## **Seeds Of Time:**

**The Seeds of Time** Kay Kenyon, 2011 Time travel was never like this tied to the motions of the stars a short cut across the galaxy and if you're a rare Dive pilot a chance to be a hero Clio Finn is one of these a space pilot on the run from a dystopian and graying Earth toward the only future she ever wanted the stars Problem is she's on the razor edge of burnout Next stop a labor camp in dictatorial America Clio might be in it for escape for adventure but there's also that hero thing Her mission to retrieve viable biota to reseed the Earth Now a long way from home she's found the jackpot a lush paradise with plant life so vital its seeds could give Earth a second chance or as her enemies believe seal its destruction But she's determined to bring her payload home It's Clio Finn's last Dive It's Earth's last chance

**The Seeds of Time** John Wyndham, 1956 In these short stories we are in a world where time barriers have ceased there is discrimination against Martians and where not only thought transference but also body transference is an everyday event

**Looking Into the Seeds of Time** Y. S. Brenner, This refreshing work combines the history of economics and the practice of modern development As all living is action and living implies choices any theory of development must start with the person Modern life reflects the fears of a society trying to escape the anxieties demons and ghosts of a long dark era of unemployment and starvation The problem of development is the contradiction between technological potentials and cultural inheritances

**The Seeds of Time** Kay Kenyon, 2011-02-16 Clio Finn is a Dive pilot on a troubled Earth in 2019 Public paranoia about the AIDS virus and its successors has led to the imprisonment of the subversives of the society namely drug users and gays in forced labor quarantine camps known as quarries Meanwhile Earth itself is dying from a progressive lack of greenery as the UV irradiation from a successively depleted ozone layer is killing off all the plants and therefore the planet's ability to sustain itself To counteract this problem the powers of Earth have decided that new greenery must be found on alternate worlds to supplement Earth's dying stock with heartier alien strains But since faster than light travel is still unavailable a new method must be found to achieve this Enter time travel in which a quick jaunt down through time can bring ships into the position of planets which had rotated through Earth's present position in the distant past due to the galaxy's extended period of rotation As most people are unable to remain awake during these temporal Dives the guiding duty is left to an exclusive class of Dive pilots Only dive pilots have a limited span before they burn out Most can last thirty to forty Dives Clio Finn has lasted fifty five and she is on the ragged end of burn out kept on track only by a handful of outlawed drugs But the potential rewards are great A previous haul of greenery once thought to be Earth's salvation is dying off and an illicit jaunt into the future taken by Clio and her colleagues has discovered the violent end of humanity itself So her current destination Niang an Edenic tropical planet seems the answer to mankind's prayers Only on Niang's surface Clio discovers a desperate secret The green which may save mankind also subsists on metals and may therefore destroy all of mankind's existing technology Clio's dilemma whether to regreen Earth at the risk of driving man back into the dark ages is only exacerbated when an accidental loop in

time catches her in a paradox between two alternate futures each of which is determined to eradicate the other completely and absolutely From the Paperback edition      **Seeds** Carol C.
