and Russia at the end of the russo turkish War of 1877 and made Germany a dominating power in Europe at the Congress of Berlin at which the treaties were drawn up after this war In the crucial period of the last quarter of the century Bismarck was the directing genius of the policies of Germany which gave to the nation in addition to its great military strength an industrial and commercial development that secured world wide commerce for Germany About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
