Maddest Idea:

The Maddest Idea James L. Nelson, 1997-02 Sailing in the wake of C S Forester Nelson has done an excellent job of combining historical authenticity with firm characterization and lively action says Nathan Miller author of Sea of Glory A Naval History of the American Revolution In The Maddest Idea a plan to capture much needed British gunpowder is actually a trap laid by a traitor

Crazy Ideas That Work Rozana Lee, 2025-07-18 a creative science picture book that combines STEAM education with the concept of Creative Transformation turning everyday objects and waste into innovative useful products Through four real life cases transforming plastic waste into sustainable concrete trash into solar powered cars hair into oil spill mats and poop into energy it shows how creativity paired with science can turn trash into treasure The book also includes fun activities like Science Showdown e g solar car VS fossil fuel car and DIY Science Experiments e g testing oil adsorption with human hair These activities not only enrich knowledge and foster parent child interaction but also inspire children to uncover the endless possibilities hidden in everyday life

Nine Crazy Ideas in Science Robert Ehrlich, 2018-06-05 AIDS is not caused by HIV Coal and oil are not fossil fuels Radiation exposure is good for you Distributing more guns reduces crime These ideas make headlines but most educated people scoff at them Yet some of science s most important concepts from gravity to evolution have surfaced from the pool of crazy ideas In fact a good part of science is distinguishing between useful crazy ideas and those that are just plain nutty In this book a well known physicist with an affinity for odd ideas applies his open mind to nine controversial propositions on topical subjects Some it turns out are considerably lower on the cuckoo scale than others Robert Ehrlich evaluates for the general reader or student nine seemingly far out propositions culled from physics biology and social science In the process he demonstrates in easy to understand terms how to weigh an argument judge someone s use of statistics identify underlying assumptions and ferret out secret agendas His conclusions are sometimes surprising For instance he finds that while HIV does cause AIDS and the universe almost certainly started with a big bang our solar system could have two suns faster than light particles might exist and time travel can t be ruled out as mere science fiction Anyone interested in unorthodox ideas will get a kick out of this book And as a fun way of learning how to think like a scientist it has enormous educational value Of course only time will tell whether any of these nine ideas will be the next continental drift the now orthodox account of the Earth s geology that was for years just a crazy idea

Whose Crazy Idea Was That? Claire Craig, 2003 Have you ever had a crazy idea for a new invention Read the true stories behind some silly inventions and some great ones Who knows Your crazy idea might be a brilliant one
