Field Manual for the Archaeology of Ritual, Religion, and Magic C. Riley Augé, 2022-07-08 By bringing together in one place specific objects materials and features indicating ritual religious or magical belief used by people around the world and through time this tool will assist archaeologists in identifying evidence of belief related behaviors and broadening their understanding of how those behaviors may also be seen through less obvious evidential lines Instruction and templates for recording typologizing classifying and analyzing ritual or magico religious material culture are also provided to guide researchers in the survey collection and cataloging processes The bulleted formatting and topical range make this a highly accessible work while providing an incredible wealth of information in a single volume **Materijali za istorijata na Makedonija** , 1982 **Sacred Darkness** Holley Moyes, 2012-04-15 Caves have been used in various ways across human society but despite the persistence within popular culture of the iconic caveman deep caves were never used primarily as habitation sites for early humans Rather in both ancient and contemporary contexts caves have served primarily as ritual spaces In *Sacred Darkness* contributors use archaeological evidence as well as ethnographic studies of modern ritual practices to envision the cave as place of spiritual and ideological power that emerges as a potent venue for ritual practice Covering the ritual use of caves in Europe Asia Australia Africa Mesoamerica and the US Southwest and Eastern woodlands this book brings together case studies by prominent scholars whose research spans from the Paleolithic period to the present day These contributions demonstrate that cave sites are as fruitful as surface contexts in promoting the understanding of both ancient and modern religious beliefs and practices This state of the art survey of ritual cave use will be one of the most valuable resources for understanding the role of caves in studies of religion sacred landscape or cosmology and a must read for any archaeologist interested in caves Look Away! Imagining Literacy Ramona Fernandez, 2010-01-01 Defining the common knowledge a literate person should possess has provoked intense debate ever since the publication of E D Hirsch's controversial book Cultural Literacy What Every American Needs to Know Yet the basic

concept of common knowledge Ramona Fernandez argues is a Eurocentric model ill suited to a society composed of many distinct cultures and many local knowledges In this book Fernandez decodes the ideological assumptions that underlie prevailing models of cultural literacy as she offers new ways of imagining and modeling mixed cultural and non print literacies In particular she challenges the biases inherent in the encyclopedias of knowledge promulgated by E D Hirsch and others by Disney World s EPCOT Center and by the Smithsonian Institution In contrast to these she places the writings of Zora Neale Hurston Maxine Hong Kingston Gloria Anzald a and Leslie Marmon Silko whose works model a cultural literacy that weaves connections across many local knowledges and many ways of knowing Small Press Record of Books in Print
