**Literature and Race in Los Angeles** Julian Murphet,2001-03-19 Los Angeles is both the most fragmented and the most minoritized metropolis in America and its most luridly abstract and aestheticized city With more than eighty five languages being spoken in its classrooms and one homogeneous visual language emanating from its entertainment industry LA radically challenges the prospects of that archaic representational medium literature In its investigation of the work of Bret Easton Ellis James Ellroy Anna Deveare Smith and others Literature and Race in Los Angeles articulates their aesthetic preoccupations with the structures of social space in the city Harnessing some of the theoretical insights of Henri Lefebvre and the LA school of geographers Murphet demonstrates the versatility of literary production in LA and speculates about the fortunes of literature in a predominantly visual culture      **New York and Los Angeles** David Halle,2003-08-15 This volume presents advanced studies that consider the fundamental difference of urban center versus decentralization that operates in the cities of New York and Los Angeles while comparing politics and culture in each area

Gilje,1999-03-22 a sweeping analytical synthesis of collective violence from the colonial experience to the present American Studies Gilje has written the book on rioting throughout American history The Historian a thorough illuminating and at times harrowing account of man s inhumanity to man William and Mary Quarterly fulfills its title s promise as an encyclopedic study an impressive accomplishment and required reading for anyone interested in America s contentious past Journal of the Early Republic Gilje has written a thought provoking survey of the social context of American riots and popular disorders from the Colonial period to the late 20th century a must read for anyone interested in riots Choice In this wide ranging survey of rioting in America Paul A Gilje argues that we cannot fully comprehend the history of the United States without an understanding of the impact of rioting Exploring the rationale of the American mob brings to light the grievances that

motivate its behavior and the historical circumstances that drive the choices it makes Gilje's unusual lens makes for an eye opening view of the American people and their history      **The Los Angeles Riots** Nathan Edward Cohen,1970      **Race, Media, and the Crisis of Civil Society** Ronald N. Jacobs,2000-08-03 Charts the history development and influence of the African American Press      Alienation Studies Paul Seeman,Teresa Seeman,2024-07-13 This book compiles cross cultural studies on alienation undertaken by the late Dr Melvin Seeman including relevant historical and theoretical contexts and analyses related to the ongoing development of the alienation model and its counterparts in the behavioral sciences Chapters track the development of this model across a half century of interdisciplinary research encompassing various research partnerships over the years      Civil Rights Digest ,1970      **Racism and Resistance** Franziska Meister,2017-04-15 Even a cursory look at U S society today reveals that protests against racial discrimination are by no means a thing of the past What can we learn from past movements in order to understand the workings of racism and resistance In this book Franziska Meister revisits the Black Panther Party and offers a new perspective on the Party as a whole and its struggle for racial social justice She shows how the Panthers were engaged in exposing structural racism in the U S and depicts them as uniquely resourceful imaginative and subversive in the ways they challenged White Supremacy while at the same time revolutionizing both the self conception and the public image of black people Meister thus highlights an often marginalized aspect of the Panthers how they sought to reach a world beyond race by going through race A message well worth considering in an age of color blindness      Imagining the African American West Blake Allmendinger,2005-01-01 The literature of the African American West is the last racial discourse of the region that remains unexplored Blake Allmendinger addresses this void in literary and cultural studies with Imagining the African American West the first comprehensive study of African American literature on the early frontier and in the modern urban American West Allmendinger charts the terrain of African American literature in the West through his exploration of novels histories autobiographies science fiction mysteries formula westerns melodramas experimental theater and political essays as well as rap music and film He examines the histories of James P Beckwourth and Oscar Micheaux slavery the Civil War and the significance of the American frontier to blacks and the Harlem Renaissance the literature of urban unrest rap music black noir and African American writers including Toni Morrison and Walter Mosley His study utilizes not only the works of well known African American writers but also some obscure and neglected works out of print books and unpublished manuscripts in library archives Much of the scholarly neglect of the Black West can be blamed on how the American West has been imagined constructed and framed in scholarship to date In his study Allmendinger provides the appropriate theoretical cultural and historical contexts for understanding the literature and suggests new directions for the future of black western literature      **Shakespeare in a Divided America** James Shapiro,2020-03-10 One of the New York Times Ten Best Books of the Year A National Book Critics Circle Award Finalist A New York Times Notable Book A timely exploration of what Shakespeare's plays reveal about our divided land In this

*Political Learning in Adulthood* Roberta S. Sigel,1989 In the wake of World War II the issues of political stability in general and the survival of stable democracies in particular captured the attention of American political scientists An inevitable offshoot of this interest was the study of political behavior how it is acquired and how and why it persists In its early stages work on political socialization focused exclusively on childhood and adolescence as if the learning process ends when adulthood begins Only recently has adult socialization emerged as a legitimate field of study within political science In *Political Learning in Adulthood* social scientists for the first time examine the changes in political outlook and behavior that take place during the adult years providing an invaluable overview of the problems theories and methodological approaches that characterize the field of political socialization They consider which political values remain constant and which are subject to change and they explore the ways in which both ordinary and extraordinary life events affect adults political worldviews Among specific topics considered are the effects of age and aging the relation between participation in the work force and the development and expression of political views continuity and change in the wake of revolutionary social and political movements and the effects of such traumatic and life threatening situations as war and terrorist activity **Race and the War on Poverty** Robert Bauman,2022-08-16 President Lyndon B Johnson's War on Poverty did more than offer aid to needy Americans in some cities it also sparked both racial conflict and cooperation *Race and the War on Poverty* examines the African American and Mexican American community organizations in Los Angeles that emerged to implement War on Poverty programs It explores how organizers applied democratic vision and political savvy to community action and how the ongoing African American Chicano and feminist movements in turn shaped the contours of the War on Poverty's goals programs and cultural identity Robert Bauman describes how the Watts riots of 1965 accelerated the creation of a black community controlled agency the Watts Labor Community Action Committee The example of the WLCAC combined with a

burgeoning Chicano movement inspired Mexican Americans to create The East Los Angeles Community Union TELACU and the Chicana Service Action Center Bauman explores the connections that wove together the War on Poverty the Watts revolt and local movements in ways that empowered the participants economically culturally and politically Although heated battles over race and other cultural issues sometimes derailed the programs these organizations produced lasting positive effects for the communities they touched Despite Nixon era budget cuts and the nation's turn toward conservatism the War on Poverty continues to be fought today as these agencies embrace the changing politics economics and demographics of Los Angeles Race and the War on Poverty shows how the struggle to end poverty evolved in ways that would have surprised its planners supporters and detractors and that what began as a grand vision at the national level continues to thrive on the streets of the community

The Southern Diaspora James N. Gregory, 2006-05-18 Between 1900 and the 1970s twenty million southerners migrated north and west Weaving together for the first time the histories of these black and white migrants James Gregory traces their paths and experiences in a comprehensive new study that demonstrates how this regional diaspora reshaped America by southernizing communities and transforming important cultural and political institutions Challenging the image of the migrants as helpless and poor Gregory shows how both black and white southerners used their new surroundings to become agents of change Combining personal stories with cultural political and demographic analysis he argues that the migrants helped create both the modern civil rights movement and modern conservatism They spurred changes in American religion notably modern evangelical Protestantism and in popular culture including the development of blues jazz and country music In a sweeping account that pioneers new understandings of the impact of mass migrations Gregory recasts the history of twentieth century America He demonstrates that the southern diaspora was crucial to transformations in the relationship between American regions in the politics of race and class and in the roles of religion the media and culture
