some of the fundamental qualities of animation New material is also introduced in this section specifically addressing questions raised by the nature style and materiality of animation The second section outlines some of the main forms that animation takes which includes discussions of genre Although this section cannot be exhaustive the material chosen is particularly useful as it provides samples of analysis that can illuminate some of the issues the first section of the book raises The third section focuses on issues of representation and how the medium of animation might have an impact on how bodies gender sexuality race and ethnicity are represented These representations can only be read through an understanding of the questions that the first two sections of the book raise we can only decode these representations if we take into account form and genre and theoretical conceptualisations such as visual pleasure spectacle the uncanny realism etc **USA Today** ,2003 **International Motion Picture Almanac** Quigley Publishing,2008
