Early Christian Books in Egypt Roger S. Bagnall, 2021-07-13 For the past hundred years much has been written about the early editions of Christian texts discovered in the region that was once Roman Egypt Scholars have cited these papyrus manuscripts containing the Bible and other Christian works as evidence of Christianity's presence in that historic area during the first three centuries AD In Early Christian Books in Egypt distinguished papyrologist Roger Bagnall shows that a great deal of this discussion and scholarship has been misdirected biased and at odds with the realities of the ancient world Providing a detailed picture of the social economic and intellectual climate in which these manuscripts were written and circulated he reveals that the number of Christian books from this period is likely fewer than previously believed Bagnall explains why papyrus manuscripts have routinely been dated too early how the role of Christians in the history of the codex has been misrepresented and how the place of books in ancient society has been misunderstood The author offers a realistic reappraisal of the number of Christians in Egypt during early Christianity and provides a thorough picture of the economics of book production during the period in order to determine the number of Christian papyri likely to have existed Supporting a more conservative approach to dating surviving papyri Bagnall examines the dramatic consequences of these findings for the historical understanding of the Christian church in Egypt

**Guide to the Study of Ancient Magic** David Frankfurter, 2019-03-19 In the midst of academic debates about the utility of the term magic and the cultural meaning of ancient words like *mageia* or *khesheph* this Guide to the Study of Ancient Magic seeks to advance the discussion by separating out three topics essential to the very idea of magic The three major sections of this volume address 1 indigenous terminologies for ambiguous or illicit ritual in antiquity 2 the ancient texts manuals and artifacts commonly designated magical or used to represent ancient magic and 3 a series of contexts from the written word to materiality itself to which the term magic might usefully pertain The individual essays in this volume cover most of Mediterranean and Near Eastern antiquity with essays by both established and emergent scholars of ancient religions In a burgeoning field of magic studies trying both to preserve and to justify critically the category itself this volume brings new clarity and provocative insights This will be an indispensable resource to all interested in magic in the Bible and the Ancient Near East ancient Greece and Rome
