## **Revolution In Perspective:**

Revolution in Perspective: People Seeking Change, 1775 to the Present Day Mary Charlesworth, 1972      **Solidarity in Poland, 1980-1981 and the Perspective of Political Revolution** Wolfgang Weber, 1989      Perspectives on the Grenada Revolution, 1979-1983 John Angus Martin, Nicole Phillip-Dowe, 2017-05-11

The 1979 Grenada Revolution orchestrated by the New Jewel Movement culminated four and a half years later in the execution of Prime Minister Maurice Bishop and the US led military invasion which threw Grenada onto the international political stage. Though much has been written on the Revolution and its untimely and violent demise, the overwhelming majority of the authors have been non Grenadian. All the contributors to this volume except one are Grenadian. In this regard it is unique and captures the voices of persons who were active participants: children, teenagers, young adults, and some yet unborn in the 1979 to 1983 period, illustrative of the continued influence of the Revolution on Grenadians. The essays examine the legality of the Revolution, the historical connections between it and the 1795 Fdon's Rebellion, the nation's collective memory of the Revolution by its second generation, the conflict between religion and the Revolution, the empowerment of women by the revolutionary process, and the role of poetry and art in raising salient and often difficult and painful aspects of the Revolution. This collection of essays captures the Revolution from a Grenadian perspective.

**Reform, Revolution, and Opportunism** Mike Taber, 2023-09-05

An essential record from the Second International expertly curated by Under the Socialist Banner editor Mike Taber. At its height the Second International 1889-1916 represented the majority of organized workers in the world and the largest of its affiliated parties counted over a million members. Its congresses drew delegates from across the globe and its major victories like the eight hour work day have long outlasted the organization itself. In this important collection of debates and resolutions from the Second International, Reform, Revolution, and Opportunism captures the International's vibrancy and gives a snapshot of its strengths, weaknesses, and contradictions. Socialist militants turned to the Second International to deliberate on how best to combat the latest deprivations and excesses of capitalism which was stretching beyond national boundaries for the first time. These new issues and the debates about how to respond to them: surging immigration, what to say about colonialism, how to relate to burgeoning struggles for women's rights, the drive to intern imperialist war, remain deeply contested over a hundred years later. Taken together with Under the Socialist Banner, Reform, Revolution, and Opportunism offers a rounded view of the Second International and its legacy, showing it to be a living, breathing movement with crucial insights for contemporary radicals.

*Recommencing the Revolution* Cornelius Castoriadis, 1992-12-01      **Lenin, Trotsky and the Theory of the Permanent Revolution** John Peter Roberts, 2014

Today yet again from Latin America to Nepal, India, and the Middle East, the question of which strategy the masses should adopt to take control of their own lives is being posed. Without exception, the leaders of the mass workers parties urge class collaboration as the way forward. Actively supported by the national Communist Parties and even Maoist guerrilla groups, a petty bourgeois amalgam proposes

collaboration with the so called national bourgeoisie as the only path to national independence and democracy In the century since the Russian Revolution the first modern popular revolution to succeed in throwing out the imperialists much time and effort has been spent especially by the former Soviet bureaucracy in neutering Lenin praising him while tearing out the revolutionary heart of his theories This book demonstrates that the Russian Revolution a model for a victorious popular revolution in a semi colonial country in the era of imperialism required not a bourgeois democratic but a socialist revolution for the people to take power The old regime had to be destroyed and the state and governmental power seized by the working classes before it was possible to achieve national independence and carry through any meaningful agrarian reform for the benefit of the peasantry Lenin s close collaborator in October 1917 was Leon Trotsky and the success of that revolution was due to the discipline and organisation of Lenin s Bolshevik Party and Trotsky s political theory of the permanent revolution This book goes back to basics critically analysing and comparing Lenin s and Trotsky s own writings which are cited in their source and inspiration the Russian Revolution of 1905 It is shown that Lenin in October 1917 adopted the perspectives of Permanent Revolution that to finally rid Russia of autocracy and legitimise the peasants seizure of the land the Russian Revolution required the introduction of the dictatorship of the proletariat and the first steps towards the collectivisation of the means of production Those who attack the theory of Permanent Revolution never challenge the correctness of its basic concept that the international socialist revolution could begin in semi feudal Russia Instead in the guise of anti Trotskyism they deny the validity of Lenin s struggle for a socialist revolution in October 1917

