Edited by Lawrence Boadt, CSP and Kevin Di Camillo, 2005 *Function and Meaning in Buddhist Art*, 2023-08-07 What was the function of Buddhist art at the time Buddhism was a major religion in large areas of South East and South East Asia Can we establish what these sculptures and paintings meant to Buddhist believers living at a time when this art fulfilled important religious needs These questions are discussed not answered in a volume about *Function and Meaning of Buddhist Art* which contains the papers of a workshop on this theme held at Leiden University in 1991 While dealing with a variety of themes and subject matter sometimes in great detail sixteen specialists focus on ritual and semantic aspects of Buddhist works of art from countries such as India China Japan Tibet Thailand and Indonesia Recent non western art historical publications show an increasing tendency to work with methodological frameworks developed by specialists on western art

Moreover there are more similarities between Buddhist and other religious art than literally meet the eye For this reason two comparative studies are included in which parallels and universals are brought forward Two main lines emerge in the results offered in this book the one indicating a tendency to focus on intended meanings the other concentrating on more than one level of reception of Buddhist art in a liturgical context

Music and Faith Jonathan Arnold,2019 How do contemporary audiences engage with sacred music and what are its effects This book explores examples of how the Christian story is still expressed in music and how it is received by those who experience that art form whether in church or not Through conversations with a variety of writers artists scientists historians atheists church laity and clergy the term post secular emerges as an accurate description of the relationship between faith religion spirituality agnosticism and atheism in the west today In this context faith does not just mean belief as the book demonstrates the temporal linear relational and communal process of experiencing faith is closely related to music Music and Faith is centred on those who by and large are not professional musicians philosophers or theologians but who find that music and faith are bound up with each other and with their own lives Very often as the conversations reveal the results of this binding are transformative whether it be in outpourings of artistic expression of another kind or greater involvement with issues of social justice or

becoming ordained to serve within the Church Even those who do not have a Christian faith find that sacred music has a transformative effect on the mind and the body and even to use a word deliberately employed by Richard Dawkins the soul

JONATHAN ARNOLD is Dean of Divinity and Fellow of Magdalen College Oxford Before being ordained he was a professional singer and made numerous recordings with The Sixteen Polyphony the Gabrielli Consort and The Tallis Scholars among others He has previously published Sacred Music in Secular Society 2014 The Great Humanists An Introduction 2011 and John Colet of St Paul's Humanism and Reform in Pre Reformation England 2007 *Making it Through a Storm* Rev. Dr. Terry Thomas, 2010-05-18 All people at some point in their lives will come upon difficult and trying circumstances that are traditionally characterized as a storm As much as we try with great valiant effort to avoid certain things no one can avoid the inevitable storm or storms that will occur in their life Storms are just part of the human condition and we are either coming out of a storm in a storm or heading for a storm Since we know that storms are one of life's certainties we should prepare to deal with them by equipping ourselves with the necessary knowledge and skills This is an imperative statement because if you are not prepared to deal with a storm then your life can easily be ripped apart by it In a very short period of time a storm can quietly and quickly remove things in your life that have taken you a lifetime to acquire You can be a very secure person but if you are not prepared a storm can uproot values that once nurtured and upheld your life like a stalwart tree uprooted from the ground Therefore if you want to know the things to do to make it through a storm *Making It through a Storm* is a book that you will want to read This book takes a look at what a group of people in 27th chapter of Acts did who made it successfully through a severe storm to learn the fundamental principles that one needs to embrace to make it through a storm *Making It through a Storm* will share with you some very insightful surprising inspirational and delightful things that will help you make it through a storm in manner that will strengthen and enhance your life Personal storms are common but pertinent aids to help us in understanding and surmounting them are rare indeed This book is one such rare aid and its pages are filled with wisdom shared from a warm heart Dr James Earl Massey Dean Emeritus and Distinguish Professor at Large Anderson University School of Theology **Devising Performance** Jane Milling, Deirdre Heddon, 2015-10-11 What is the history of devised theatre Why have theatre makers since the 1950s chosen to devise performances What different sorts of devising practices are there What are the myths attached to devising and what are the realities First published in 2005 *Devising Performance* remains the only book to offer the reader a history of devising practice Charting the development of collaboratively created performances from the 1950s to the early 21st century it presents a range of case studies drawn from Britain America and Australia Companies discussed include The Living Theatre Open Theatre Australian Performing Group People Show Teatro Campesino Theatre de Complicité Legs on the Wall Forced Entertainment Goat Island and Graeae Providing a history of devising practice Deirdre Heddon and Jane Milling encourage us to look more carefully at the different modes of devising and to consider the implications of our use of these practices in the 21st century Growth by Accident.

Death by Planning Bob Whitesel, 2010-10-01 It is a familiar experience A congregation that had been growing in numbers and spiritual vitality reaches a plateau and then begins to decline Most of the time the plateau occurs long before the church arrives at the optimum number of members it hoped to attract What has happened here Why does growth slow down stop and then decline The real question to ask says Bob Whitesel is why the church grew in the first place Most of the time young growing churches make a series of decisions based not upon careful planning and analysis but rather upon necessity and intuition Thus these decisions are not planned strategies but strategies that often occur by accident owing their genesis to circumstance These unplanned strategic decisions are driven not by knowledge but often simply by the church's environment When that growth slows these same churches begin to engage in more careful planning The problem is that this planning so often ignores the considerations and decisions that led to the church's growth to begin with The result is stagnation and eventual decline In the plain direct style that is his hallmark Whitesel lays out where churches go wrong in their planning for growth and how they can correct themselves He does so by looking at three related phenomena first the factors that cause initial growth second the erroneous decisions that lead to getting stuck on the plateau and finally corrective steps that churches can take to regain growth and vitality

Passions for Nature Rochelle Johnson, 2009 Nineteenth century Americans celebrated nature through many artistic forms including natural history writing landscape painting landscape design theory and transcendental philosophy Although we tend to associate these movements with the nation's dawning environmental consciousness *Passions for Nature* demonstrates that they instead alienated Americans from the physical environment even as they seemed to draw people to it Rather than see these expressions of passion for nature as initiating environmental awareness this study reveals how they contributed to a culture that remains startlingly ignorant of the details of the material world Using as a touchstone the writings of nineteenth century philanthropist Susan Fenimore Cooper the daughter of famed author James Fenimore Cooper *Passions for Nature* reveals that while a generalized passion for nature was intense and widespread in her era cultural attention to the real physical world was quite limited Popular artistic forms represented the natural world through specific metaphors for the American experience cultivating a national tradition of valuing nature in terms of humanity Johnson crosses disciplinary boundaries to demonstrate that anthropocentric understandings of the natural world result not only from the growing gulf between science and imagination that C P Snow located in the early twentieth century but also and surprisingly from cultural productions traditionally viewed as positive engagements with the environment By uncovering the roots of a cultural alienation from nature *Passions for Nature* explains how the United States came to be a nation that simultaneously reveres the natural world and yet remains dangerously distant from it
