*Giftwares* ,1927     Italian Ceramics Catherine Hess,2003-01-01 In 1984 the Getty Museum acquired an exceptional collection of Italian Renaissance maiolica or tin glazed earthenware These often brilliantly colored objects range from an early Florentine jar with relief blue decoration to a much later Mannerist dish with grotesque ornament The collection was the subject of *Italian Maiolica* a beautifully illustrated catalogue that the Museum published in 1988 *Italian Ceramics* amplifies and updates the earlier volume including objects some of them porcelain and terracotta acquired during the intervening years Among them are a pair of eighteenth century candlesticks representing mythological scenes and a tabletop with hunting scenes and from the 1790s the beautifully modeled and painted Saint Joseph with the Christ Child *Italian Ceramics* contains the most recent scientific historical and iconographic information about the Museum s holdings Completely revised and expanded this book offers a wealth of new information about the Getty Museum s superb collection which spans more than four centuries of Italian ceramic art     **Marks and Monograms on Pottery and Porcelain** William Chaffers,1866     **House & Garden** ,1922     Islam, Christianity and the Making of Czech Identity, 1453-1683 Laura Lisy-Wagner,2016-05-06 Unlike many narratives about the Czech lands which place them on the periphery of their own history this study considers Czechs as central characters looking both east and west to find their place in the early modern world *Islam Christianity and the Making of Czech Identity 1453 1683* works through the descriptive and ethnographic texts produced by Czech speakers about Islam and the Ottoman Empire to show how they used this discourse to create Czech identities Rather than simply constructing identity in opposition to the Islamic Other Laura Lisy Wagner shows how these authors played the Holy Roman and Ottoman Empires off each other creating an autonomous space for themselves in between Lisy Wagner introduces sources that are new to English language historiography and uses them in a way that is new to Czech historiography as well The chapters are organized based on different categories of agents travelers ethnographers religious leaders artists and political revolutionaries whose voices cast ideas of Europe and Czech identity in the early modern period in a new and different light     **The Art of the Poor** ,2020-10-15 The history of art in the late Middle Ages and the Renaissance has generally been written as a story of elites bankers noblemen kings cardinals and popes and their artistic interests and commissions Recent decades have seen attempts to recast the story in terms of material culture but the focus seems to remain on the upper strata of society In his inclusive analysis of art from 1300 to 1600 Rembrandt Duits rectifies this Bringing together thought provoking ideas from art historians historians anthropologists and museum curators *The Art of the Poor* examines the role of art in the lower social classes of Europe and explores how this influences our understanding of medieval and early modern society Introducing new themes and raising innovative research questions

through a series of thematically grouped short case studies this book gives impetus to a new field on the cusp of art history social history urban archaeology and historical anthropology In doing so this important study helps us re assess the very concept of art and its function in society