**Revolution at Point Zero** Silvia Federici, 2020-08-01 Written between 1974 and 2016 Revolution at Point Zero collects four decades of research and theorizing on the nature of housework social reproduction and women s struggles on this terrain to escape it to better its conditions to reconstruct it in ways that provide an alternative to capitalist relations Indeed as Federici reveals behind the capitalist organization of work and the contradictions inherent in alienated labor is an explosive ground zero for revolutionary practice upon which are decided the daily realities of our collective reproduction Beginning with Federici s organizational work in the Wages for Housework movement the essays collected here unravel the power and politics of wide but related issues including the international restructuring of reproductive work and its effects on the sexual division of labor the globalization of care work and sex work the crisis of elder care the development of affective labor and the politics of the commons This revised and expanded edition includes three additional essays and a new preface by the author

**The French Revolution in Global Perspective** Suzanne Desan, Lynn Hunt, William Max Nelson, 2013-04-15 The French Revolution in Global Perspective illuminates the dense connections among the cultural social and economic aspects of the French Revolution revealing how new political forms at once democratic and imperial anticolonial and centralizing were generated in and through continual transnational exchanges and dialogues Believe i Situating the French Revolution in the context of early modern globalization for the first time this book offers a new approach to understanding its international origins and worldwide effects A distinguished group of contributors shows that the political culture of the Revolution emerged out of a long history of global commerce imperial competition and the movement of people and ideas in places as far flung as India Egypt Guiana and the Caribbean This international approach helps to explain how the Revolution fused immense idealism with territorial ambition and combined the drive for human rights with various forms of exclusion The essays examine topics including the role of smuggling and free trade in the origins of the French Revolution the entwined nature of feminism and abolitionism and the influence of the French revolutionary wars on the shape of American empire

Revolution and Terror Graeme Gill, 2024 This book is a study of the relationship between revolution and terror Graeme Gill uses a detailed analysis of the French Russian and Chinese revolutions to show that in order to understand that relationship it is necessary to distinguish between different types of terror revolutionary transformational and inverted

Writing the Revolution Raphael Hörmann, 2011 This study investigates German and English revolutionary literary discourse between 1819 and 1848 49 Marked by dramatic socioeconomic transformations this period witnessed a pronounced transnational shift from the concept of political revolution to one of social revolution Writing the Revolution engages with literary authors radical journalists early proletarian pamphleteers and political theorists tracing their demands for social liberation as well as their struggles with the specter of proletarian revolution The book argues that these ideological battles translated into competing poetics of revolution Series Kulturgeschichte Perspektiven Vol 10 **Cuba Since the Revolution of 1959** Samuel Farber, 2011-12-13 Frequent insights stimulating historical comparisons and command of the data relating to Cuba s economic and social performance Foreign Affairs Uncritically lauded by the left and impulsively denounced by the right the Cuban Revolution is almost universally viewed one dimensionally In this book Samuel Farber one of its most informed left wing critics provides a much needed critical assessment of the Revolution s impact and legacy The Cuban story twists and turns as we speak so thank goodness for scholars such as Samuel Farber an unapologetic Marxist whose knowledge of Cuban affairs is unrivalled In this excellent necessary book Farber takes stock of fifty years of

