Automated Fingerprint Identification Systems

(AFIS) Peter Komarinski,2005-01-20 An easy to understand synopsis of identification systems presenting in simple language the process of fingerprint identification from the initial capture of a set of finger images to the production of a Rapsheet No other single work exists which reviews this important identification process from beginning to end We examine the identification process for latent crime scene prints and how they are identified with these systems While the primary focus is automated fingerprint identifications the book also touches on the emergence and use of fingerprints in other biometric systems Criminal justice administrators policy makers and students of forensic science and criminal justice will find a reference to the known limitations and advantages of these systems This book provides information as to the critical and continual need for properly trained individuals as well as an understanding of the direct and indirect costs associated with maintaining these systems An understanding of the entire system and what it means will prove invaluable Why are there missed identifications Why are identifications made on one database that are not made on another database Key terms and issues are included and well as suggestions for improving the overall number of identifications The book will go beyond process and also discuss issues such as interoperability management strategies for large databases contract development lights out verification and several other issues which impact automated identifications The first comprehensive title on this subject area Outlines in detail the entire process of fingerprint gathering and identity verification The future of AFIS will is discussed including national standards in developing multi agency cooperation interoperability U S in addition to the use of AFIS identification world wide *An Annotated Catalogue of the Edward C. Atwater Collection of American Popular*

Medicine and Health Reform: A-L Christopher Hoolihan,2001 This is a catalogue of the Edward C Atwater Collection of rare books dealing with popular medicine in early America which is housed at the University of Rochester Medical School library The books described in the catalogue were written by physicians and other professionals to provide information for the non medical audience The books taught human anatomy hygiene temperance and diet how to maintain health and how to cope with illness especially when no professional help was available The books promoted a healthy lifestyle for the readers giving guidance on everything from physical fitness and recreation to the special health needs of women The collection consists of works dealing with reproduction from birth control to delivering and caring for a baby venereal disease home nursing epidemics and the need for public sex education These books covering areas largely ignored by the medical profession made important contributions to the health of the American public and the collection is a vital piece of medical history The collector is Edward C Atwater Professor Emeritus of Medicine and the History of Medicine at the University of Rochester Medical School Christopher Hoolihan is History of Medicine Librarian at the University of Rochester Medical School s Edward G Miner Library **American Gas-light Journal and Chemical Repertory** ,1881
