Parliament: House of Commons: Foreign Affairs Committee,2011-10-18 World events should not distract the Foreign and

Commonwealth Office FCO from its efforts to promote a stronger bilateral relationship between the UK and Brazil The rise of Brazil as a world power represents an opportunity for the UK not a threat and the FCO is correct to identify Brazil's potential to be a good news story for the UK The UK has taken the correct preliminary steps to strengthen the bilateral relationship The UK's support for permanent Brazilian membership of the UN Security Council as part of a wider UN reform is to be particularly welcomed Brazil as a developing democratic country can play a vital role in representing the global South The Government must maintain its efforts in this area As Brazil increasingly accepts the global leadership role that its growing economy will bring it will play a key role in the promotion of UK national interests such as energy security the trade in narcotics and the maintenance of the environment while the commercial opportunity that Brazil represents is a vital plank of the Government's ambition to increase trade overseas The turning away of a Royal Navy vessel is a serious matter The committee regrets that Brazil felt the need to refuse docking permission to HMS Clyde in January this year and further regrets a general hardening of Brazil's position towards the Falklands The committee is pressing for answers from the FCO as to how this situation was allowed to develop

Brazil Joel Wolfe, 2023-05-09 Brazil has long been an enigma to outsiders Over the last two decades

alone Latin America's largest and most populous country has been celebrated as a vibrant new democracy with a powerful economy and derided as a nation in complete disarray heading toward the status of a failed state. In this vibrant and smart book Joel Wolfe tells the story of this incomplete nation and its two hundred year old struggle to control its vast national territory and to fashion and maintain a functioning democracy against a backdrop of intense inequality, racial discrimination and regional rivalries. From independence to the abolition of slavery from scarring military dictatorship to the election of President Bolsonaro the Tropical Trump and his defeat by former President Lula da Silva the author weaves a rich portrait of a country fighting against the odds to overcome the long standing and seemingly intractable problems that have for most of its history hindered national unity and development.

India-Brazil-South Africa Dialogue Forum (IBSA) Oliver Stuenkel, 2019-11-12. The establishment of the IBSA as one of the principal platforms of South-South cooperation is one of the most notable developments in international politics during the first decade of the twenty first century. While the concept is now frequently referred to in discussions about the Global South, there has not yet been a comprehensive and scholarly analysis of the history of the IBSA grouping and its impact on global order. This book offers a definitive reference history of the IBSA grouping. India, Brazil and South Africa: a comprehensive fact focused narrative and analytical account from its inception as an ad hoc meeting in 2003 to the political grouping it is today. Situates the IBSA grouping in the wider context of South-South cooperation and the global shift of power away from the United States and Europe towards powers such as Brazil, India and South Africa. Provides an outlook and critically assesses what the IBSA grouping means for global order in the twenty first century. Offering the first full length and detailed treatment of the IBSA, this work will be of great interest to students and scholars of International organizations, international relations and the global south.
