*Creativity* Ry Stan Lai, 2025-11-04 Asia's legendary playwright director Stan Lai has written one of the unique works of our time explaining that the mysterious act of creativity is actually a traceable function of mind and there is a path to learn creativity through unlearning many of our habits picked up in life His special map as well as tailor made exercises lays out an awe inspiring yet practical guide from a lifetime of creative work revered in Asia by artists and business leaders alike Through his extensive experience the greatest living Asian playwright shows us how to cultivate a creative app that works within us Matthieu Ricard says Stan Lai teaches us how to see and how to do Praised by Jack Ma Ang Lee and other luminaries this book is a rewrite by the author of his book that is the most prominent work on creativity in China having sold over 700 000 copies Robert Wilson calls the work foundational support for arts and culture Stan Lai is uniquely qualified to write on creativity because he not only has four decades of creative experience widely acclaimed as the greatest playwright in the Chinese language but is also a dedicated educator Shannon Jackson calls the work A must read from an internationally renowned artist Can creativity be taught Most of the books and training in this area deal with skills for jumpstarting alternative thinking brainstorming and other exercises but do not deal with creativity itself They don't tackle the obvious question What is creativity and how can I get it As one of the world's leading artists Lai explains that the reason we don't think creativity can be taught is that we don't really understand what happens in the mysterious process By slowing down the moment of inspiration Lai lets us see exactly the elements involved in this complex process that lasts only an instant Then he

shows you how to prepare for this moment through his unique Map of Creativity This is a whole path of training in creativity which he explains clearly and humour and compassion and tailor made exercises Travis Preston says Stan Lai guides us to the center of the creative moment and the ultimate unity of the spiritual and physical worlds Creativity is a milestone in understanding and learning the creative act Born in America raised in Taiwan with a career spanning the Chinese diaspora Lai believes that we are all born creative but the source to creativity has been blocked by life How to take down the barriers that are blocking the source from us is a task of unlearning many things that have become habits and put us into a so called non creative mode Taking his cue from his Buddhist training that wisdom and method are both needed for success in any endeavour he explains how wisdom has mysteriously vanished from education systems all over Most teaching in creativity focuses on method which one learns in one's art But we need another type of training more urgently the training for wisdom which can only happen in the domain of life To do you must first be To discover your creativity you must first discover yourself Octavio Sainz says This book is not a manual but a statement of belief an enduring message about how each of us can go beyond our limits

*Surviving General Motors with Multiple Sclerosis* Zohar McMillan, 2007-04 For years I was a proud employee of General Motors I loved my work as a Journeyman Electrician Unfortunately my work was transformed into a horror story when I was assigned to Pontiac Assembly Center There I was routinely bullied harassed and threatened by co workers and supervisors When I asked GM management for help they responded by aligning themselves with my persecutors I was threatened with physical violence stalked denied safety rights forced to do work others were unwilling to do and refused medical treatment I was removed from a coveted job by a Superintendent who cited my MS condition blatantly ignoring rights afforded under ADA I was called Black Nigger Bitch There were pictures posted about the plant where I was depicted as ROADKILL KKK style nooses were hung in the plant A General Foreman pressed his face close to mine and said I can't promise you you're going to live the next few minutes I next turned to the justice system for help When my case went before a Circuit Court

Judge he swiftly and willfully granted summary disposition judgments in GM s favor Undaunted I began my own investigation In doing so I discovered that 108 pages of my deposition had disappeared I uncovered a letter from a GM executive threatening a union official who planned on helping me My lawyer lied to me about having filed an appeal Where is the justice when a court of law condones this as acceptable behavior in a civilized society How can America hold itself out as a free and just society that other countries would choose to emulate Should corporate entities such as GM be allowed to not only bend the law but to break the law How and why could such travesty have been allowed to occur
