Hapke,2005-01-05 The scale of this book encompasses vast continents and global forces but often its descriptive focus on individual lives has the most impact Stories of people and families make the study of geography compelling Students begin to grasp the complex patterns at work in the world today as they see how people are affected by and respond to economic social and political processes Through these stories of

individual lives the authors hope to convey the impact of globalization a major theme of the text To highlight global to local and interregional connections the text includes a number of topics that have no borders the war on terrorism realignments in the global political order interregional trade the global economy popular culture the environment and the Internet Here again the focus on the individual person provides insight offering local perspectives on these global trends Preface **Know Your World: A Geographer's Guide To The Anthropocene Age** John J. Moran, 2017-01-25 Darwin named Geography as Queen of the sciences His observations of geographical connections had revealed the phenomenon of Life in a remarkably structured Earth world as inter locked dynamic systems This Systems View of Life is reviving at a time when we are facing a crisis of collapse in world systems and the prospect of a breaking world as a result of reckless human activities driven by amoral values We are all geographers embarked on a voyage in search of the optimum location with the promise of support and betterment of our future living conditions But for most of the world s people this is an experience of Life fraught with hardship and deprivation Compelled to take stock of our deteriorating environment as well as to question the values we hold the message is that we have the collective restorative power of geographical knowledge which can be applied to achieve a better world *Islands Magazine* ,1992-09 [National Geographic Kids Almanac 2010](#) National Geographic, 2009 Provides the latest information on a wide range of topics including animals culture geography the environment history and science
