Paul and Asklepios Christopher D. Stanley, 2022-08-25 What role did offers of

physical healing or the hope of receiving it play in the missionary program of the apostle Paul What did he do to treat the many illnesses and injuries that he endured while pursuing his mission What did he advise his followers to do regarding their health problems Such questions have been broadly neglected in studies of Paul and his churches but Christopher D Stanley shows how vital they truly become once we recognize how thoroughly pagan religion was implicated in all aspects of Greco Roman health care What did Paul approve and what did he reject Given Paul's silence on these subjects Stanley relies on a cross cultural and interdisciplinary approach to develop informed judgments about what Paul might have thought said and done with regard to his own and his followers health care He begins by exploring the nature and extent of sickness in the Roman world and the four overlapping health care systems that were available to Paul and his followers home remedies magical treatments religious healing and medical care He then examines how Judeans and Christians in the centuries before and after Paul viewed and engaged with these systems Finally he speculates on what kinds of treatments Paul might have approved or rejected and whether he might have used promises of healing to attract people to his movement The result is a thorough and nuanced analysis of a vital dimension of Greco Roman social life and Paul's place within it *Magic, Medicine & Quackery* Eric Maple, 1968

African Traditional Medicine DAVID OYEBOLA MD, 2020-02-10 This book is written to provide information on various aspects of Yoruba and indeed African traditional medicine The writer's research on Yoruba traditional medicine provides the bulk of the materials in the book The book consists of eleven chapters Chapters 1 and 2 provide the background to the book Chapters 3 to 10 encapsulate the different aspects of Yoruba traditional medicine such as classification of healers methods of training of healers methods of diagnosis and investigation of diseases treatment of diseases Yoruba pharmacopoeia midwifery bone setting and other forms of traditional surgery Chapter 11 describes the meeting point of hospitals and healers this meeting point in the opinion of the author should be how best to serve the interests of the patients The best form of relationship that should exist between hospitals and healers is also discussed The two systems of medicine exist side by side in Nigeria and most African countries yet remain functionally unrelated in any intentional sense It is argued that no medical system is perfect and no single care system has all the answers to all human health and related problems Each of the two systems has its strong and weak points The often talked about integration of the two systems has potential pitfalls and may be undesirable The book concludes that the best form of relationship may well be one of genuine cooperation and mutual respect between the two systems since this will lead in the ultimate to advancement of medical knowledge and overall improvement of patient care All levels of government in Nigeria have decisive roles to play in achieving this mutually beneficial cooperation of the two systems

Medicine and Magic in Elizabethan London Lauren Kassell, 2007-02 Simon Forman 1552-1611 is one of London's most infamous astrologers. He stood apart from the medical elite because he was not formally educated and because he represented and boldly asserted medical ideas that were antithetical to those held by most learned physicians. He survived the plague, was consulted thousands of times a year for medical and other questions, distilled strong waters made from beer, herbs, and sometimes chemical ingredients, pursued the philosopher's stone in experiments and ancient texts, and when he was fortunate spoke with angels. He wrote compulsively, documenting his life and protesting his expertise in thousands of pages of notes and treatises. This highly readable book provides the first full account of Forman's papers, makes sense of his notorious reputation, and vividly recovers the world of medicine and magic in Elizabethan London.

Magic Or Medicine? Robert Buckman, 1995-05 a fascinating, informative, complete and objective picture including descriptions, history, comparisons, and case studies about traditional and complementary medicine. Highly recommended for health professionals, faculty, and students at all levels. Choice. Modern medicine is one of the most successful branches of science with a distinguished history of conquering many of the twentieth century's deadliest diseases. Yet today people are turning in record numbers to alternative therapies that have little or no scientific basis. What accounts for this flight from reason in the face of hard evidence that medical doctors do a better job of treating disease and alleviating suffering than their alternative counterparts? In *Magic or Medicine*, Dr. Robert Buckman and Karl Sabbagh offer a response to this question by critically evaluating both alternative and conventional medical approaches to patient care. The authors argue that healing has always been partly the science of clinical treatment, medicine, and partly an art, magic. Medicine may make the patient get well, but often it is magic that makes the patient feel well. With all the pressures under which they work, modern medical doctors often neglect the magic in their dealings with patients. Alternative therapists, however, frequently offer nothing but magic. Buckman and Sabbagh look closely at the claims made for both medical science and alternative treatments and discover a gap between the promises and the reality of each approach. *Magic or Medicine* is vital reading for anyone concerned about the effective delivery of healthcare. Robert Buckman, Ph.D., FRCP, is a cancer specialist and assistant professor at the Toronto Bayview Regional Cancer Centre at Sunnybrook Hospital, University of Toronto. He is also the current president of the Humanist Association of Canada. Among his previous books are *How to Break Bad News* and *I Don't Know What to Say: How to Help and Support Someone Who Is Dying*. Karl Sabbagh, M.A., is a television producer whose credits include *The Body in Question* with Dr. Jonathan Miller. He is also the author of numerous books on scientific and medical topics, including *The Living Body: A Guide to How the Body Works*.

The Lord for the Body James William Opp, 2005 In the early 1920s English Canadians were captivated by the urban campaigns of faith healing evangelists. Crowds squeezed into local arenas to witness the afflicted slain in the spirit casting.

away braces and crutches Professional faith healers although denounced by critics as promoting mass hypnotism gained notoriety and followers in their call for people to choose the Lord for the Body In his innovative work James Opp explores the cultural practice of Protestant faith healing in Canada from its Victorian roots as an informal network of women sharing testimonies to its culmination in the organized professional campaigns of the twentieth century Framing the phenomenon of divine healing as a history of the body Opp provides a unique window onto the intersection of religion and medicine From newspaper accounts to criminal proceedings The Lord for the Body traces the reactions of ministers doctors and state authorities who denounced faith healing as dangerous to spiritual and physical health Undaunted by such attacks the faithful continued to seek healing through prayer a practice that operated as a powerful devotional observance and a point of resistance to modern medicine
