Nature, Place, and Story Claire Elizabeth Campbell, 2017-08-09 National historic sites commemorate decisive moments in the making of Canada. But seen through an environmental lens these sites become artifacts of a bigger story: the occupation and transformation of nature into nation. In an age of pressing discussions about environmental sustainability, there is a growing need to know more about the history of our relationship with the natural world and what lessons these places of public history, regional identity and national narrative can teach us. *Nature Place and Story* provides new interpretations for five of Canada's largest and most iconic historic sites, two of which are UNESCO World Heritage Sites: L'Anse aux Meadows, Newfoundland; Grand Prêtre, Nova Scotia; Fort William, Ontario; the Forks of the Red River, Manitoba; and the Bar U Ranch, Alberta. At each location, Claire Campbell rewrites public history as environmental history, revealing the country's debt to the power and fragility of the natural world and the relevance of the past to understanding climate change, agricultural sustainability, wilderness protection, urban reclamation and fossil fuel extraction. From the medieval Atlantic to modern ranchlands, environmental history speaks directly to contemporary questions about the health of Canada's habitat. Bringing together public and environmental history in an entirely new way, *Nature Place and Story* is a lively and ambitious call for a fresh perspective on natural heritage

Jameson Jr., 2004-01-13 To reconstruct or not to reconstruct That is the question facing many agencies and site managers throughout the world While reconstructed sites provide a three dimensional pedagogic environment in which visitors can acquire a heightened sense of the past an ethical conflict emerges when on site reconstructions and restorations contribute to the damage or destruction of the original archaeological record The case studies in this volume contribute to the ongoing debates between data and material authenticity and educational and interpretive value of reconstructions Discussing diverse reconstruction sites from the Golan Region to Colonial Williamsburg the authors present worldwide examples that have been affected by agency policies divergent presentation philosophies and political and economic realities

Time Travel Alan Gordon, 2016-04-15 In the 1960s Canadians could step through time to eighteenth century trading posts or nineteenth century pioneer towns These living history museums promised authentic reconstructions of the past but as Time Travel shows they revealed more about mid twentieth century interests and perceptions of history than they reflected historical fact An appetite for commercial tourism led to the rise of living history museums They became important components of economic growth especially as part of government policy to promote regional economic diversity and employment Alan Gordon explores how these museums were shaped by post war pressures personality conflicts funding challenges and the need to balance education and entertainment Ultimately the rise of the living history museum is linked to the struggle to establish a pan Canadian identity in the context of multiculturalism competing anglophone and francophone nationalisms First Nations resistance and the growth of the state

experience shows that local officials had considerable room to maneuver even during the peak years of Stalinist control Qualls first paints a vivid portrait of the ruined city and the sufferings of its surviving inhabitants He then turns to Moscow s plans to remake the ancient city on the heroic socialist model prized by Stalin and visited upon most other postwar Soviet cities and towns In Sevastopol however the architects and city planners sent out from the center went native deviating from Moscow s blueprints to collaborate with local officials and residents who seized control of the planning process and rebuilt the city in a manner that celebrated its distinctive historical identity When completed postwar Sevastopol resembled a nineteenth century Russian city with tree lined boulevards wide walkways and buildings street names and memorials to its heroism in wars both long past and recent Though visually Russian and still containing a majority Russian speaking population Sevastopol was in 1954 joined to Ukraine which in 1991 became an independent state In his concluding chapter Qualls explores how the Russianness of the city and the presence of the Russian fleet affect relations between Ukraine Russia and the West
