question of a modern sacred space from an interdisciplinary perspective focusing on religion space and architecture during the emergence of the modern period and up until contemporary times Revisiting the ways in which modern architects and artists have endeavored to create sacred spaces and buildings for the modern world will address the underlying questions of how religious ideas especially those related to esotericism and to alternative religiosities have transformed the way sacred spaces are conceptualized today

Charity Beck, Jen Hellman, Our mission is to be a multimedia resource for sharing stories ideas and actions that inspire educate motivate and provide solutions that will result in a worldwide movement of positive change      The Politics of Attention and the Promise of Mindfulness Lawrence Berger, 2023-09-27 It is evident from recent political campaigns such as

that of Donald Trump that the deployment of attention is crucial for political outcomes. Indeed, Trump's presidency came about in part due to realities that were produced by the media themselves which required in turn the engagement of public attention. The implication is that the instability and capriciousness that is often associated with attention can be an important influence on the outcomes that are so produced. Drawing on the thought of Martin Heidegger, Lawrence Berger puts forward a new conception of attention as human presence showing how its state determines the efficacy of public spaces in articulating and achieving visions of the common good. As politicians seek to amass power by capturing attention, citizens can engage in disciplines of attention such as mindfulness in producing a public power that is more appropriately oriented to the welfare of all. Berger argues that the practice of mindfulness can enable enhanced ontological bonds to form between individuals which can be the basis for more stable and effective political realities. Such bonds are not given structures but are rather contingent upon the state of attention which comes about holistically by way of a hermeneutical circle of attention, language and bodily understanding. This book is a valuable resource for scholars and students of philosophy of mind, political philosophy, phenomenology and cognitive science.

**The Zen of Home Water** Jerry Hamza, 2020-11-17. A Collection of Fishing Stories from Across the Globe by a Master Storyteller. To the uninitiated it might be somewhat surprising to discover that fly fishermen tend to be rather contemplative sorts. During those dark nights and long seasons when fishing is not a promising endeavor, we settle down to the next best thing: reading our vast libraries of ancient fishing lore interspersed with the odd philosophical tome. And when we do, we usually don't want to read proverbial stories about landing the big one or lengthy how-to expositions on how to catch the aforementioned big one. Rather, we tend to prefer stories that place our beloved piscatorial pastime within the larger context of life and nature. Stories that, as Hamza describes, spark a light. A light that is both familiar and comforting. Such is *The Zen of Home Water*, the latest angling book by Jerry Hamza. Hamza is a John Volker for the new millennium. His book is interspersed with stories about monster brook trout, beautiful North woods streams and lakes, quirky backwoods guides and legendary fly hatches. Through it all, he shows us one of the most profound truths of life: that it takes the acquisition of wisdom to understand that a happy life is actually a mosaic of small and insignificant events we string together, moments in life like pearls becoming a beautiful necklace. The iridescent pearls that Hamza strings together are many and include the importance of freestyling, that uncontrollable escape impulse that implores us to drop whatever we are doing and head to the stream, any stream, with fly rod in hand. Another recurring theme is the need to unplug from the modern electronic world. He instructs us how to trespass with bartered permission and fish those waters that look so inviting yet so out of reach to the usually law-abiding. His recipe for squirrel stew is not jealously guarded but freely shared. And his stories of catching giant brook trout in the Maine North Woods allow the reader, who usually can't participate in such acts of angling greatness, to at least know that they are occurring to someone somewhere. Hamza is a member of that peculiar subset of anglers, the bamboo rod aficionado. While acknowledging the cold, hard fact that bamboo

rods are nothing more than conglomerations of expensive blades of grass he also realizes that these handmade treasures passed down to us from previous generations will hopefully outlive us and our car doors and that we are merely their caretakers for a time Although the dreaded g word i e graphite does make a brief appearance Hamza is definitely one of those anglers who would rather hold an aged organic creation of the bamboo rod maker s art than the latest admittedly efficient chemical concoction straight from the laboratory This puts him squarely in the tradition of John Gierach although Hamza s writing is better and his stories more entertaining Hamza s own home waters are dual Maine s Grand Lake Stream area and the southern shore of the Lake Ontario region There are echoes of Thoreau s Maine Woods in his stories of remote lakes and plentiful trout And while he takes us all around the country when relating his angling exploits Kerouac s On the Road is a particular favorite of his it is evident that the concept of home water carries a lot of weight with him His beloved Zen Lake with its less than perfect history and many small fish could be the home water of any of us      Catalog of Copyright Entries Library of Congress.
