## **Mainstreaming Men Into Gender And Development Debates Reflections And Experiences:**

Mainstreaming Men Into Gender and Development Sylvia H. Chant, Matthew C. Gutmann, 2000 Based on research commissioned by the World Bank this book's primary focus is on incorporating men in gender and development interventions at the grass roots level. It draws attention to some of the key problems that have arisen from male exclusion as well as to the potential benefits of and obstacles to men's inclusion. Mainstreaming Gender in Development Fenella Porter, Caroline Sweetman, 2005 Articles discuss how gender mainstreaming has been understood in different organisations provide examples of good work which supports the empowerment of women and look beyond gender mainstreaming to what new possibilities exist for transformation. **Senegal** Robin Sharp, 1994 Up to date view of Senegal from the perspective of the poor

**Advancing Population and Development in Uganda and Beyond** John Mushomi Atwebembeire, Hannah Muzee, 2025-06-18 This book offers a comprehensive exploration of Uganda's demographic landscape drawing on perspectives and analytics from selected African countries. It meticulously examines demographic transitions trends and the potential for a demographic dividend to foster development. Beginning with Africa's Road to Demographic Transformation the book underscores the critical importance of African population dynamics and the policies and programmes shaping them within the continent. Its unique contribution lies in its reliance on primary data sources including interviews which provide fresh insights viewpoints and reflections. This makes the book an invaluable resource for researchers policymakers and practitioners engaged with population issues. A central argument of this work is the profound influence of population dynamics on economic social and environmental outcomes. It highlights the significant benefits of investing in population delving into the interconnectedness of population growth migration social protection and urbanisation. Ultimately the book advocates for advancing population and development in Africa through a deep understanding of demographic trends challenges and opportunities coupled with a commitment to implementing policies and programmes that prioritise the well being of African populations. The book is structured into three parts. Part One delves into chapters exploring sexual and reproductive health issues across Africa. Part Two focuses specifically on Uganda's context concerning population aging and older persons and Part Three sheds light on demographic data and service delivery. **Masculinities and Femininities in**

**Latin America's Uneven Development** Susan Paulson, 2015-08-20 This book forges a new approach to historical and geographical change by asking how gender arrangements and dynamics influence the evolution of institutions and environments. This new theoretical approach is applied via mixed methods and a multi scale framework to bring together unusually diverse phenomena. Regional trends demonstrated with quantitative data include the massive incorporation of women into paid work demographic masculinization of the countryside and feminization of cities rapidly increasing gaps that favor women over men in education and life expectancy and extraordinarily high levels of violence against men. Case studies in Mexico Chile and Bolivia explore changes influenced by gender practices and expectations that involve men in different

ways than women they also highlight dissimilarities and power relations between differently positioned masculine groups Ethnographic studies of culturally diverse arrangements together with particular attention to subordinate versus dominant masculinities complicate the gender binaries that circumscribe so much research and policy Drawing attention to imbalances and conflicts generated by inappropriate models and uneven developments the book points to opportunities for experimenting with and adapting the sociocultural institutions that govern relations among humans and between humans and their environment

*Cities, Slums and Gender in the Global South* Sylvia Chant, Cathy McIlwaine, 2015-12-22 Developing regions are set to account for the vast majority of future urban growth and women and girls will become the majority inhabitants of these locations in the Global South This is one of the first books to detail the challenges facing poorer segments of the female population who commonly reside in slums It explores the variegated disadvantages of urban poverty and slum dwelling from a gender perspective This book revolves around conceptualisation of the gender urban slum interface which explains key elements to understanding women s experiences in slum environments It has a specific focus on the ways in which gender inequalities are can be entrenched but also alleviated Included is a review of the demographic factors which are increasingly making cities everywhere feminised spaces such as increased rural urban migration among women demographic ageing and rising proportions of female headed households in urban areas Discussions focus in particular on education paid and unpaid work access to land property and urban services violence intra urban mobility and political participation and representation This book will be of use to researchers and professionals concerned with gender and development urbanisation and rural urban migration

Handbook of Studies on Men and Masculinities Michael S. Kimmel, Jeff Hearn, Raewyn Connell, 2005 In the past research in the field of gender has mainly addressed issues about women and has for the most part been developed by women Recently the study of gender has rapidly expanded and there has been a growing interest in men s and boys identities conduct and problems The Handbook of

Studies on Men and Masculinities is an interdisciplinary and international culmination of the growth of men's studies that also offers insight about future directions for the field. The Handbook provides a broad view of masculinities primarily across the social sciences with the inclusion of important debates in some areas of the humanities and natural sciences. The various approaches presented in this Handbook range across different disciplines, theoretical perspectives, methodologies and conceptualizations in relation to the topic of men. Editors Michael S. Kimmel, Jeff Hearn and Robert W. Connell have assembled an esteemed group of contributors who are among the best known experts in their particular fields. The Handbook of Studies on Men and Masculinities examines the construction of masculinities in four different frames: the social organization of masculinities in their global and regional iterations; the institutional reproduction and articulation of masculinities; the ways in which masculinities are organized and practiced within a context of gender relations; and the ways in which individual men express and understand their gendered identities. The Handbook is organized in a way that moves from the larger global and institutional articulations of masculinities to the more intimate and personal expressions. The Handbook of Studies on Men and Masculinities provides scholars, researchers and students with the most current incisive scholarship available for the men's studies area of gender studies. It is a vital resource for those interested in the practical or cultural issues about men, boys and gender as well as an excellent addition to any academic library.

