## **Mystery Religions:**

**Ancient Mystery Cults** Walter Burkert, 1989-10-15 The foremost historian of Greek religion provides the first comprehensive comparative study of a little known aspect of ancient religious beliefs and practices Mystery Cults in the Ancient World Hugh Bowden, 2023-09-07 Mystery cults are one of the most intriguing areas of Greek and Roman religion In the nocturnal mysteries at Eleusis participants dramatically re enacted the story of Demeter s loss and recovery of her daughter Persephone in Bacchic cult bands of women ran wild in the Greek countryside to honour Dionysus in the mysteries of Mithras men came to understand the nature of the universe and their place within it through frightening initiation ceremonies and astrological teachings These cults were an important part of life in the ancient Mediterranean world but their actual practices were shrouded in secrecy and much of what they were about has remained unclear until now This is the first book to describe and explain all the major mystery cults of the ancient world cult by cult reconstructing the rituals and exploring their origins It makes plentiful use of artistic and archaeological evidence as well as ancient literature and epigraphy Greek painted pottery Roman frescoes inscribed gold tablets from Greek and South Italian tombs and the excavated sites of ancient religious sanctuaries all contribute to our understanding of ancient mystery cults Making use of the most recent work on these cults the book is also informed by crucial current work on the anthropology and cognitive science of religion Not only is this clearly written book a significant contribution to the study of these cults but it is also accessible to a general readership More than any other book on ancient religion it allows the reader to understand what it was like to participate in these life transforming religious events **The Mystery-religions and Christianity** Samuel Angus, 1925 *The Mystery-Religions* S. Angus, 2012-04-30 Classic study explores the Eleusinian mysteries of ancient Greece Asiatic cults of Cybele the Magna Mater and Attis Dionysian groups Orphics Egyptian devotees of Isis and Osiris Mithraism and others Hellenistic Mystery-Religions Richard Reitzenstein, 1978-01-01 Pittsburgh Theological Monograph Series General Editor Dikran Y Hadidian St. Paul and the Mystery Religions John Franklin Troupe, 1917 Greek Philosophy and Mystery Cults María José García Blanco, María José Martín-Velasco, 2016-02-29 The contributions to this book offer a broad vision of the relationships that were established between Greek Philosophy and the Mystery Cults The authors centre their attention on such thinkers as Plato Aristotle and the Stoic and the Neoplatonist philosophers who used and in some cases criticised doctrinal elements from Mystery Cults adapting them to their own thinking Thus the volume provides a new approach to some of the most renowned Greek philosophers highlighting the influence that Mystery Cults such as Orphism Dionysianism or the Eleusinian rites had on the formation of fundamental aspects of their thinking Given its interdisciplinary character this book will appeal to a broad academic readership interested in the origin of Hellenic thinking and culture It will be especially useful for those eager for a deeper approach to two fundamental domains that attract the attention of many Antiquity scholars Greek philosophy and religion *Yoga Consciousness in Ancient Mystery Religions*

Tony Butcher, 2006 *Yoga Consciousness in Ancient Mystery Religions* provides a fascinating new perspective on some traditional fairy tales that we all thought we knew. We are taught from an early age that these stories can give us useful guidance for life even if they seem obscure. Tony Butcher shows us how to unravel the meanings drawing on the ancient teachings of the mystery schools and in particular the teaching of Maharishi Mahesh Yogi. The first section of the book takes us through the philosophy behind it all originating in the writings of Thoth also known as Hermes upon which ancient Egyptian teaching was based. Transcendence various states of consciousness and the Yoga Sutras all pave the way towards enlightenment and freedom from the bonds of the material earthly world. **Mercer Dictionary of the Bible** Watson E. Mills, Roger Aubrey Bullard, 1990 *Jesus Christ in History and Scripture* highlights two related bases for the current revolution in Jesus studies 1 a critically chastened world view that is satisfied with provisional results and 2 a creative or poetic use of the sources of study of Jesus. *The Greco-Roman World of the New Testament Era* James S. Jeffers, 2009-08-20 James S. Jeffers provides an informative tour of the various facets of the Roman world class and status family and community work and leisure religion and organization city and country law and government death and taxes and the events of Roman history. *The Encyclopedia of Christianity* Erwin Fahlbusch, Geoffrey William Bromiley, 1999 The Encyclopedia of Christianity is the first of a five volume English translation of the third revised edition of Evangelisches Kirchenlexikon. Its German articles have been tailored to suit an English readership and articles of special interest to English readers have been added. The encyclopedia describes Christianity through its 2000 year history within a global context taking into account other religions and philosophies. A special feature is the statistical information dispersed throughout the articles on the continents and over 170 countries. Social and cultural coverage is given to such issues as racism genocide and armaments while historical content shows the development of biblical and apostolic traditions. This comprehensive work while scholarly is intended for a wide audience and will set the standard for reference works on Christianity. Outstanding reference sources 2000 American Libraries May 2000 Comp by the Reference Sources Committee RUSA ALA. **St. Paul and the Mystery-Religions** H. A. Kennedy, 2017-03-10 Ours is an age of new things. In no province is this more apparent than in that of New Testament interpretation. And no section of the New Testament continues to stimulate more revolutionary theories than the Pauline Epistles. It is true that discussions of authenticity have lost the importance assigned to them by scholars of the earlier time like Baur or by later critical investigators like Van Manen. The emphasis has been shifted. The primary question at issue is the essential nature of St Paul's view of the Christian faith. From Chapter One. *The Ancient Mysteries* Marvin W. Meyer, 1999-05-07 Zeus and the other gods of shining Olympus were in reality divine only by popular consent. Over the course of time Olympian luster diminished in favor of religious experiences more immediate to the concerns of people living in an increasingly cosmopolitan ancient world. These experiences were provided by the mysteries religions that flourished particularly during the Hellenistic period and were secretly practiced by groups of adherents who decided through personal

choice to be initiated into the profound realities of one deity or another Unlike the official state religions in which people were expected to make an outward show of allegiance to the local gods the mysteries emphasized an inwardness and privacy of worship within a closed band of initiates In this book Marvin W Meyer explores the sacrifices and prayers the public celebrations and secret ceremonies the theatrical performances and literary works the gods and goddesses that were a part of the mystery religions of Greece in the seventh century B C to the Judaism and Christianity of the Roman world of the seventh century A D

**Global Dictionary of Theology** William A. Dyrness, Veli-Matti Kärkkäinen, 2009-10-25 Theological dictionaries are foundational to any theological library But until now there has been no Global Dictionary of Theology a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The Global Dictionary of Theology is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the Global Dictionary of Theology is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus a distinctive feature of the Global Dictionary of Theology is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli Matti Kärkkäinen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and reveals new panoramas of theological perspective and inquiry Here is a new launching point for doing theology in today's global context
