulation in Canada it lies embedded within labor mobility agreements In the USA professionalization highlights professionalism in practice in Canada the governance of teaching This book explores how economic rationalism is using labor mobility agreements in Canada as a covert operation analogous to de regulation in the USA to assert its dominance in the battle to de professionalize teaching in North America
