**Into the Mainstream** Jorge Febles, 2009-03-26 *Into the Mainstream* Essays on Spanish American and Latino Literature and Culture is a direct outgrowth of Jorge Febles s involvement with the annual conference of the American Culture Association and the Popular Culture Association In that sense the compilation expands on a project initiated in 1993 by Helen Ryan Ransom with her book *Imagination Emblems and Expressions* Essays on Latin American Caribbean and Continental Culture and Identity Bowling Green Ohio Bowling Green State University Popular Press 1993 David William Foster who penned a lengthy preface to that collection justified its intent by underscoring The very fact that our approach to culture is dominated by categories based on high academic institutionalized phenomena poses from the very outset the question of how to deal with all those other cultural manifestations that do not comfortably assimilate to the accepted canon Ryan Ransom 3 The past fourteen years however have witnessed a radical transformation of that so called canon due to the widespread acceptance of ideas espoused by cultural theorists like Garc a Canclini Homi Bhabha Said Stuart Hall Benhabib Bourdieu and countless others Therefore the ambivalence regarding what constitutes culture identified by Foster is inoperative nowadays to a substantial degree In fact a fundamental component of the postmodern outlook resides in the ability to blend comfortably the high and the low the elitist and the popular realms of production in a multiplicity of textual artifacts creative as well as critical in nature Hence the essays that conform *Into the Mainstream* do not question barriers anymore nor do they expound on the need to assign a discursive intellectual space to matters pertaining to popular culture Thus this collection espouses an inclusive approach in which a variety of analytical approaches coalesce to reflect on an equally kaleidoscopic textuality Pursuant to its comprehensive nature *Into the Mainstream* airs established as well as developing critical voices so as to reflect both ideological continuity and evolving viewpoints Scholars who have compiled strong academic records like Hortensia Morell Raquel Rivas Rojas Elsa Gilmore David Petreman and Benjam n Torres Caballero share a venue with younger critics like

Bibliography on Medical Education National Library of Medicine (U.S.), 1966 *Interracial Encounters* Julia H. Lee, 2011-10-01 2013 Honorable Mention Asian American Studies Association s prize in Literary Studies Part of the American Literatures Initiative Series Why do black characters appear so frequently in Asian American literary works and Asian

characters appear in African American literary works in the early twentieth century *Interracial Encounters* attempts to answer this rather straightforward literary question arguing that scenes depicting Black Asian interactions relationships and conflicts capture the constitution of African American and Asian American identities as each group struggled to negotiate the racially exclusionary nature of American identity In this nuanced study Julia H Lee argues that the diversity and ambiguity that characterize these textual moments radically undermine the popular notion that the history of Afro Asian relations can be reduced to a monolithic media friendly narrative whether of cooperation or antagonism Drawing on works by Charles Chesnutt Wu Tingfang Edith and Winnifred Eaton Nella Larsen W E B Du Bois and Younghill Kang *Interracial Encounters* foregrounds how these reciprocal representations emerged from the nation s pervasive pairing of the figure of the Negro and the Asiatic in oppositional overlapping or analogous relationships within a wide variety of popular scientific legal and cultural discourses Historicizing these interracial encounters within a national and global context highlights how multiple racial groups shaped the narrative of race and national identity in the early twentieth century as well as how early twentieth century American literature emerged from that multiracial political context

*Black Masculinity and the U.S. South* Riché Richardson, 2010-01-25 This pathbreaking study of region race and gender reveals how we underestimate the South s influence on the formation of black masculinity at the national level Many negative stereotypes of black men often contradictory ones have emerged from the ongoing historical traumas initiated by slavery Are black men emasculated and submissive or hypersexed and violent Nostalgic representations of black men have arisen as well think of the philosophical hardworking sharecropper or the abiding upright preacher To complicate matters says Rich Richardson blacks themselves appropriate these images for purposes never intended by their mostly white progenitors Starting with such well known caricatures as the Uncle Tom and the black rapist Richardson investigates a range of pathologies of black masculinity that derive ideological force from their associations with the South Military policy black liberation discourse and contemporary rap she argues are just some of the instruments by which egregious pathologies of black masculinity in southern history have been sustained Richardson s sources are eclectic and provocative including Ralph Ellison s fiction Charles Fuller s plays Spike Lee s films Huey Newton s and Malcolm X s political rhetoric the O J Simpson discourse and the music production of Master P the Cash Money Millionaires and other Dirty South rappers Filled with new insights into the region s role in producing hierarchies of race and gender in and beyond their African American contexts this new study points the way toward more epistemological frameworks for southern literature southern studies and gender studies

Chris Berry is Professor of Film and Television at Goldsmiths University of London *The Aesthetics and Affects of Cuteness*  
Joshua Paul Dale, Joyce Goggin, Julia Leyda, Anthony P. McIntyre, Diane Negra, 2016-12-08 Cuteness is one of the most  
culturally pervasive aesthetics of the new millennium and its rapid social proliferation suggests that the affective responses it  
provokes find particular purchase in a contemporary era marked by intensive media saturation and spreading economic  
precarity Rejecting superficial assessments that would deem the ever expanding plethora of cute texts trivial *The Aesthetics  
and Affects of Cuteness* directs serious scholarly attention from a variety of academic disciplines to this ubiquitous  
phenomenon The sheer plasticity of this minor aesthetic is vividly on display in this collection which draws together analyses  
from around the world examining cuteness's fundamental role in cultural expressions stemming from such diverse sources as  
military cultures high end contemporary art worlds and animal shelters Pushing beyond prevailing understandings that  
associate cuteness solely with childhood or which posit an interpolated parental bond as its primary affective attachment the  
essays in this collection variously draw connections between cuteness and the social political economic and technological  
conditions of the early twenty first century and in doing so generate fresh understandings of the central role cuteness plays  
in the recalibration of contemporary subjectivities *Reconstructing Architecture* Thomas A. Dutton, Lian Hurst Mann, 1996  
*Reconstructing Architecture* was first published in 1996 Minnesota Archive Editions uses digital technology to make long  
unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions  
To create architecture is an inherently political act yet its nature as a social practice is often obscured beneath layers of  
wealth and privilege The contributors to this volume question architecture's complicity with the status quo moving beyond  
critique to outline the part architects are playing in building radical social movements and challenging dominant forms of  
power The making of architecture is instrumental in the construction of our identities our differences the world around us  
much of what we know of institutions the distribution of power social relations and cultural values is mediated by the built  
environment Historically architecture has constructed the environments that house the dominant culture Yet as the essays in  
*Reconstructing Architecture* demonstrate there exists a strong tradition of critical practice in the field one that attempts to  
alter existing social power relations Engaging the gap between modernism and postmodernism each chapter addresses an  
oppositional discourse that has developed within the field and then reconstructs it in terms of a new social project feminism  
social theory environmentalism cultural studies race and ethnic studies and critical theory The activists and scholars writing  
here provide a clarion call to architects and other producers of culture challenging them to renegotiate their political  
allegiances and to help reconstruct a viable democratic life in the face of inexorable forces driving economic growth  
destroying global ecology homogenizing culture and privatizing the public realm *Reconstructing Architecture* reformulates  
the role of architecture in society as well as its capacity to further a progressive social transformation Contributors Sherry
