make sense of their lives Just lovely Rob Biddulph A soothing and positive tale for those feeling split down the middle after a parental breakup Benji Davies *My Two Iraqi Patches* Minnie Smith, 2021-07-28 My book *My Two Iraqi Patches* is a story about my sons informing me that they had been notified that they were being deployed to Iraq I received the news from both of my sons on the same day and the news was very disturbing to me The shock of learning that both of them were being deployed devastated me so that my hair changed colors on the left side of my head and the right side of my head When I passed by the mirror and saw the impact of the news of learning that they were being deployed I said to myself I did not wake up with both sides of my hair having the gray tracks running down both side of my head I began to write down often how I felt with what had happened to me and I felt I had no one to talk to about what I was experiencing I later learned in moving to West Palm Beach Florida that a doctor explained to me that my hair must have been the weakest part of my body explaining that when people receive devastating news the part of the body that is the weakest is usually the part of the body that handles the news the worst For instance if I had a weak heart I probably would have suffered a heart attack I don t think if I had not written about my experience no one would have believed me When I thought of a title for my work the best name I could come up with was the name I chose for the book *My Two Iraqi Patches* **The Family Album** Veronica B.

King, 2015-12-08 Time spent with your children is precious Just being at home regularly and talking about whatever is suffi cient for the emotional development and comfort of every member of the family Just talk Th is family saga is about an ordinary familys cohesiveness strength ambition and determination that made it possible for within one generation to climb the slippery ramshackle ladder from deprivation to the security of American middle class The story accentuates what has been said by many others that poverty is more a matter of perception and relativity that with understanding ones situation thoroughly one might fi nd a way from victim to mastery through right thinking right actions and reciprocity Th e author is not seeking to assert that everyone can bootstrap a way out of poverty Th ere are places and situations so bereft of opportunities where

poverty is so abject it will be a travesty to even suggest that behaviors on their part could lift them out. With several years of experience as a commissioned police officer and a second career as a Child Protective Investigations Program Administrator, the author, having visited the homes of thousands of families and interviewing many, many more individuals, has come to believe what for some is already known at an intellectual level: that there are no perfect families. Through education and specific training, Mr. King has been able to identify the kind of value system, foreign and local, that contribute to intergenerational abuse and neglect of children. He hypothesizes, based on impressionistic information available to him, that Plantocracy, its highest values being Control, Obedience, Punishment, and Docility, is probably the dominant source of faulty thinking that may lead to abusive behaviors and consequences, physical and psychological, for families, multiple generations removed. But the work is neither pedantic nor judgmental in addressing external detrimental factors that bind one to calamitous outcomes. Alcohol abuse and dependency, extravagance, gender imbalance are all portrayed experientially. Throughout the book, there are repeated examples of the importance of filial duties, retention of virtues, and some travails brought upon oneself when his control is casually surrendered to another. Exploitation is seen for what it is and discussed without rancor. There is much to enjoy as the reader's imagination goes for a ride with folklore, myths, and adventure, expressed as humorously as ever.
