Mysticism And Religious Traditions:

Mysticism and Religious Traditions Steven T. Katz, 1983 Comparative Mysticism Steven T. Katz, 2013 This collection of primary texts introduces readers to the mystical literature of the world's great religious traditions. Beginning with an introduction by Steven T. Katz, a leading scholar of mysticism, the anthology comprises poetry, prayer, narrative, and other writings from Jewish, Christian, Muslim, Hindu, Buddhist, Taoist, Confucianist, and Native American traditions. This collection provides readers not only with the primary mystical texts from each religious tradition but with an explanation of the context of the source and tradition. *Comparative Mysticism* shows how the great mystical traditions of the world are deeply rooted in the religious traditions from which they originated. The contextual methodological approach taken throughout the anthology also addresses the critical question of what these mystical traditions at their highest level have in common. Despite the prevailing view that mystical traditions throughout the world are essentially similar, the presentation of the sources in this volume suggests that in fact the various traditions have distinct teachings and different metaphysical goals. The writings collected in *Comparative Mysticism* address the most fundamental and important methodological, epistemological, and hermeneutical questions regarding the study and interpretation of mysticism and mystical sources across cultures. This anthology will be an invaluable resource to students and scholars of mystic tradition for years to come.

Mysticism and Language Steven T. Katz, 1992 Taken collectively, the original essays in this new collection make up the most important exploration of mysticism and language to appear in many years. Written from diverse perspectives on a wide variety of religious and mystical traditions ranging from Judaism and Christianity to Zen Buddhism and Hinduism, all the essays exhibit great erudition, a mastery of the original mystical sources, and philosophical and hermeneutical sophistication. Further, all recognize the inadequacy of treating the questions surrounding this subject as contextually outside of their historic intellectual and sociological circumstances. As such, these studies deepen the on-going revisionist contextualist study of mysticism so powerfully and influentially inaugurated by two previous collections also edited by Steven Katz: *Mysticism and Philosophical Analysis* and *Mysticism and Religious Traditions*. Like its predecessors, the present collection includes work by some of the world's leading authorities on mysticism, including Moshe Idel, William Alston, Bernard McGinn, Ewert Cousins, Bimal Matilal, Carl Ernst, and Steven Katz. It is sure to become essential reading for everyone interested in mysticism as well as those who study religion, comparative religion, philosophy, and history.

Mysticism, Mind, Consciousness Robert K. C. Forman, 1999-01-01 Challenges the prevailing view that mystical experience is shaped by language and culture and argues that mystical experience is a direct encounter with consciousness itself.

Teaching Mysticism William B. Parsons, 2011-12-16 The term mysticism has never been consistently defined or employed either in religious traditions or in academic discourse. The essays in this volume offer ways of defining what mysticism is as well as methods for grappling with its complexity in a classroom. This volume addresses the diverse literature surrounding mysticism in four interrelated parts.

The first part includes essays on the tradition and context of mysticism devoted to drawing out and examining the mystical element in many religious traditions The second part engages traditions and religious cultural strands in which mysticism is linked to other terms such as shamanism esotericism and Gnosticism The volume's third part focuses on methodological strategies for defining mysticism with respect to varying social spaces The final essays show how contemporary social issues and movements have impacted the meaning study and pedagogy of mysticism Teaching Mysticism presents pedagogical reflections on how best to communicate mysticism from a variety of institutional spaces It surveys the broad range of meanings of mysticism its utilization in the traditions the theories and methods that have been used to understand it and provides critical insight into the resulting controversies

Mysticism Jess Byron Hollenback,1996 This sweeping study of mysticism by Jess Hollenback considers the writings and experiences of a broad range of traditional religious mystics including Teresa of Avila Black Elk and Gopi Krishna It also makes use of a new category of sources that more traditional scholars have almost entirely ignored namely the autobiographies and writings of contemporary clairvoyants mediums and out of body travelers This study contributes to the current debate about the contextuality of mysticism by presenting evidence that not only are the mystic s interpretations of and responses to experiences culturally and historically conditioned but historical context and cultural environment decisively shape both the perceptual and affective content of the mystic s experience as well Hollenback also explores the linkage between the mystic s practice of recollection and the onset of other unusual or supernormal manifestations such as photisms the ability to see auras telepathic sensitivity clairvoyance and out of body experiences He demonstrates that these extraordinary phenomena can actually deepen our understanding of mysticism in unexpected ways A unique feature of this book is its in depth analysis of empowerment an important phenomenon ignored by most scholars of mysticism Empowerment is a peculiar enhancement of the imagination thoughts and desires that frequently accompanies mystical states of consciousness Hollenback shows its cross cultural persistence its role in constructing the perceptual and existential environments within which the mystic dwells and its linkage to the fundamental contextuality of mystical experience

The Medieval Mystical Tradition in England Marion Glasscoe,1987 These papers are the proceedings of the fourth international Exeter Symposium They promote enquiry into and understanding of the medieval mystics and the cultural context to which they belong Here historians literary critics theologians philosophers and bibliographical scholars explore ways in which the contemplative tradition was mediated and perceived in the very early and very late medieval period and ask fundamental questions about the nature of contemporary understanding of this subject
