Marini, 1986\* **Focused on the Coast** Neal Parent, 2002 A professional photographer for over twenty years Neal Parent started his career as a photojournalist for a small mid coast Maine newspaper Although his primary subjects have been the coast of Maine its water landscapes boats and people in recent years his work has expanded to include Florida Wyoming and Montana Shooting exclusively in the 35mm format enables him to photograph with spontaneity Using natural light he works without filters and does all his own printing Hand processing of each photograph in trays ensures complete control of each image Neal has been sharing his gifts of photography and laughter with others by conducting workshops throughout Maine for many years He has taught week long courses at WoodenBoat School in Brooklin Maine and on the ketch Angelique out of Camden Maine as well as at his studio and darkroom in Belfast Maine Maine Life at the Turn of the Century Through the Photographs of Nettie Cummings Maxim Diane Barnes, Jack Barnes, 1995 Before her death in 1910 Nettie Cummings Maxim chronicled the people landscapes and animals of a typical Maine farm at Bird Hill in Bethel at the turn of the century In a time before mass media her world consisted almost entirely of her family and farm This intimate familiarity with her immediate world and a degree of cultural isolation allowed Nettie to explore and capture on film the details of farm life through the seasons and the innocence and wisdom in the eyes of the children whose lives were so closely entwined with life on a rural Maine hill farm After one look at her photographs her innate artistic talent becomes immediately apparent her use of natural light the composition of her images and her eye for detail lend a tremendously beautiful evocative quality to her images She turned the long exposures mandated by film at the turn of the century to her advantage and somehow manages to create the illusion of motion in her photographs Through her cameras Nettie recorded the world that was so endearing to her a world that has gone largely undocumented by photography In doing so she has given immortality to the people buildings and even the animals that were part of her life and her microcosm of society nearly a century ago as well as giving us a rare insight into the intricacies of daily life in the nearby communities of Locke's Mills and Greenwood Allow her to lead you back into life in rural Maine at the turn of the century it is a journey worth making and one that you will never forget Seacoast Maine, 2009 Still the real rationale of a book like this is to validate the vision and the work of an artist and this ambition is more than justified by page after page of dauntingly beautiful images carefully arranged and faultlessly printed If Maine is a state you hold dear this is a book that says it all BOOK JACKET
