Patricia Meyer Spacks, 2022-09-12 Is there such a thing as a female literary imagination a special brand of insight and intuition that characterises women's writing? Is there something about a novel whether by Jane Austen Charlotte Brontë or Doris Lessing that tells us that it could only have been written by a woman? Do the subject matter form and style that women choose throw light on the way they think and feel? In this brilliant and highly readable book originally published in 1976 Patricia Spacks analyses the female view of the world. Juxtaposing sometimes in startlingly original combination some eighty books written between the seventeenth century and the present day she uses both literary and psychological analysis to explore patterns that recur again and again in the stories women tell whether about their own lives or the lives of their fictional characters. She dissects female experience in the twentieth century as viewed by an array of writers ranging from Kate Millet to Virginia Woolf examines the interplay of social passivity and psychic power that dominates characters such as Maggie Tulliver and Jane Eyre the altruism that impels Jane Austen's and Mrs Gaskell's heroines the acceptance of Virginia Woolf's Mrs Ramsey the personal and social conflicts that beset so many of the adolescent girls that figure in both nineteenth century and contemporary literature reveals the complex motives that can be bound up in a woman's deliberate choice of the artist's role as appears in the writings of Isadora Duncan's and Dora Carrington Marie Bashkirtseff and Mary McCartney and the surprising forms freedom can take as for Beatrice Webb in the East End of London or Isak Dinesen in the wilds of Africa. The voices echo and re echo across the years in fascinating counter point. Their range is enormous rebels and reformers actresses and painters Society ladies and unknown girls in small towns novels poems memoirs diaries and letters both English and American and alongside classics such as *Wuthering Heights* and well known modern works such as *The Bell Jar*

Patricia Spacks introduces an intriguing selection of relatively unknown writers such as Napoleon's psychoanalyst great niece Marie Bonaparte the Victorian arch fantasist Mary MacLane and the autobiography of a seventeenth century Duchess The Female Imagination is much more than a study of women's writing It is an inquiry into the nature of female thought self expression and experience As such it should appeal to every educated woman and to many men too New Age Journal ,1998

*Seven Transforming Gifts of Menopause* Cheryl Bridges Johns,2020-03-17 Menopause is a dramatic but largely overlooked developmental window to the second half of life Although today's women are more aware of and actively involved in mapping their menopausal journey than generations before many still do not see menopause as a time of important psychological and spiritual transformation This book goes far beyond hot flashes and gets to the very heart of the midlife journey helping women find their unique voice and speak their truth in an era of MeToo and ChurchToo Coming alongside readers as a wise spiritual guide pastor and theologian Cheryl Bridges Johns identifies seven key developmental tasks of menopause and gives practical ways women can embrace each one She encourages women to view these tasks as gifts as they experience the remarkable physical emotional and spiritual transformation that occurs in this stage of life Written in a warm and conversational tone this book helps women chart a course for the future leading them to a renewed sense of identity a more focused vision for life and a deeper spirituality Each chapter includes guided questions for personal reflection and study questions for group discussion

**Transforming Psyche** Barbara Weir Huber,1999-08-05 In Transforming Psyche Huber shows that the myth of Psyche and Eros can be interpreted to illuminate the experiences of twentieth century women In contrast to the portrayal of Psyche as indecisive and amorphous Huber emphasizes those aspects of the tale that describe Psyche's connectedness to her sisters her own sexuality her earth bound experience and ultimately to the birthing of her child Using the works of such writers as Emily Carr Margaret Laurence Gertrude Stein and Virginia Woolf Huber demonstrates that feminist theory and women's autobiography mirror the insights uncovered in her retelling of the Psyche story
