Asteroid Answers to Ancient Calendar Mysteries Herbert B. Stollorz, 2008-07-03 Ancient calendars found around the world are designed to end one point in time They communicate an urgent warning to everyone alive today Complex bronze and gold clocks with multiple dials are found in museums around the world Why they have such advanced intricacy has stumped scientists for hundreds of years This book reveals why the ancients built so many pyramids observatories as well as those complex gold and bronze clocks with more than one dial It surprised me greatly to discover that their various complex designs in one way or another converge on 21 December 2012 It amazes me that ancient cultures separated by thousands of miles of geography and thousands of years in chronology agree so precisely in the cyclical nature of time history and prophecy which is history written in advance The most famous example is the Mayan Aztec calendar which ends its 25 626 year cycle on that momentous date Some researchers have also found 21 December 2012 in what is called the Bible Code Using very different research methods I discovered it in the Bible's book of Revelation and Daniel's prophecies It is one of the most important dates in the plan of God for all humanity *Ancient Mysteries Tarot Book* Roger Calverley, 2004 This book situates Tarot in its ancient roots with particular emphasis on the tradition of the Mystery Schools The suites are designated as Earth Water Air and Fire rather than the conventional Pentacles Cups Swords and Wands The first part of the book is a review of the ancient sources of Tarot and the dynamics of the archetypes with interesting sidelights on the author's personal experiences in this realm The reader is instructed by The Magician The Priestess and The Hermit about the meanings and wisdom of Tarot which he discovers to be a Book of Truth *Mysteries of the Ancient Past* Glenn Kreisberg, 2012-10-03 Cutting edge thinkers on the origins of civilization the Giza pyramids pre Columbian and early America and the power of human consciousness With contributions by David Frawley Geoff Stray Joscelyn Godwin Daniel Pinchbeck Antoine Giral and others Topics range from the origins of the Inca to the architecture of the Giza plateau to unified theories of physics and consciousness Companion volume to *Lost Knowledge of the Ancients* As we pull back the curtain from the European version of history we discover the vast depth of knowledge of our ancient ancestors knowledge that not only dispels our image of them as primitive peoples but also corresponds with the forefront of modern science philosophy and spirituality With contributions by David Frawley Geoff Stray Joscelyn Godwin Daniel Pinchbeck Antoine Giral and other provocative cutting edge thinkers this collection of essays commissioned by Graham Hancock bestselling author of *Fingerprints of the Gods*
