Postwar Tony Judt, 2006-09-05 Finalist for the Pulitzer Prize Winner of the Council on Foreign Relations Arthur Ross Book Award One of the New York Times s 100 Best Books of the 21st Century Impressive Mr Judt writes with enormous authority The Wall Street Journal Magisterial It is without a doubt the most comprehensive authoritative and yes readable postwar history The Boston Globe Almost a decade in the making this much anticipated grand history of postwar Europe from one of the world s most esteemed historians and intellectuals is a singular achievement Postwar is the first modern history that covers all of Europe both east and west drawing on research in six languages to sweep readers through thirty four nations and sixty years of political and cultural change all in one integrated enthralling narrative Both intellectually ambitious and compelling to read thrilling in its scope and delightful in its small details Postwar is a rare joy

Communism and its Collapse Stephen White, 2002-01-04 Ranging from the Russian revolution of 1917 to the collapse of Eastern Europe in the 1980s this study examines Communist rule By focusing primarily on the USSR and Eastern Europe Stephen White covers the major topics and issues affecting these countries including communism as a doctrine the evolution of Communist rule the challenges to Soviet authority in Hungary and Yugoslavia the emerging economic fragility of the 1960s the complex process of collapse in the 1980s Any student or scholar of European history will find this an essential addition to their reading list

Global Century Series One World Divisible David Reynolds, 2001-03-06 A magisterial account of our time by a distinguished historian Walter LaFeber author of The Clash This brilliant history vividly captures the great political events of the past 50 years while carefully avoiding an encyclopedia approach of illustrations

European Socialism William Smaldone, 2019-10-16 This accessible text offers a concise but comprehensive introduction to European socialism which arose in the maelstrom of the industrial and democratic revolutions launched in the eighteenth century Striving for sweeping social economic cultural and political change socialists were a

diverse lot. However, they were united by principles asserting the social and political equality of all people, ideas that won the adherence of millions and struck fear in the hearts of their numerous opponents. William Smaldone shows how, over the course of 200 years, socialists successfully promoted the democratization of European society and a more equitable division of wealth. At the same time, he illustrates how conflicts over the means of achieving their aims divided them into rival socialist and communist currents, a rift that undercut the struggle against fascism and helped lay the groundwork for Europe's division during the Cold War. Although many predicted the demise of socialism as a potent force after the end of the Cold War, the Soviet Union's dissolution and the rise of neo-liberal ideology, recent developments show that such a judgment was premature. The author argues that the growth of new socialist parties across Europe indicates that socialist ideas remain vibrant in the face of capitalism's failure to solve chronic social and economic problems, especially following the deep global crisis that began in 2008. Combining an analytical narrative with a selection of primary texts and visual images, this book provides undergraduate students with a brief, readable history, including an overview of how socialist political movements have evolved over time and stressing the rich diversity that has characterized socialism's foundations from its beginning. This new edition brings this text up to date and examines the European socialist movement in the face of 21st-century challenges. It includes a new preface, including the 2017 American election, updated bibliographies, two new chapters, and an afterword.

Mobilizing Soviet Peasants Mary Buckley, 2006-04-27 Exploring the story of rural shock work and Stakhanovism in the Soviet countryside in the late 1930s, this book tries to contextualise Stakhanovism, considering historical context, changing party priorities, propaganda, the press, the nature of farm leaderships, shortages, peasant attitudes, gender, purges, and local organisations.

From German Königsberg to Soviet Kaliningrad Jamie Freeman, 2020-11-10 This book explores how the Soviet Union, after capturing and annexing the German East Prussian city of Königsberg in 1945 and renaming it Kaliningrad, worked to transform the city into a model of Soviet modernity. It examines how the Soviets expelled all the remaining German people, repopulated the city and region with settlers from elsewhere in the Soviet Union, destroyed the key remaining German buildings, and began building a model Soviet city, a physical manifestation of the societal transformation brought about by communism. However, the book goes on to show that over time, many of the model Soviet buildings were uncompleted, and that the citizens, aware of their Polish and Lithuanian neighbours to both the east and the west and appreciating their place in the wider Baltic region, came to view themselves as something different from other Soviet and Russian citizens. The book concludes by assessing present developments as the people of Kaliningrad increasingly rediscover the city's pre-Soviet past and forging a new identity for themselves on their own terms.

Stalin's Wars Geoffrey Roberts, 2006-01-01 This breakthrough book provides a detailed reconstruction of Stalin's leadership from the outbreak of the Second World War in 1939 to his death in 1953. Making use of a wealth of new material from Russian archives, Geoffrey Roberts challenges a long list of standard perceptions of Stalin: his qualities as a leader, his relationships with his own generals and with other great

world leaders his foreign policy and his role in instigating the Cold War While frankly exploring the full extent of Stalin s brutalities and their impact on the Soviet people Roberts also uncovers evidence leading to the stunning conclusion that Stalin was both the greatest military leader of the twentieth century and a remarkable politician who sought to avoid the Cold War and establish a long term detente with the capitalist world By means of an integrated military political and diplomatic narrative the author draws a sustained and compelling personal portrait of the Soviet leader The resulting picture is fascinating and contradictory and it will inevitably change the way we understand Stalin and his place in history Roberts depicts a despot who helped save the world for democracy a personal charmer who disciplined mercilessly a utopian ideologue who could be a practical realist and a warlord who undertook the role of architect of post war peace Russia in World History Barbara Alpern Engel, Janet Martin, 2015-05-01 A lively introduction to Russia s dramatic history from its origins to the present this volume concisely describes how its peoples overcame constant challenges including devastating foreign invasions to become an ethnically and religiously diverse land empire the first communist society and a major world power *Enlivening Secondary History* Peter Davies, Rhys J. Davies, 2012 *Enlivening Secondary History* 50 Classroom Activities for Teachers and Pupils Language Policy in the Soviet Union L.A. Grenoble, 2006-04-11 Soviet language policy provides rich material for the study of the impact of policy on language use Moreover it offers a unique vantage point on the tie between language and culture While linguists and ethnographers grapple with defining the relationship of language to culture or of language and culture to identity the Soviets knew that language is an integral and inalienable part of culture The former Soviet Union provides an ideal case study for examining these relationships in that it had one of the most deliberate language policies of any nation state This is not to say that it was constant or well conceived in fact it was marked by contradictions illogical decisions and inconsistencies Yet it represented a conscious effort on the part of the Communist leadership to shape both ethnic identity and national consciousness through language As a totalitarian state the USSR represents a country where language policy however radical could be implemented at the will of the government Furthermore measures such as forced migrations were undertaken that resulted in changing population demographics having a direct impact on what is a central issue here the very nature of the Soviet population That said it is important to keep in mind that in the Soviet Union there was a difference between stated policy and actual practice There was no guarantee that any given policy would be implemented even when it had been officially legislated

Longman Twentieth Century History Series Stalin And The Soviet Union Book Review: Unveiling the Power of Words
