Introduction to Theology Chris Bouter, MA, BAH,2019-05-31 In this book an attempt is made to defend monotheism particularly the Christian form of it over against the other isms such as deism atheism pantheism and polytheism In doing so the author explains that the truth is a paradox of different aspects which we tend to feel as a tension from which we want to break free And this sets the stage for all kinds of untruth They form even double and triple breaks away from the truth as the golden mean the biblical happy medium without a compromise let it be noted on the right or on the left Secondly several sections are devoted to the role of revelation It is argued that revelation and creation go hand in hand And in this also theology plays a role

**Naked Faith** Elaine A Heath,2010-08-27 Phoebe Palmer s honour was lost posthumously for within a few decades after her death her name all but disappeared Palmer s sanctification theology was separated from its apophatic spiritual moorings even as her memory was lost To this day the Mother of the Holiness Movement still awaits her place of recognition as a Christian mystic equal to Catherine of Siena Teresa of Avila or Therese of Lisieux This book locates Palmer s life and thought within the great Christian mystical traditions identifying her importance within Methodism and the church universal It also presents a Wesleyan theological framework for understanding and valuing Christian mysticism while connecting it with the larger mystical traditions in Catholic Anglican and Orthodox communions While Palmer was a powerful revivalist in her own day in many ways she could be the patron saint for contemporary Methodists who are drawn to the new monasticism and who long for the renewal of the church Saint Phoebe is precisely the one who can help Methodists envision new forms of Christian community mission and witness in a postmodern world

Experimentation in American Religion Robert Wuthnow,2023-11-15 Experimentation in American Religion The New Mysticism and Their Implications for the Churches explores the emergence of new religious movements in America particularly those outside the traditional Judeo Christian framework Wuthnow examines these movements in the context of the societal shifts during the 20th century focusing on why they gained popularity especially among groups that traditional religions had struggled to engage such as college students young people and the educated These new religions often draw from Eastern spiritual practices the occult and humanistic ideals challenging the dominance of conventional Western religious traditions The book uses a sociological approach relying on random sample surveys to analyze patterns in religious commitment focusing on social factors such as

education age and background Although the study acknowledges the limitations of sociological data in fully capturing the nuances of religious belief it aims to provide insight into the social context of these new religious movements and why certain individuals are attracted to them The author avoids adhering to any single sociological theory recognizing that different types of new religious movements such as yoga astrology and psychic phenomena require distinct explanations This work is part of a larger project to understand the changing religious landscape in America building on the research conducted by Wuthnow and others at the Survey Research Center This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1978

Bell, 2008 In *The Relevance of Bernard Lonergan's Notion of Self Appropriation to a Mystical Political Theology* Ian Bell takes on the issue of the separation of the interior and exterior lives that has come to dominate mystical theology over the years The mystical life he claims is necessarily involved in the establishment of social structures and institutions that govern human living and the work of Bernard Lonergan on the human subject provides a means by which the connection between the interior and exterior lives may be established Because human persons operate in a consistent pattern regardless of a given moment s particularities mystical experience is no longer relegated to so called spiritual matters and the insights of mystics may be applied to the Christian call to live as agents of love With this connection in place mystical theology and political theology come together in a theology that is both mystical and political
