

THE MAGNIFICENT FROLIC

by BARRY
WOOD

This ingenious and delightful book is a wonderful relief to read and comment about so much of the assumed "death of God" theologizing that has been going on for some years, asking whether the Christian gospel can be relevant in a human life which consists of nothing except a journey from the maternity ward to the crematorium. Barry Wood has given a new dimension to the whole problem.

Can religious faith be critical and remain recognizable as faith Or is the idea of a critical faith a contradiction in terms In this book an emerging new voice in the philosophy of religion argues in favor of critical faith Playing on a double meaning of the word critical the title of the book suggests that faith is not only a critical crucial component of human life but also a component that can and should develop in a critical intellectually vigilant way Taking John Locke s reflections on the relationship between faith and reason as his point of departure the author weaves his discussion around a wide array of intellectual figures and conversations In addition to addressing important elements in the work of such historical figures as Aquinas and Locke Kuipers also incorporates themes from recent discussions in the philosophy of science feminist epistemology philosophy of language liberal theology and critical theory The book ends with a discussion of elements in Jurgen Habermas s theory of communicative action and offers a critical assessment of the merit of Habermas s notion of critical rationality as a normative yardstick for the achievement of a critical faith