**Mainstreaming Politics** Carol Lee Bacchi, Joan Eveline, 2010 This book offers an innovative rethinking of policy approaches to gender equality and of the process of social change It brings several new chapters together with a series of

previously published articles to reflect on these topics A particular focus is gender mainstreaming a relatively recent development in equality policy in many industrialised and some industrialising countries as well as in large international organisations such as the World Bank the International Monetary Fund and the International Labour Organization The book draws upon poststructuralist organisation and policy theory to argue that it is impossible to script reform initiatives such as gender mainstreaming As an alternative it recommends thinking about such policy developments as fields of contestation shaped by on the ground political deliberations and practices including the discursive practices that produce specific ways of understanding the problem of gender inequality In addition to the new chapters the editors Bacchi and Eveline produce brief introductions for each chapter tracing the development of their ideas over four years Through these commentaries the book provides exciting insights into the complex processes of collaboration and theory generation Mainstreaming Politics is a rich resource for both practitioners in the field and for theorists In particular it will appeal to those interested in public policy public administration organisation studies sociology comparative politics and international studies

*Violence at the Urban Margins* Javier Auyero,Philippe I. Bourgois,Nancy Scheper-Hughes,2015 In the Americas debates around issues of citizen s public safety from debates that erupt after highly publicized events such as the shootings of Jordan Davis and Trayvon Martin to those that recurrently dominate the airwaves in Latin America are dominated by members of the middle and upper middle classes However a cursory count of the victims of urban violence in the Americas reveals that the people suffering the most from violence live and die at the lowest of the socio symbolic order at the margins of urban societies The inhabitants of the urban margins are hardly ever heard in discussions about public safety They live in danger but the discourse about violence and risk belongs to is manufactured and manipulated by others others who are prone to view violence at the urban margins as evidence of a cultural or racial defect rather than question violence s relationship to economic and political marginalization As a result the experience of interpersonal violence among the urban poor becomes something unspeakable and the everyday fear and trauma lived in relegated territories is constantly muted and denied This edited volume seeks to counteract this pernicious tendency by putting under the ethnographic microscope and making public the way in which violence is lived and acted upon in the urban peripheries It features cutting edge ethnographic research on the role of violence in the lives of the urban poor in South Central and North America and sheds light on the suffering that violence produces and perpetuates as well as the individual and collective responses that violence generates among those living at the urban margins of the Americas

Did the Millennium Development Goals Work? Manmohan Agarwal,Hany Besada,Leah McMillan Polonenko,2017-09-20 The Millennium Development Goals set by the United Nations were deliberately ambitious and they ve been the subject of much debate Now with the 2015 target date for many of the goals having passed it s time to assess the goals and attempt to determine whether they were effective Gathering leading scholars from a range of backgrounds and regions this book offers an in depth exploration of that question with the aim of better understanding the

effects of the Millennium Development Goals and learning from them for future policy decisions      **Changing Men and Masculinities in Latin America** Matthew C. Gutmann, 2003-01-20 Essays drawn from a variety of disciplines both review and challenge current understandings of masculinity in Latin America      *Engaging Men and Boys in Violence Prevention* Michael Flood, 2018-11-07 Across the globe violence prevention initiatives focused on men and boys are proliferating rapidly *Engaging Men and Boys in Violence Prevention* highlights effective and innovative strategies for the primary prevention of domestic violence sexual violence and other forms of harassment and abuse It combines research on gender masculinities and violence with case studies from a wide variety of countries and settings Through the cross disciplinary examination of these varied efforts this work will enable advocates educators and policy makers to understand assess and implement programs and strategies which involve men and boys in initiatives to prevent violence against women      **Spaces of Masculinities** Kathrin Hörschelmann, Bettina van Hoven, 2013-03-07 Changing circumstances in Western and global societies have introduced new constraints and opportunities for men and the formation of male identities Meanwhile the emerging diversity of atypical identities atypical when compared with traditional conceptions of middle class white heterosexual men poses new challenges for the production and use of spaces *Spaces of Masculinities* provides a comprehensive introduction to the innovative and diverse research on spaces of masculinity Drawing on a variety of geographical research projects the central concern of the book is to highlight the significance of research on masculinity in sociological and geographical work dealing with constructions of gender
