Margadant,2021-05-11 The reordering of France into a new hierarchy of administrative and judicial regions in 1791 unleashed an intense rivalry among small towns for seats of authority while raising vital issues for the vast majority of the French population Here Ted Margadant tells a lively story of the process of politicization magistrates lawyers merchants and other townspeople who petitioned the National Assembly not only boasted of their own communities and denigrated rival towns but also adopted revolutionary slogans and disseminated new political ideas and practices throughout the countryside The history of this movement offers a unique vantage point for analyzing the regional context of town life and the political dynamics of bourgeois leadership during the French Revolution Margadant explores the institutional crisis of the old regime that brought about the reordering considers the rhetoric and politics of space in the first year of the Revolution and examines the fate of small towns whose districts and law courts were suppressed Combining descriptive narrative with statistical analysis and computer mapping he reveals the important consequences of the new hierarchy for the urban development of France in the post Revolutionary era **Map Link Catalog** ,2008 [World Guide to Special Libraries](#) Marlies Janson,Helmut Opitz,2011-12-22 The World Guide to Special Libraries lists about 35 000 libraries world wide categorized by more than 800 key words including libraries of departments institutes hospitals schools companies administrative bodies foundations associations and religious communities It provides complete details of the libraries and their holdings and alphabetical indexes of subjects and institutions **The Encyclopædia Britannica** ,1891 [French Peasants in Revolt](#) Ted W. Margadant,2012-09-03 The triumphant rise of Louis Napoleon Bonaparte over his Republican opponents has been the central theme of most narrative accounts of mid nineteenth century France while resistance to the coup d tat generally has been neglected By placing the insurrection of December 1851 in a broad perspective of socioeconomic and political development Ted Margadant displays its full significance as a turning point in modern French history He argues that as the first

expression of a new form of political participation on the part of the peasants resistance to the coup was of greater importance than previously supposed Furthermore it provides an appropriate testing ground for more general theories of peasant movements and popular revolts Using manuscript materials in French national and departmental archives that cover all the major areas of revolt the author examines the insurrection in depth on a national scale After a brief discussion of the main characteristics of the insurrection he analyzes its economic and social foundations the dialectic of repression and conspiracy that fostered the political crisis and the armed mobilizations violence and massive arrests that exploded as the result A final chapter considers the implications of the insurrection for larger issues in the social and political history of modern France
