Tears Ken Evans, 2021-03-05 This book is about how we relate to our loved ones after they have died To everything there is a season a time to every purpose under the sun A time to be born and a time to die a time to sow and a time to reap A time to weep a time to laugh a time to mourn and a time to dance Since the time of Herodotus how we care for the dead has been regarded as the surest sign of civilisation for they are still members of our families as social beings worthy of respect and honour To be loved and celebrated as Part of the fabric of family life continuing to dwell in us individually and communally The Dead matter because we cannot bear to give them up Nabakov says Our existence is but a brief crack of light between two extremities of darkness It is in this light that we make sense of human relationships The immeasurable weight of death its cultural gravitas bears down on the corpse and connects its materiality to the cosmic drama that transcends particular beliefs about the afterlife and journeys of the soul The homes of the Dead their graves or tombs speak directly to the needs of Memory forever in our hearts and minds

Power of Personality Eric Gee,2024-04-16 Conformity is the new black there is safety in numbers so what happens when individuals come into conflict with the shoe values they ve been forced to wear from an early age They will either submit to the pressure and lose sight of themselves or fight like hell and be socially excommunicated Too often personality distinctions are disowned and labeled as weakness or we default to accepting surface differences in the name of diversity If we truly want to coexist with one another we must learn that even our most sacred values deviate from person to person and it s that diversity that makes humanity strong The Power of Personality demystifies the sixteen different personality types by teaching the reader how to identify and appreciate their own unique type and that of others By re examining previously held assumptions on personality birth order cultural stereotypes extroversion vs introversion type A personalities and debunking clarifying them the reader will be able to understand a person deeper than that person understands themselves Considering the existential threat of our current fractured sociopolitical climate tearing itself from within this skill is not a luxury it s a necessity This is how our species survives 16 easy to remember animal archetypes All the fun of zodiac signs and all the empiricism of Joseph Campbell It s for romantics and pragmatists An instant conversation centerpiece that everyone can relate to its ideas were even featured on an episode of Apple TV s Mythic Quest The Power of Personality is the best kind of non fiction book one whose subject matter will appeal to all readers because its subject matter is the reader A step by step guide on how to personality type Most books consist of a simplistic often inaccurate test followed by descriptions and prescriptions But a treatment can be damaging if the diagnosis is wrong The Power of Personality is unique in that it trains you to be the test No more arbitrary questions No more mistyping No more damage A personal voice that places the reader squarely in the front seat for a breezy fresh intellectual joyride that uses humor and pop culture in tandem with the author s

twenty plus years of experience in education and life coaching The Power of Personality is groundbreaking in that it will not only change the way readers see the world but will empower them to reexamine their relationships within it Gone will be the daze of social disconnect and miscommunication This book is a must read a harbinger of a Youtopia where regardless of whether people are shoes purses hats or polka dot cardigans everyone is seen heard and accepted for who they truly are
