Walker Evans Judith Keller, 1995-11-02 Walker Evans is widely recognized as one of the greatest American photographers of the twentieth century and the J Paul Getty Museum owns one of the most comprehensive collections of his work including more of his vintage prints than any other museum in the world. This lavishly illustrated volume brings together for the first time all of the Museum's Walker Evans holdings. Included here are familiar images such as Evans's photographs of tenant farmers and their families made in the 1930s and later published in *Let Us Now Praise Famous Men* and images that are much less familiar such as the photographs Evans made in the 1940s of the winter quarters of the Ringling Brothers circus or his very late Polaroids made in the 1970s. In addition many previously unpublished Evans photographs and variant croppings of classic images appear here for the first time. Author Judith Keller has written a lively informative text that places these photographs in the larger context of Evans's life and career and the culture especially the popular culture of the time. In so doing she has produced an indispensable volume for anyone interested in the history of photography or American culture in the twentieth century. Also included is the most comprehensive bibliography on Walker Evans published to date.

Barbarian Lens Regine Thiriez, 1998-10-20 Part of the prestigious academic book series *Documenting the Image* this is a fascinating survey illustrated by extremely rare photographs of the burned architectural and landscape complex known as the Rape of the Summer Palace. In 1860 Western armies brought ruin to the treasured seat of the Qing emperors near Beijing. One hundred and fifty images have been collected to date as a support for an extensive study of the building of the palaces and their subsequent destruction. This book is a rigorous analysis of the work and experiences of the European photographers both amateur and professional working in Beijing during this period and as such becomes an account of the development of photography itself. Offering a fascinating glimpse into 19th Century China the book gives an historical overview of the political situation.

Gloeden to Tina Modotti's revolutionary vision the works analyzed in this book have all contributed in shaping our contemporary visual vocabulary And while Italy is at the center of my considerations the ideas that populate this work are in many ways globally applicable and relevant *Looters Photographers and Thieves* seeks to contribute to the fascinating discourse on the photographic image and its specific uses in the representation of racial ethnic and gender difference and suggest how the isolation of images according to the dictates of power relations might influence and condition ways of seeing Finally this book is meant as a locus where the images produced in the shaping of notions of citizenship and cultural relevance in nineteenth and twentieth century Italy might reveal the processes of the imaginary As such the arguments and images in each chapter thread through each other to propose ways by which to approach disparate subjects and forms in order to envision photographers themselves as seers rather than gazers
