Choosing War Douglas Carl Peifer, 2016-06-08 Throughout US history presidents have had vastly different reactions to naval incidents. Though some incidents have been resolved diplomatically, others have escalated to outright war. What factors influence the outcome of a naval incident, especially when calls for retribution mingle with recommendations for restraint? Given the rise of long range anti ship and anti air missile systems coupled with tensions in East Asia, the Persian Gulf and the Black and Baltic Seas, the question is more relevant than ever for US naval diplomacy. In *Choosing War*, Douglas Carl Peifer compares the ways in which different presidential administrations have responded when American lives were lost at sea. He examines in depth three cases: the Maine incident 1898 which led to war in the short term, the Lusitania crisis 1915 which set the trajectory for intervention, and the Panay incident 1937 which was settled diplomatically. While evaluating Presidents William McKinley, Woodrow Wilson, and Franklin Delano Roosevelt's responses to these incidents, Peifer lucidly reflects on the options they had available and the policies they ultimately selected. The case studies illuminate how leadership, memory, and shifting domestic policy shape presidential decisions, providing significant insights into the connections between naval incidents, war, and their historical contexts. Rich in dramatic narrative and historical perspective, *Choosing War* offers an essential tool for confronting future naval crises. **Strategy and History** Edward Luttwak, 1985-01-01 **The**

Mediterranean Region Giacomo Luciani, 2022-02-14 First published in 1984, *The Mediterranean Region* considers the broad economic and political problems facing the region from a variety of perspectives. The book features the work of international experts on the Mediterranean region. It discusses the changing legal environment and covers the Law of the Sea as applied to the Mediterranean and the position of the Arab countries in the region. Chapters are also devoted to exploring the different policies of Russia, the United States, and Europe towards the Mediterranean. *The Mediterranean Region* is a detailed contribution to research and understanding of the area. *NATO's Southern Allies* John Chipman, 2004-01-14 This book analyses the internal sources of foreign policy within those NATO states whose primary security concerns lie in the southern area of the Alliance. It takes a careful look at foreign and defence policy formulation and assesses the special perspective of each of these countries in turn, and the military threats that they face. Attention is paid to the role of the military in society, especially in the geographically peripheral states as the Alliance seeks to adapt to a possible shift southward of some of its

security concerns A full understanding of the politics in each of these states is essential to determine the relative importance of national and Alliance priorities in each country as the tensions between external policies and internal necessities increase The book offers an assessment of evolving security requirements in the southern region and of the capacity of NATO Mediterranean states to deal individually and collectively with the changing situation *The Soviet Naval Threat To Europe* Bruce W.
