Virgil, a Study in Civilized Poetry Brooks Otis,1995 In this classic study Brooks Otis presents Virgil as a radically different poet from any of his Greek or Roman predecessors Virgil molded the ancient epic tradition to his own Roman contemporary aims and succeeded in making mythical and legendary figures meaningful to a sophisticated unmythical age Otis begins and ends his study with the Aeneid and includes chapters on the Bucolics and the Georgics A new foreword by Ward W Briggs Jr places Otis s groundbreaking achievement in the context of past and present Virgilian scholarship **The Spirit of Magic** Virgil,2019-01-17 This book was written with one purpose in mind to share the knowledge and wisdom the author has acquired since he began working with the system of magic designed by the Czech adept Franz Bardon The contents of this book contain Reflections about the nature of magic made after over a decade of studying and practicing the art in its most genuine and pure form Helpful comments on important technical exercises and basic theoretical teachings An assessment of the inner inspiration that lies at the heart of magic and brings the art to life The Spirit of Magic contains anecdotes and stories to illustrate important aspects of magical training The author s engaging and straightforward approach offers a serious yet enjoyable and easily understandable guide for those seeking balanced and steady magical advancement This book is unique in its approach since it draws upon the full spectrum of life in order to illustrate the most basic and important principles of the sacred art Hardback copies are also available on the Falcon Books Publishing website www.falconbookspublishing.com **The Spirit of Magic** , *The Golden Bough: pt.1-2.  God and the Land Stephanie A. Nelson,2008-12-01 In this pathbreaking book which includes a powerful new translation

of Hesiod's *Works and Days* by esteemed translator David Grene Stephanie Nelson argues that a society's vision of farming contains deep indications about its view of the human place within nature and our relationship to the divine She contends that both Hesiod in the *Works and Days* and Vergil in the *Georgics* saw farming in this way and so wrote their poems not only about farming itself but also about its deeper ethical and religious implications Hesiod Nelson argues saw farming as revealing that man must live by the sweat of his brow and that good for human beings must always be accompanied by hardship Within this vision justice competition cooperation and the need for labor take their place alongside the uncertainties of the seasons and even of particular lucky and unlucky days to form a meaningful whole within which human life is an integral part Vergil Nelson argues deliberately modeled his poem upon the *Works and Days* and did so in order to reveal that his is a very different vision Hesiod saw the hardship in farming Vergil sees its violence as well Farming is for him both our life within nature and also our battle against her Against the background of Hesiod's poem which found a single meaning for human life Vergil thus creates a split vision and suggests that human beings may be radically alienated from both nature and the divine Nelson argues that both the *Georgics* and the *Works and Days* have been misread because scholars have not seen the importance of the connection between the two poems and because they have not seen that farming is the true concern of both farming in its deepest and most profoundly unsettling sense Art and the Reformation George Gordon Coulton, 1928
