Rape in Art Cinema Dominique Russell,2011-11-03 Art cinema has always had an aura of the erotic with the term being at times a euphemism for European films that were more explicit than their American counterparts This focus on sexuality whether buried or explicit has meant a recurrence of the theme of rape nearly as ubiquitous as in mainstream film This anthology explores the representation of rape in art cinema Its aim is to highlight the prevalence and multiple functions of rape in this prestigious mode of filmmaking as well as to question the meaning of its ubiquity and versatility Rape in Art Cinema takes an interdisciplinary approach bringing together recognized figures such as historian Joanna Burke philosopher Ann J Cahill and film scholars Martin Barker Tanya Horeck and Scott Mackenzie alongside emerging voices It is international in scope with contributors from Canada the U S and Britain coming together to investigate the representation of rape in some of cinema s most cherished films

Archives of Labor Lori Merish establishes working class women as significant actors within literary culture dramatically redrawing the map of nineteenth century US literary and cultural history Delving into previously unexplored archives of working class women s literature from autobiographies pamphlet novels and theatrical melodrama to seduction tales and labor periodicals Merish recovers working class women s vital presence as writers and readers in the antebellum era Her reading of texts by a diverse collection of factory workers seamstresses domestic workers and prostitutes boldly challenges the purportedly masculine character of class dissent during this era Whether addressing portrayals of white New England factory girls fictional accounts of African American domestic workers or the first person narratives of Mexican women working in the missions of Mexican California Merish unsettles the traditional association of whiteness with the working class to document forms of cross racial class identification and solidarity In so doing she restores the tradition of working

women's class protest and dissent shows how race and gender are central to class identity and traces the ways working women understood themselves and were understood as workers and class subjects

Nineteenth-Century Transatlantic Reprinting and the Embodied Book Jessica DeSpain, 2016-05-06

Until the Chace Act in 1891 no international copyright law existed between Britain and the United States which meant publishers were free to edit text excerpt whole passages add new illustrations and substantially redesign a book's appearance In spite of this ongoing process of transatlantic transformation of texts the metaphor of the book as a physical embodiment of its author persisted Jessica DeSpain's study of this period of textual instability examines how the physical book acted as a major form of cultural exchange between Britain and the United States that called attention to volatile texts and the identities they manifested Focusing on four influential works Charles Dickens's *American Notes for General Circulation* Susan Warner's *The Wide Wide World* Fanny Kemble's *Journal of a Residence on a Georgian Plantation* and Walt Whitman's *Democratic Vistas* DeSpain shows that for authors readers and publishers struggling with the unpredictability of the textual body the physical book and the physical body became interchangeable metaphors of flux At the same time discourses of destabilized bodies inflected issues essential to transatlantic culture including class gender religion and slavery while the practice of reprinting challenged the concepts of individual identity personal property and national identity
