Reyner Banham Nigel Whiteley, 2003-08-29 An intellectual biography of the cultural critic Reyner Banham Reyner Banham 1922-88 was one of the most influential writers on architecture design and popular culture from the mid 1950s to the late 1980s Trained in mechanical engineering and art history he was convinced that technology was making society not only more exciting but more democratic His combination of academic rigor and pop culture sensibility put him in opposition to both traditionalists and orthodox Modernists but placed him in a unique position to understand the cultural social and political implications of the visual arts in the postwar period His first book *Theory and Design in the First Machine Age* still in print with The MIT Press after forty years was central to the overhaul of Modernism and it gave Futurism and Expressionism credibility amid the dynamism and change of the 1960s This intellectual biography is the first comprehensive critical examination of Banham's theories and ideas not only on architecture but also on the wide variety of subjects that interested him It covers the full range of his oeuvre and discusses the values enthusiasms and influences that formed his thinking

*The Jewish Role in American Life* Bruce Zuckerman, Jeremy Schoenberg, 2007 The relationship between Jews and the United States is necessarily complex Jews have been instrumental in shaping American culture and of course Jewish culture and religion have likewise been profoundly recast in the United States especially in the period following World War II A major focus of this work is to consider the Jewish role in American life as well as the American role in shaping Jewish life This fifth volume of the Casden Institute's annual review is organized along five broad themes politics values image education and culture      **Overdrive** Wim de Wit, Christopher James Alexander, 2013 This is a fascinating and intelligently illustrated study

of architectural innovation in Los Angeles From 1940 to 1990 Los Angeles rapidly evolved into one of the most populous and influential industrial economic and creative capitals in the world During this era the region was transformed into a laboratory for cutting edge architecture Overdrive examines these experiments and their impacts on modern design reframes the perceptions of Los Angeles dynamic built environment and amplifies the exploration of the city s vibrant architectural legacy The drawings models and images highlighted by Overdrive reveal the complex and often underappreciated facets of Los Angeles and illustrate how the metropolis became an internationally recognized destination with a unique design vocabulary canonical landmarks and a coveted lifestyle

*Infrastructural Optimism* Linda C. Samuels,2021-09-29 *Infrastructural Optimism* investigates a new kind of twenty first century infrastructure one that encourages a broader understanding of the interdependence of resources and agencies recognizes a rightfully accelerated need for equitable access and distribution and prioritizes rising environmental diligence across the design disciplines Bringing together urban history case studies and speculative design propositions the book explores and defines infrastructure as the basis for a new form of urbanism emerging from the intersection of architecture landscape architecture and urban design In defining this new infrastructure the book introduces new dynamic and holistic performance metrics focused on measuring what matters over growth for the sake of growth and twelve criteria that define next generation infrastructure By shifting the focus of infrastructure our largest public realm to environmental symbiosis and quality of life for all design becomes a catalytic component in creating a more beautiful productive and optimistic future with *Infrastructural Urbanism* as its driver *Infrastructural Optimism* will be invaluable to design non profit and agency professionals and faculty and students in the fields of architecture landscape architecture and urban design working in partnership with engineers hydrologists ecologists urban planners community members and others who shape the built environment through the expanded field of infrastructure
