Magic and the Dignity of Man Brian P. Copenhaver,2019-11-19 This book is nothing less than the definitive study of a text long considered central to understanding the Renaissance and its place in Western culture James Hankins Harvard University Pico della Mirandola died in 1494 at the age of thirty one During his brief and extraordinary life he invented Christian Kabbalah in a book that was banned by the Catholic Church after he offered to debate his ideas on religion and philosophy with anyone who challenged him Today he is best known for a short speech the Oration on the Dignity of Man written in 1486 but never delivered Sometimes called a Manifesto of the Renaissance this text has been regarded as the foundation of humanism and a triumph of secular rationality over medieval mysticism Brian Copenhaver upends our understanding of Pico s masterwork by re examining this key document of modernity An eminent historian of philosophy Copenhaver shows that the Oration is not about human dignity In fact Pico never wrote an Oration on the Dignity of Man and never heard of that title Instead he promoted ascetic mysticism insisting that Christians need help from Jews to find the path to heaven a journey whose final stages are magic and Kabbalah Through a rigorous philological reading of this much studied text Copenhaver transforms the history of the idea of dignity and reveals how Pico came to be misunderstood over the course of five centuries Magic and the Dignity of Man is a seismic shift in the study of one of the most remarkable thinkers of the Renaissance

Magic in the Cloister Sophie Page,2013-10-21 During the late thirteenth and early fourteenth centuries a group of

monks with occult interests donated what became a remarkable collection of more than thirty magic texts to the library of the Benedictine abbey of St Augustine s in Canterbury The monks collected texts that provided positive justifications for the practice of magic and books in which works of magic were copied side by side with works of more licit genres In *Magic in the Cloister* Sophie Page uses this collection to explore the gradual shift toward more positive attitudes to magical texts and ideas in medieval Europe She examines what attracted monks to magic texts in spite of the dangers involved in studying condemned works and how the monks combined magic with their intellectual interests and monastic life By showing how it was possible for religious insiders to integrate magical studies with their orthodox worldview *Magic in the Cloister* contributes to a broader understanding of the role of magical texts and ideas and their acceptance in the late Middle Ages
