**Magical Running Shoes** Hong Kong ICAC 國際道德委員會, Theme Fairness and Justice More Stories on the ICAC Moral Education Website <http://www.me.icac.hk> **Magical Running** Bobby McGee, 2000 More than 8 million Americans participate in the sport of running on a regular basis. These include men and women of all abilities with a wide range of hopes, dreams, and goals. Magical Running breaks new ground in the sport of running. The book addresses how runners can achieve what they really want from their sport. 12 key areas are presented through which runners of all abilities learn to mentally program themselves for a level of running that provides success, enjoyment, and fulfillment. Each key area is presented in theory and supported by anecdotes from some of the world's greatest athletes. Readers are guided in the design of their own individual mental skills program. Magical Running helps runners think beyond the boundaries they have set themselves and guides them to implement motivational concepts that enhance their personal performance and experience. With Magical Running, runners will never view their running quite the same way again. Although it is specifically aimed at the runner, the concepts employed in the book have a universal application that can benefit readers in all areas of life. Magical Running Workbook Bobby McGee, 2000-03-01 **Barefoot Running** Michael Sandler, Jessica Lee, 2011-09-20 How could something we have for free, our bare feet, be better for running than 150 shoes? The truth is that running in shoes is high impact, unstable, and inflexible. Shoes promote a heel-centric ground strike which weakens your feet, knees, and hips and leads to common running injuries. In contrast, barefoot running is low impact, forefoot-centric, stable, and beneficial to your body. It encourages proper form and strengthens your feet in miraculous ways. When you run in shoes, you not only risk developing poor form, but you also hinder the natural relationship with the ground that running facilitates. Barefoot running restores the delightful sensory and spiritual connections to the earth that you were meant to experience. Barefoot Running offers the only step-by-step direction runners need at any age to overcome injuries, run faster than ever, and rediscover the pure joy of running. Once you tear off your shoes and learn to dance with nature, you'll tread lightly and freely, hearing only the earth's symphony and feeling only the dirt beneath your feet. Hit the ground running with revolutionary techniques for starting out slowly, choosing minimalist footwear, navigating rough weather and rugged terrain, and building your feet into living shoes. *RUN* Fitzgerald Matt, 2010-05-24 Most serious runners don't realize their potential. They simply stop getting faster and don't understand why. The reason is simple: most runners are unable to run by feel. The best elite runners have learned that the key to faster running is to hear what their bodies are telling them. Drawing on new research on endurance sports, best-selling author Matt Fitzgerald explores the practices of elite runners to explain why their techniques can be effective for all runners. *RUN: The Mind-Body Method of Running by Feel* will help runners reach their full potential by teaching them how to train in the most personalized and adaptable way. Fitzgerald's mind-body method will revolutionize how runners think about training, their personal limits, and their potential. *RUN* explains how to interpret emotional and physical messages like confidence, enjoyment,

fatigue suffering and aches and pains RUN guides readers toward the optimal balance of intensity and enjoyment volume and recovery repetition and variation As the miles add up runners will become increasingly confident that they are doing the right training on the right day from one season to the next RUN marks the start of a better way to train The culmination of science and personal experience the mind body method of running by feel will lead runners to faster more enjoyable training and racing
