Mystery in its Passions: Literary Explorations Anna-Teresa Tymieniecka, 2012-12-06 Through mystery literature reveals to us the Great Unknown While we are absorbed by the matters at hand with the present enactment of our life groping for clues to handle them it is through literature that we discover the hidden strings underlying their networks Hence our fascination with literature But there is more The creative act of the human being its proper focus holds the key to the Sezam of life to the great metaphysical ontopoietic questions which literature may disclose First it leads us to the subliminal grounds of transformation in the human soul source of the specifically human significance of life *Analecta Husserliana* Volume III XIX XXIII XXVII Second it leads us to the unveiling of the hidden workings of life in the twilight of knowing in a dialectic between The Visible and the Invisible Volume LXXV 2002 *Analecta Husserliana* down to the ontopoietic truth Volume LXXVI 2002 *Analecta Husserliana* This prying into the unknown which provokes the human being as he or she attempts to conquer step by step a space of existence finds its culmination in the phenomenon of mystery as the subject of the present collection Its formulation brings us to the greatest question of all the enigmatic solidarity in distinctiveness of human cognition and existence Papers are written by Tony E Afejuku Gary Backhaus Paul G Beidler Matthew J Duffy Raffaella Giovagnoli Jennifer Anna Gosetti Ferencei Matti Itkonen Lawrence Kimmel Catherine Malloy Vladimir L Marchenkov Nancy Mardas Howard Pearce Bernadette Prochaska Victor Gerald Rivas M J Sahlan Dennis Skocz Jadwiga S Smith Mara Stafecka Max Statkiewicz Mariola Sulkowska Anna Teresa Tymieniecka Leon U Weinman Tim Weiss *Mystery in Its Passions* Anna-Teresa Tymieniecka, 2004 *Logos of Phenomenology and Phenomenology of the Logos. Book One* Anna-Teresa Tymieniecka, 2006-06-30 During its century long unfolding spreading in numerous directions Husserlian phenomenology while loosening inner articulations has nevertheless maintained a somewhat consistent profile As we see in this collection the numerous conceptions and theories advanced in the various phases of reinterpretations have remained identifiable with phenomenology What conveys this consistency in virtue of which innumerable types of inquiry scientific social artistic literary may consider themselves phenomenological Is it not the quintessence of the phenomenological quest namely our seeking to reach the very foundations of reality at all its constitutive levels by pursuing its logos Inquiring into the logos of the phenomenological quest we discover indeed all the main constitutive spheres of reality and of the human subject involved in it and concurrently the logos itself comes to light in the radiation of its force Tymieniecka **Human Creation Between Reality and Illusion** Anna-Teresa Tymieniecka, 2006-06-30 Identifying quickly illusion with deception we tend to oppose it to the reality of life However investigating in this collection of essays illusion's functions in the Arts which thrives upon illusion and yet maintains its existential roots and meaningfulness in the real we might wonder about the nature of reality itself Does not illusion open the seeming confines of factual reality into horizons of imagination which transform it Does it not like art belong essentially to the makeup of human reality Papers by Lanfranco Aceti John Baldacchino Maria Avelina Cecilia

Harbors, Flows, and Migrations Anna De Biasio, Gianna Fusco, 2017-05-11 Poised between the land and the sea enabling the dynamic flow of people and goods while also figuratively representing a safe place of rest and refuge the harbor constitutes a liminal ambivalent space par excellence that has been central to the American imagination and history since the early colonial days From the mythical tales of discovery and foundation to the endless flows of migrants through the dark pages of the slave trade and the imperialistic dream of an ever expanding nation harbors both as a trope and as physical spaces powerfully signify the American experience Today at a time when ideas of border protection and policing gain political prominence in the U S and elsewhere harbors and the constellation of meanings they subsume have become an even more crucial object of critical inquiry In this volume thirty two American Studies scholars from around the world interrogate the manifold significance of ports and of the exchanges they enable or restrain casting a decentered look onto the complex positioning of the United States in its political ideological and cultural relationships with the rest of the world This collection thus offers a cutting edge interdisciplinary investigation of the U S A engaging the most recent trends in American Studies and actively participating in the international and transnational reconfiguration of the field

The Enigma of Good and Evil: The Moral Sentiment in Literature Anna-Teresa Tymieniecka, 2006-08-27 Striking toward peace and harmony the human being is ceaselessly torn apart in personal social national life by wars feuds inequities and intimate personal conflicts for which there seems to be no respite Does the human condition in interaction with others imply a constant adversity Or is this conflict owing to an interior or external factor of evil governing our attitudes and conduct toward the other person To what criteria should I refer for appreciation judgment direction concerning my attitudes and my actions as they bear on the well being of others At the roots of these questions lies human experience which ought to be appropriately clarified before entering into speculative abstractions of the ethical theories and precepts Literature which in its very gist dwells upon disentangling in multiple perspective the peripeteia of our life experience offers us a unique field of source material for moral and ethical investigations Literature brings preeminently to light the Moral Sentiment which pervades our life with others our existence
