Desenho Da Janela, O Luís Antonio Jorge, 1995 *From Tarzan to Homer Simpson* Sócrates Nolasco, 2017-06-09 Men have lower life expectancy than women they account for 90% of the incarcerated population they die more often in traffic accidents from alcohol and drug consumption and they commit more suicides than women Since that information has been accessible for a long time why is it not taken into account when campaigns are created and actions are defined Violence is not an entity it is male Confronted with that reality the author sought to formulate the question orientating towards the following working hypothesis this common knowledge should be forgotten given that the involvement of men in situations of violence plays an important role in the preservation of political ideation in contemporary societies During this study it became clear that men are exposed to a more complex type of death than mere physical death but just as important which is relative to their social representation This insight led to understanding other aspects that could be associated with men's intense involvement in situations of violence Could it be that in contemporary culture a purpose is served by keeping men involved with situations of violence If so what might that be

Pontos e bordados José Murilo de Carvalho, 1998 Unfinished gesture Cecilia Almeida Salles, 2019-01-08 The book presents a discussion about the process of artistic creation in the diversity of its manifestations visual arts literature theater cinema etc The proposed reflections are supported by research dedicated to the study of these creative paths from the documents left by the artists such as diaries notes sketches drafts mock ups projects scripts and contacts Dialogues were established between the observation of recurrent aspects in a great diversity of processes and the thought of Charles S Peirce generating a possible theory of creation First the *Unfinished Gesture* discusses the aesthetics of the creative

movement from a semiotic perspective In this theoretical context creation is described as a fallible process with tendencies supported by the logic of uncertainty encompassing the intervention of chance and opening space for the introduction of new ideas A continuous course in which you can not determine either a starting point or an end point These uncertain and indeterminate tendencies direct the artist in his search for the construction of works that satisfy his great poetic project which is also strongly influenced by communicative issues The search of the artist finds its possible concreteness in complex processes of constructions of works In a second moment the creative path is focused from five points of view as transforming action translation movement knowledge process construction of artistic truths and experimentation course In the Epilogue are presented the concepts of Peircean semiotics which base the reflections on the artistic creation developed throughout the book *The Unfinished Gesture* aims to offer a critical approach to the arts from the point of view of its production processes

The Nature of Space Milton Santos, 2021-07-21 In *The Nature of Space* pioneering Afro Brazilian geographer Milton Santos attends to globalization writ large and how local and global orders intersect in the construction of space Santos offers a theory of human space based on relationships between time and ontology He argues that when geographers consider the inseparability of time and space they can then transcend fragmented realities and partial truths without trying to theorize their way around them Based on these premises Santos examines the role of space which he defines as indissoluble systems of objects and systems of actions in social processes while providing a geographic contribution to the production of a critical social theory