revolutionary control by recognizing achievements but lambasting authoritarianism Latin American Review of Books A courageous and formidable balance sheet of the Cuban Revolution including a sobering analysis of a draconian reform program that will only deepen the gulf between revolutionary slogans and the actual life of the people Mike Davis author of Planet of Slums The Psychology of Revolution Fathali M. Moghaddam,2024-03-14 Presents a compelling analysis of the psychology of revolution for the first time since 1894 **Ideology and Revolution in Southeast Asia 1900-1980** Clive J Christie,Clive J. Christie,2012-12-06 The concept of Asian Values has recently been emphasized by East and South East Asian political leaders These leaders have argued that European political values have exercised an unhealthy hegemony over the international system not only because of global influence exercised by European ideas during the colonial period but because of Anglo Saxon dominance over the world orders that were set up in the aftermath of both the First and Second World Wars This book considers the interaction between indigenous Asian values and European ideology and the influence this relationship had on the nationalist and revolutionary movements of Southeast Asia that dominated the political systems of Southeast Asia in the period 1945 1975 Karl Marx's Theory of Revolution Vol. II Hal Draper,1978 This is the second installment of Hal Draper s incomparable treatment of Marx s political theory policy and practice In forceful and readable language Draper ranges through the development of the thought of Marx and Engels on the role of classes in society This series Karl Marx s Theory of Revolution represents an exhaustive and definitive treatment of Marx s political theory policy and practice Marx and Engels paid continuing attention to a host of problems of revolution in addition to constructing their grand theory All these political and social analyses are brought together in these volumes as the author draws not only on the original writings of Marx and Engels but also on the sources that they used in formulating their ideas and the many commentaries on their published work Draper s series is a massive and immensely valuable scholarly undertaking The bibliography alone will stand as a rich resource for years to come Yet despite the scholarly treatment the writing is direct forceful and unpedantic throughout and will appeal to the beginning student as much as the advanced reader

**Fragmented Memories and Screening Nostalgia for the Cultural Revolution** Jing Meng, 2020-08-19

Fragmented Memories and Screening Nostalgia for the Cultural Revolution argues that films and TV dramas about the Cultural Revolution made after China's accession to the WTO in 2001 tend to represent personal memories in a markedly sentimental, nostalgic, and fragmented manner. This new trend is a significant departure from earlier films about the subject which are generally interpreted as national allegories, not private expressions of grief, regret, or other personal feelings. With China entering a postsocialist era, the ideological conflation of socialism and global capitalism has generated enough cultural ambiguity to allow a space for the expression of personalized reminiscences of the past. By presenting these personal memories in effect, alternative narratives to official history on screen, individuals now seem to have some agency in narrating and constructing history. At the same time, such autonomy can be easily undermined since the promotion of the sentiment of nostalgia is often subjected to commodification. Sentimental treatments of the past may simply be a marketing strategy. Underplaying political issues is also a safer way for films and TV dramas to secure public release in mainland China. Meng concludes that the new mode of representing the past is shaped by the current sociopolitical conditions; these personal memories and micro narratives can be understood as the defining ways of remembering in China's postsocialist era.

Fragmented Memories and Screening Nostalgia for the Cultural Revolution takes a comprehensive look at contemporary screen depictions of the Cultural Revolution. The book convincingly ties close readings of the works analysed with broader social and cultural phenomena that already are hot topics of study and debate, offering something original while also being closely engaged with existing scholarship.

Jason McGrath, University of Minnesota

Breaking through the tired dichotomy between personal and collective narratives, individual memory and grand history, this refreshing book sheds much light on film memories of the Cultural Revolution in the post-socialist millennium. In a limpid and engaging style, Jing Meng probes memory's nostalgia and imbrication with the collective destiny and critiques the personal focus aligned with neoliberal economy and commodification.

**Vietnamese Colonial Republican** Peter Zinoman, 2013-11-16

This volume is a comprehensive study of Vietnam's greatest and most controversial 20th-century writer who died tragically in 1939 at the age of 28. Vu Trong Phung is known for a remarkable collection of politically provocative novels and sensational works of non-fiction reportage that were banned by the communist state from 1960 to 1986. Leading Vietnam scholar Zinoman resurrects the life and work of an important intellectual and author in order to reveal a neglected political project that is excluded from conventional accounts of modern Vietnamese political history. He sees Vu Trong Phung as a leading proponent of a localized republican tradition that opposed colonialism, communism, and unfettered capitalism, and

that led both to the banning of his work and to the durability of his popular appeal in Vietnam today
