Choosing the right wine for you for a gift at a restaurant can be quite intimidating Could it be made easier Does the wine list at the restaurant seem like rocket science to you Do you find yourself panicking at the store and picking the wine with the prettiest label Have you been disappointed by the wine you bought that way Well we probably all have made the mistake of getting the wrong kind of wine It s not too bad if you bought the bottle for yourself and decided you hated it But what if you bought a sweet red wine as a gift only to find out the recipient s tastes are different That s a decent portion of embarrassment right there A well picked wine can make or break a meal too Forgetting the rules like only whites for fish a wine that s too robust will drown the steak you wanted to enjoy That way you will have wasted money twice on food you can t taste and on wine you don t enjoy Can there be a way to avoid all that confusion Thankfully yes and you don t have to go through years of rigorous expensive training to become a wine taster There s very little science to it and all the equipment you need you already have your eyes nose and tongue From the moment you uncork the bottle to the last sip of your wine there s a whole journey ahead of you that you have been missing all this time Just like finding an Easter egg in a movie you love knowing how to find out the subtleties in wine can be truly satisfying You ve spent your hard earned money on that wine so why not enjoy it to its fullest potential There could be a whole new world right at the rim of your glass In *Wine Decoded* you will discover How using just one sense can tell you a lot about your wine What unexpected color to look for in your red hint it s not red What are those tiny crystals in the bottle and are they dangerous The array of hues and colors your wine can have How to hone your wine tasting skills with simple exercises The incredible depth of notes hidden within your glass Whether smelling rocks leather or tobacco in your wine is good or bad How to recognize if the wine has faults that made it go bad before you drink it And much more Go beyond what you know without leaving your home well except for grocery shopping to get wine you don t need to be professionally trained to become a good wine taster Besides good wine doesn t also need to be expensive Sometimes you pay more for the bottle than the wine itself Amaze your friends with your abilities and never buy the wrong type of wine again You will notice how your taste in wine grows in less than a month Gone will be the days of cluelessly blindly picking a wine that sounds fancy or looks pretty Life is too short to drink bad wine Pop the cork on the most incredible experiences you will unveil the mysteries of every bottle with ease Just click Add to cart and ready

Health Benefits of Dieting with Red Wine Why are many people obsessed with wine Wine has been a fascinating subject since time immemorial In the yesteryears wine was related to luxury and royalty And over the years wine has become an industry Wine is made from different types of fruits that can range from grapes to pomegranates but in this eBook red wine is the center of focus Red wine is made from grapes But what is so special about it Is wine making science or an art Red wine making and red wine itself is as old as civilization itself Turkey Iran and Eastern Russia are areas that were the main places where grapes were grown Today however grapes can be found all over the globe Interestingly the oldest winery that was found can be traced back to 4100BC in Armenia The wine lover will want to know about the origin and history of red wine and the fact that it can also be found in biblical writings has made it even more important to a history of red wine But in the modern era people associate red wine with health benefits as it has been established that moderate drinking is good for health That does not necessarily mean that red wine alone can help in unorthodox fat loss but proper diet and exercise is the secret of staying fit While the people residing close to the place of its origin emphasize on the artistic part of red wine making there are yet others for whom this is an industry It is a profession for them and not art There are many factors that impact the wine making How red wine has helped people stay fit Does it help in losing weight And for the history of red wine lovers unlike other diet books this eBook is rich in information that readers will love to go through This eBook has something for every individual reading the book with different aspects in mind From the history of red wine lover to the health conscious it is a must read *The Magic of Science: a Manual of Amusing and Instructive Scientific Experiments ...* James Wylde,1873
