A dunántúli magyar nép művészete (Veszprém, Zala, Somogy, Tolna)** Dezső Malonyay,1912      "*Textiles, Fashion, and Design Reform in Austria-Hungary Before the First World War* " Rebecca Houze,2017-07-05 Filling a critical gap in Vienna 1900 studies this book offers a new reading of fin de siècle culture in the Austro Hungarian Monarchy by looking at the unusual and widespread preoccupation with embroidery fabrics clothing and fashion both literally and metaphorically The author resurrects lesser known critics practitioners and curators from obscurity while also discussing the textile interests of better known figures notably Gottfried Semper and Alois Riegl Spanning the 50 year life of the Dual Monarchy this study uncovers new territory in the history of art history insists on the crucial place of women within modernism and broadens the cultural history of Habsburg Central Europe by revealing the complex relationships among art history women and Austria Hungary Rebecca Houze surveys a wide range of materials from craft and folk art to industrial design and includes overlooked sources from fashion magazines to World's Fair maps from exhibition catalogues to museum lectures from feminist journals to ethnographic collections Restoring women to their place at the intersection of intellectual and artistic debates of the time this book weaves together discourses of the academic scientific and commercial design communities with middle class life as expressed through popular culture      **A magyar nép művészete** Dezső Malonyay,1984      **British Books** ,1912      **The Publisher** ,1912      **Metamorphism** Ákos Moravánszky,2017-11-20 Materiality is a recurring and central issue in architecture This book explains how materials are constructed how they become cultural substances Metamorphism investigates the complex relationship between natural materials and technology science and sensuality Gottfried Semper 1803 1879 made the notion of Stoffwechsel the key element of his theory With this concept he intended to explain how a structural form originally bound to a method of processing is transferred from one material to another liberated from its original function For the first time the book investigates the subject from a historic point of view whilst reflecting on current interdisciplinary research Examples from Aalto to Zumthor illustrate the specific aspects of historic and contemporary material concepts      **A magyar nép művészete: köt. Maday,1983 A collection of studies by distinguished anthropologists ethnographers and sociologists on the collectivization of agriculture in Hungary edited by Marida Hollos and Bela Maday      **Redefining Hungarian Music from Liszt to Bartók** Lynn M. Hooker,2013-10-25 Some of the most popular works of nineteenth century music were labeled either Hungarian or Gypsy in style including many of the best known and least respected of Liszt's compositions In the early twentieth century Bela Bartók and his colleagues questioned not only the Hungarianness but also

the good taste of that style Bartók argued that it should be discarded in favor of a national style based in the genuine folk music of the rural peasantry Between the heyday of the nineteenth century Hungarian Gypsy style and its replacement by a new paradigm of authentic national style was a vigorous decades long debate one little known inside or outside Hungary over what it meant to be Hungarian European and modern Redefining Hungarian Music from Liszt to Bartók traces the historical process that defined the conventions of Hungarian Gypsy style Author Lynn M Hooker frames her study around the 1911 celebration of Liszt's centennial In so doing she analyzes Liszt's problematic role as a Hungarian born composer and leader of Hungarian art music who spent most of his life outside of Hungary and questioned whether Hungary's national music was more the creation of Hungarians or Roma Gypsies The themes of race and nation that emerge in the discussion of Liszt are further developed in an analysis of discourse on Hungarian national music throughout the Hungarian press in the late nineteenth and early twentieth centuries Showing how the discovery of genuine folk music by Bartók and Kodály often depicted as a purely scientific matter responds directly to concerns raised by earlier writers about the problem of Hungarian music Hooker argues that the innovations of Bartók and Kodály and their circle are not so much in correcting a flawed concept of the national as in using the idea of national authenticity to open up freedom for composers to explore more stylistic options including the exploration of modernist musical language Meticulously researched and elegantly written Redefining Hungarian Music from Liszt to Bartók is essential reading for musicologists musicians and concertgoers alike

*Visions of the Future* Matthew Rampley,2025-06-10 Some of the most striking examples of modernist architecture are churches yet they have seldom been subject to extended critical analysis In this book Matthew Rampley provides just such an analysis focusing on the Catholic Church in interwar Austria Czechoslovakia and Hungary A powerful institution in the Habsburg Empire the Catholic Church continued to be a central social political and cultural agent after 1918 working in alliance with political parties and national governments to promote visions of a new national culture As a result church building took on an important ideological and political function Rampley's study is set against the backdrop of two interrelated issues the role of architecture in the Catholic Church's response to an increasingly secular modernity and church architecture as part of the Church's attempts to shape social and political life in the states that emerged after the collapse of Austria Hungary Rampley also examines the aesthetic cultural and political contexts that informed architectural projects including the conflict between Catholicism and social democracy the embrace of fascism Catholic theories of technology and discourses of regionalism and ruralism In bringing to light an untold chapter in the history of modern architecture this book also engages in methodological reflection on the implications of the study of modern church architecture for the

historiography of modernism This book will appeal to students and scholars of architectural history religious and political history and interwar Central European history **Go East!** Balázs Ablonczy, 2022-01-11 For more than two centuries Hungarians believed they shared an ethnic link with people of Japanese Bulgarian Estonian Finnish and Turkic descent Known as Turanism this ideology impacts Hungarian politics science and cultural and ethnic identity even today In *Go East A History of Hungarian Turanism* Bal zs Ablonczy examines the rise of Hungarian Turanism and its lasting effect on the country s history Turanism arose from the collapse of the Kingdom of Hungary when the nation s intellectuals began to question Hungary s place in the Western world The influence of this ideology reached its peak during World War I when Turanian societies funded research economic missions and geographical expeditions Ablonczy traces Turanism from its foundations through its radicalization in the interwar period its survival in emigrant circles and its resurgence during the economic crisis of 2008 Turanian notions can be seen today in the rise of the extreme right wing party Jobbik and in Hungarian prime minister Viktor Orb n s party Fidesz *Go East* provides fresh insight into Turanism s key political and artistic influences in Hungary and illuminates the mark it has left on history Magyar iparművészet ,1927
